### **What Young Children Really Need**

**from Grownups** Simon and Schuster  
NATIONAL BESTSELLER "I am just a common man who is true to his beliefs."-- John Wooden Evoking days gone by when coaches were respected as much for their off-court performances as for their success on the court, Wooden presents the timeless wisdom of legendary basketball coach John Wooden. In honest and telling passages about virtually every aspect of life, Coach shares his personal philosophy on family, achievement, success, and excellence. Raised on a small farm in

south-central Indiana, he offers lessons and wisdom learned throughout his career at UCLA, and life as a dedicated husband, father, and teacher. These lessons, along with personal letters from Bill Walton, Denny Crum, Kareem Abdul-Jabbar, and Bob Costas, among others, have made *Wooden: A Lifetime of Observations and Reflections on and off the Court* an inspirational classic.

Be Quick, But Don't Hurry presents the team-building management secrets of the greatest coach of the twentieth century, cloaked in the heartwarming tale of the reluctant protege who learned those

secrets in spite of himself. Perhaps the least controversial sports honor in living memory was the selection of John Wooden as "Coach of the Century" by ESPN, honoring his ten NCAA basketball championships in a twelve-year stretch. His UCLA teams won with great centers and with small lineups, with superstars and with team effort, always with quickness, always with class. Wooden was a teacher first and foremost, and his lessons -- taught on the basketball court, but applicable throughout one's life -- are summarized in his famed Pyramid of Success. Andrew Hill was one of the lucky young men who got to learn from Wooden in his favored classroom -- though that is

hardly how Hill would have described it at the time. An all-city high school player in Los Angeles, Hill played -- a little -- on three national champions, from 1970 to 1972. Hill was left embittered by his experience at UCLA; he was upset at how unequally Wooden treated his starting players and his substitutes. Hill went on to a successful career in television, rising to the presidency of CBS Productions, where he was responsible for the success of such popular series as *Touched by an Angel* and *Dr. Quinn, Medicine Woman*. Hill's job required him to manage many creative people, with the egos and insecurities that usually go along with such talents. And one day, some twenty-five years after he graduated, he was hit with the realization that everything he knew about getting the best out of people he had learned directly from Coach John Wooden. With no small trepidation, Hill picked up the phone to call and thank his old coach and unexpected mentor. To his surprise, Wooden greeted him warmly and enthusiastically. A strong friendship, sealed in frequent visits and conversations, ensued, and endures. *Be Quick -- But Don't Hurry!* tells the story of

that friendship. But it also shares the lessons and secrets that Hill learned from Coach Wooden, which hold the key to managing creatively in the idea-driven economy of the twenty-first century. Among those lessons are: -The team with the best players almost always wins -Be quick, but don't hurry: there is never enough time to be sure (and if you are sure, you're probably too late), but you must always keep your balance -Failing to prepare is preparing to fail -The team that makes the most mistakes...wins! Full of sound advice and warm reminiscence, *Be Quick -- But Don't Hurry!* is the management book of a lifetime. [A Book About Slowing Down](#) Times Books THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red

throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. \_\_\_\_\_

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

The sole survivor on a desperate, last-chance mission to save both humanity and the earth, Ryland Grace is hurtled into the depths of space when he must conquer an

extinction-level threat to our species. *Little Dinos Don't Bite* Simon and Schuster A provocative and revelatory new biography of the legendary UCLA coach John Wooden, by one of America's top college basketball writers No college basketball coach has ever dominated the sport like John Wooden. His UCLA teams reached unprecedented heights in the 1960s and '70s capped by a run of ten NCAA championships in twelve seasons and an eighty-eight-game winning streak, records that stand to this day. Wooden also became a renowned motivational speaker and writer, revered for his "Pyramid of Success." Seth Davis of Sports Illustrated and CBS Sports has written the definitive biography of Wooden, an unflinching portrait that draws on archival research and more than two hundred interviews with players, opponents, coaches, and even Wooden himself. Davis shows how hard Wooden strove for success, from his All-American playing days at Purdue through his early years as a high school and college coach to the glory days at UCLA, only to discover that reaching new heights brought new burdens and frustrations. Davis also

reveals how at the pinnacle of his career Wooden found himself on questionable ground with alumni, referees, assistants, and even some of his players. His was a life not only of lessons taught, but also of lessons learned. Woven into the story as well are the players who powered Wooden's championship teams – Kareem Abdul-Jabbar, Bill Walton, Walt Hazzard, and others – many of whom speak frankly about their coach. The portrait that emerges from Davis's remarkable biography is of a man in full, whose life story still resonates today.

"Christakis . . . expertly weaves academic research, personal experience and anecdotal evidence into her book . . . a bracing and convincing case that early education has reached a point of crisis . . . her book is a rare thing: a serious work of research that also happens to be well-written and personal . . . engaging and important." --Washington Post "What kids need from grown-ups (but aren't getting)...an impassioned plea for educators and parents to put down the worksheets and flash cards, ditch the tired

craft projects (yes, you, Thanksgiving Handprint Turkey) and exotic vocabulary lessons, and double-down on one, simple word: play." --NPR The New York Times bestseller that provides a bold challenge to the conventional wisdom about early childhood, with a pragmatic program to encourage parents and teachers to rethink how and where young children learn best by taking the child's eye view of the learning environment To a four-year-old watching bulldozers at a construction site or chasing butterflies in flight, the world is awash with promise. Little children come into the world hardwired to learn in virtually any setting and about any matter. Yet in today's preschool and kindergarten classrooms, learning has been reduced to scripted lessons and suspect metrics that too often undervalue a child's intelligence while overtaxing the child's growing brain. These mismatched expectations wreak havoc on the family: parents fear that if they choose the "wrong" program, their child won't get into the "right" college. But Yale early childhood expert Erika Christakis says our fears are wildly misplaced. Our anxiety about preparing and safeguarding our children's future

seems to have reached a fever pitch at a time when, ironically, science gives us more certainty than ever before that young children are exceptionally strong thinkers. In her pathbreaking book, Christakis explains what it's like to be a young child in America today, in a world designed by and for adults, where we have confused schooling with learning. She offers real-life solutions to real-life issues, with nuance and direction that takes us far beyond the usual prescriptions for fewer tests, more play. She looks at children's use of language, their artistic expressions, the way their imaginations grow, and how they build deep emotional bonds to stretch the boundaries of their small worlds. Rather than clutter their worlds with more and more stuff, sometimes the wisest course for us is to learn how to get out of their way. Christakis's message is energizing and reassuring: young children are inherently powerful, and they (and their parents) will flourish when we learn new ways of restoring the vital early learning environment to one that is best suited to the littlest learners. This bold and pragmatic challenge to the conventional wisdom peels back the mystery of

childhood, revealing a place that's rich with possibility.

Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family.

When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
