There are so many unwanted chemicals in commercial soap and people are becoming more sensitive to it to the point where either for health reasons or just as a hobby, soap making is increasingly on the rise. "Soap Making Made Easy - A Beginner's Guide to Making Great Soap" is the perfect guide to get you started on making your own soap creation. What's nice is that you can make it to include fragrances that you like to smell or colors that you enjoy looking at. There's a

variety of recipes that you can try out. The basic ingredients mentioned in the book are things that you can easily find at any craft stores and of course your local grocery store including containers as well. Once you've made a batch and have used it, consult the book again and try a different recipe to see which one(s) becomes your favorite. It's both fun and interesting. Afterwards, you can tell your friends and family that you know how to make soap. Share a sample with them.

Process Soap Crafting Ultimate Guide to Making & Selling Colorful Natural Soaps (Recipes Included) Dioxane, Sulfate, Diethanolamine are some of the ingredients in commercial soap that I never questioned until I began making soap at home. That's when my curiosity got the best of me. After finding just these three, I wanted to call a truce to look for dangerous additives in what I used (and worse yet, my children used) to clean. That's when I thought I found the fourth one. Fragrance! How in the world could something that sounds as harmless as fragrance possibly damage your skin? How wrong I was. The definition of fragrance was a far cry in meaning than the

one on the soap label. I began making soap because it was a fun hobby I could share with my children. I continued because it morphed into a successful small business. But I'm now compelled to continue knowing that I'm contributing to the health of my family. I wanted to arrange the chapters in a logical order. So you are not confused as I was when I first started. This book is divided into Two Parts. In the first part, it is all about how to master the art of soap making using the Hot Process Method. In the second Part, I show how you can master the soap crafting using the Cold Process Method. At the end of each part, I give you a few recipes to try out your newly

acquired skill, but no worries, these recipes are designed to guide you through each and every step from start to finish. And lastly, in chapter 16, it is all about how to start, run and grow your soap business right from home. After reading the book, you will become a master on how to make homemade soap using both Hot & Cold Process methods. You will also learn about all soap making supplies, my favorite soap making recipes and most importantly you will know the difference between store bought commercial soap vs. all natural and organic soap made right at home. If you have any question, I have added my personal email address at the end of

the book, so you can contact me.

This recipe book contains 50 recipes for cold process soap and 64 essential oil blends. Recipes include classics such as Oatmeal Lavender, Oatmeal Milk & Honey, Aloe & Cucumber and Pumpkin Spice. Some recipes are more unique, including Summit Soap, Yarrow Shave Soap, Pumpkin Lavender, Almond Orange and Mocha Mint. The recipes are

categorized into seven categories including Basic Bars, Designed Recipes, Salt Bars, Bar Soap for the Face, Exfoliating Bars, For the Fellas and Alternative Liquids. Each recipe, except for those in the Basic Bars category, includes an essential oil blend and some contain additives for color or exfoliation. 20 more essential oil blends are listed at the end, giving you 64 blends total! Though it does contain basic steps, it is not an advanced soapmaking book and doesn't go into details on advanced soapmaking topics. The recipes and essential oil blends in this book are provided to inspire creative formulation on your part. Sure you can use a recipe as-is, but don't be afraid to experiment

Natural soap is a great way to keep yourself clean without exposing your skin to harsh chemicals, dyes, and scents. Making that natural soap at home is a great way to ensure

that you are getting exactly what you want in your soap. However, not everyone wants to make their own soap. Lye, a caustic chemical used in making soap can be extremely dangerous and frightening for inexperienced soap makers. Luckily there is a way to make natural soap at home without using lye. If you want to learn the secrets of the art then *Soap Making from Scratch* by April Weatherly is the best book for you to use to get started.

Commercial soap is full of chemicals that are hard to pronounce. Chemicals are added in to create lather, add shine, give the soap color and scent, and preserve the bar for longer times. On the other side, natural

soaps are made from thing you can both pronounce and understand like goat's milk, olive oil, and your favorite essential oils. April learned that lye that is commonly used in soaps is dangerous. It is poisonous is accidentally swallowed by young children or pets. It can also cause serious chemical burns if spilled. This is why many people are looking for ways to make natural soaps without lye. Unfortunately, there is no true soap without lye, yet you can skip the lye process by using melt and pour soaps. There are several melt and pour glycerin soap kits that you can use to make your own natural soaps. Learn the trade secrets of making safe soap in Soap Making

from Scratch.
