IN an epistle to the Egyptian Anebo, assigned to Porphyry, the learned Greek writer asked, "What is the meaning of these mystic Narrations which say that a certain divinity is unfolded into Light from mire; that he is seated above a lotus, that he sails in a ship, and that he changes his form every hour according to the sign of the Zodiac? If these things are asserted symbolically, being symbols of the powers of this divinity, I request an interpretation of these symbols." According to Proclus, in his Commentary on the Enneads of Plotinus, Jamblichus wrote his work on the Mysteries as a reply to the pertinent questioning of Porphyry.<sup>1</sup> But Jamblichus, like so many who have followed him, began with things where he first met with them, on the surface, in their latest phase. He represented the Egyptians as worshippers of the one God, uncreated, unique, omnipotent, and universal. He starts with this as their starting-point, and affirms that all the other gods of the Pantheon are nothing more than the various attributes and powers of the Supreme personified. In short, he makes Monotheism the foundation instead of the summit of the Egyptian religion. This view has been maintained by several Egyptologists.

Master barista Sage Caplin is opening a new coffee cart in Portland, Oregon, but a killer is brewing up a world of trouble. . . . Portland is famous for its rain, hipsters, craft beers . . . and coffee. Sage Caplin has high hopes for her coffee cart, Ground Rules, which she runs with her business partner, Harley—a genius at roasting beans and devising new blends. That's essential in a city where locals have intensely strong opinions about cappuccino versus macchiato—especially in the case of one of Sage's very first customers. . . . Sage finds the man's body in front of her cart, a fatal slash across his neck. There's been plenty of anger in the air, from longtime vendors annoyed at Ground Rules taking a coveted spot in the food truck lot, to protesters demonstrating against a new high-rise. But who was mad enough to commit murder? Sage is already fending off trouble in the form of her estranged, con-artist mother, who's trying to trickle back into her life. But when Sage's very own box cutter is discovered to be the murder weapon, she needs to focus on finding the killer fast—before her business, and her life, come to a bitter end. . . .

However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in *Setting the Standard for Project Based Learning* and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together. Gerald Massey turned his vast studies in the field of Egyptology into *A Book of the Beginnings*, a bold statement that the origin of all civilization lays in ancient Egypt. His assertions, radical at the time—indeed, almost a century before the discovery of three-million-year-old human remains in Africa—resonate loudly today, when molecular biology is making corresponding discoveries alongside the still-raging creation-versus-evolution controversy. In Volume II, Massey intelligently argues an Egyptian origin for Biblical symbology, lexicography, and mythology. Here, he not only asks if the oldest Jewish and Christian axioms were really born on the banks of the Nile, he offers a stalwart and profound "Yes!"

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. *Stand Firm: Apologetics and the Brilliance of the Gospel* argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

Egyptologist Gerald Massey challenged readers in *A Book of the Beginnings* to consider the argument that Egypt was the birthplace of civilization and that the widespread monotheistic vision of man and the metaphysical was, in fact, based on ancient Egyptian mythos. In *The Natural Genesis*, Massey delivers a sequel, delving deeper into his compelling polemic. In Volume I, he offers a more intellectual, fine-tuned analysis of the development of society out of Egypt. From the simplest signs (numbers, the cross) to the grandest archetypes (darkness, the mother figure), Massey carefully and confidently lays the cultural and psychosocial bricks of Evolutionism. British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including *A Book of the Beginnings* and *Ancient Egypt: The Light of the World*.
