One of the easiest and fastest ways to create an additional stream of revenue from online sales is through an Amazon affiliate website. Although it's more the exception to the rule, some affiliates even earn six-figure incomes. "Realistically, if you're a full-time online business you'll monetize in several different ways, while the average person can earn a few hundred to maybe a couple thousand dollars," said Brian T. Edmondson, an internet income expert and coach based in Levittown, PA. Building your own site is low-cost, requires very little effort, and, in most cases, only takes a day to set up. Launching an affiliate site, however, is just the first step. The challenge is attracting the right traffic that will turn into product sales once a consumer clicks through to Amazon. The best results come from choosing the right niche-don't do what everyone else does. Focus on these methods to increase your odds of success Many explicit guides are available on affiliate marketing if you search online. You can study the ins and out of money-making online and have your way of beginning. We are here to discuss only how to promote Amazon affiliates if you're already involved with this program. Moreover, this book shows things in specific aspects. Straight from the zero, you can tweak your website an earning source with the proper affiliation. Are you pondering about how to overcome the unviable condition of your affiliate site? These tips compiled here are based on our experience and you can apply them to your project to gain more success.

This book is a guide for both new and existing affiliates of the Amazon Associates Program that are looking for reliable way to build WordPress websites to promote products to refer sales for commissions. It was originally created for a live Amazon affiliate coaching webinar series that had 12 classes. Each of those 12 classes is now a main chapter of this book. It is a complete tutorial on how to build your own Amazon affiliate website without having technical knowledge or web design experience. It is also a first-hand guide on the construction of the website built for the live trainees, so you actually get real-life examples and have a real website you can visit to use as a reference. Each main chapter begins with an introduction, summary and a checklist. The checklist is excellent to use to ensure you have completed all of the main steps for that particular class with the construction of your own website. You can also find two pages for personal notes after each checklist, so you can add your own info as you progress. Proceed through all of the sub-chapters for the first class. As you read through the lessons, try to work along with them on your computer. Complete the checklist for each class before going on to the next class. After you are done with all 12 classes and this book, you will not only have the knowledge you need to build Amazon affiliate websites, but you will also have your first site completed and running already! Simply repeat the process to make more sites - the more sites you make, the better your monthly earning potential. Affiliate marketing is a type of performance-based marketing in which a business rewards one or more affiliates for each visitor or customer brought by the affiliate's own marketing efforts. The industry has four core players: the merchant (also known as 'retailer' or 'brand'), the network (that contains offers for the affiliate to choose from and also takes care of the payments), the publisher (also known as 'the affiliate'), and the customer. The market has grown in complexity, resulting in the emergence of a secondary tier of players, including affiliate management agencies, super-affiliates and specialized third party vendors. Affiliate marketing overlaps with other Internet marketing methods to some degree, because affiliates often use regular advertising methods. Those methods include organic search engine optimization (SEO), paid search engine marketing (PPC - Pay Per Click), e-mail marketing, content marketing and in some sense display advertising. On the other hand, affiliates sometimes use less orthodox techniques, such as publishing reviews of products or services offered by a partner. Affiliate marketing is commonly confused with referral marketing, as both forms of marketing use third parties to drive sales to the retailer. However, both are distinct forms of marketing and the main difference between them is that affiliate marketing relies purely on financial motivations to drive sales while referral marketing relies on trust and personal relationships to drive sales.
