Hurled twelve hundred years into the past, into someone else's body, things could hardly be worse. And then the body's owner wanted it back... Museum curator Thomas and ten year old Anglo Saxon Wulfstan, have to cope with a fifty year age gap, a huge culture clash, and never knowing from one moment to the next who's going to be in control. If that wasn't enough, Wulfstan's father, King Offa of Mercia, has given his son just a year to find and prepare a team of ten female fighters to take on the King's champion. In the brute strength world of Anglo Saxon battle, he hasn't a hope. Thomas has a plan to help, but first he'll have to come to terms with eighth century Britain, with all its colour, violence, ignorance, and a disturbingly cavalier attitude to hygiene! And amidst all of that, he has to find ten amazing women willing to attempt the impossible. The inspiration for *In Two Minds*. If you woke up one day to find yourself hundreds of years in the past, you'd be okay, wouldn't you? I mean, after you'd got over the shock and everything, you'd know things that nobody else did, so you'd be rich in no time. Right? Ah, but do you know enough to actually do it, and could you get what you need to pull it off? The theory's one thing, actually doing it's quite another. And then there's the tiny little matter of fitting in with your new neighbours...

Winner of the 2013 Women's Prize for Fiction—A darkly comic novel of twenty-first-century domestic life by a writer who is always “compelling, devastating, and furiously good” (Zadie Smith) Harold Silver has spent a lifetime watching his younger brother, George, a taller, smarter, and more successful high-flying TV executive, acquire a covetable wife, two kids, and a beautiful home in the suburbs of New York City. But Harry, a historian and Nixon scholar, also knows George has a murderous temper, and when George loses control the result is an act of violence so shocking that both brothers are hurled into entirely new lives in which they both must seek absolution. Harry finds himself suddenly playing parent to his brother's two adolescent children, tumbling down the rabbit hole of Internet sex, dealing with aging parents who move through time like travelers on a fantastic voyage. As Harry builds a twenty-first-century family created by choice rather than biology, we become all the more aware of the ways in which our history, both personal and political, can become our destiny and either compel us to repeat our errors or be the catalyst for change. *May We Be Forgiven* is an unnerving, funny tale of unexpected intimacies and of how one deeply fractured family might begin to put itself back together.

In 1934, a brilliant young scientist, Walter Kempner (1903-1997), was brought as a refugee from Nazi Germany to join the faculty of Duke Hospital's department of medicine. The first AMA presentation, in 1944, of his unconventional research in the origins and treatment of metabolic diseases provoked wide attention and considerable controversy, but the results of his strict diet regimen were undeniable. Patients flocking to Durham for the famous Rice Diet found their diabetes, kidney and cardiovascular diseases—once considered fatal—cured or greatly improved. The headline-grabbing success of Dr. Kempner's diet contributed significantly over the years to Durham's economic growth and Duke's transformation into a world-famous center for medical research and care. From his arrival at Duke, Kempner worked to help friends get out of Germany. For several who had been scholars in pre-war Germany he found positions here. They and a few others associated with the Rice Diet became a close-knit community in exile around the central figure of Dr. Kempner.

One, author Barbara Newborg, worked with him for 40 years, much of that time as his chief medical associate. This first-hand account of Kempner's life and of his work comprises two dramatic interrelated narratives. The story of a charismatic but always controversial personality and his circle of accomplished followers, and their wartime experience as refugees and exiles, will interest general readers, including thousands of “Ricers.” For medical professionals and scholars, the book documents historic research that elucidated underlying principles of kidney, diabetic and cardiovascular disorders, and their successful treatment without drugs. The book includes many rare personal photographs (which Kempner suppressed during his life) and clinical images including graphs, x-rays, eye-grounds, and photos.

Toward Soviet America is a book written by Communist Party, USA Chairman William Z. Foster, in 1932. The book documented the rise of socialism in the Soviet Union, the crisis facing capitalism, the need for revolution, and a vision of what a socialist society would be like. The book also attacks social-democrats and liberals calling them “Social Fascists” because they seek to give the masses concessions in order to calm them and prevent communist revolution.
