This revised edition of Bookmarks reflects the end of the coordination of the youth campaign by the Council Europe. The campaign may be officially over, but the education and awareness-raising to counter hate speech and promote human rights values remain an urgent task for young people of all ages. The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks was originally published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

English for Everyone: Level 2: Beginner, Course Book (Library Edition) Routledge

Now an HBO series: the first volume in the New York Times–bestselling “enduring masterpiece” about a lifelong friendship between two women from Naples (The Atlantic). Beginning in the 1950s in a poor but vibrant neighborhood on the outskirts of Naples, Elena Ferrante’s four-volume story spans almost sixty years, as its main characters, the fiery and unforgettable Lila and the bookish narrator, Elena, become women, wives, mothers, and leaders, all the while maintaining a complex and at times conflicted friendship. This first novel in the series follows Lila and Elena from their fateful meeting as ten-year-olds through their school years and adolescence. Through the lives of these two women, Ferrante tells the story of a neighborhood, a city, and a country as it is transformed in ways that, in turn, also transform the relationship between two women. “An intoxicatingly furious portrait of enmeshed friends.” —Entertainment Weekly “Spectacular.” —Maureen Corrigan, NPR’s Fresh Air “Captivating.” —The New Yorker

Giurisprudenza italiana Corso per la riparazione delle TV LCD e LEDLa mia storia Come tante altre Da oltre 30 anni coltivo la passione per le radio d'epoca.. Posso solo affermare che ogni volta che osservo una radio mi evoca una storia e, con l'immaginazione, la riporto nell'ambiente e tessuto sociale dove, probabilmente, e "vissuta." Mi sembrava un peccato non restituire alcune di queste sensazioni. A questo punto mi sono concesso il lusso di consegnarle alla carta, cominciando da quelle che ho avuto la fortuna di acquisire nel corso delle mie ricerche. L'intenzione e assolutamente autentica. E' per questo che auguro una buona lettura e una serena immersione nell'Italia di provincia dagli anni trenta ai settanta.

This book presents an energetic approach to the performance analysis of internal combustion engines, seen as attractive applications of the principles of thermodynamics, fluid mechanics and energy transfer. Paying particular attention to the presentation of theory and practice in a balanced ratio, the book is an important aid both for students and for technicians, who want to widen their knowledge of basic principles required for design and development of internal combustion engines. New engine technologies are covered, together with recent developments in terms of: intake and exhaust flow optimization, design and development of supercharging systems, fuel metering and spray characteristic control, fluid turbulence motions, traditional and advanced combustion process analysis, formation and control of pollutant emissions and noise, heat transfer and cooling, fossil and renewable fuels, mono- and multi-dimensional models of termo-fluid-dynamic processes.

A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we

appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Living among other people, in their families and communities, children become aware from a very early age of questions related to justice, and they search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights

education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Composito manual on human rights education for children' is for. 'Composito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a sense of justice, and help them learn how to take action to contribute to the betterment of their school or community. The manual also gives practical tips on how it can be used in various formal and non-formal educational settings.
