Over the past fifty years, (financial) capitalism has brought about an enormous growth in wealth. Millions around the world have been lifted out of poverty. However, the downsides of the present global economic constitution are rapidly becoming evident as well. Rising inequality, soaring debt levels, and repeated cycles of boom and bust have proven to be some of its key characteristics. After the 2008 crisis brought the financial system to the brink of collapse, new regulations, stricter supervision, higher capital requirements, and ethical codes were introduced to the sector. Today we find ourselves in the middle of another economic boom. Yet one pressing question remains: has anything changed? Have the (necessary) repairs fixed the flaws in the system? Or do we require even more fundamental reforms? This volume builds on the observation that society has co-evolved with the financial sector. We cannot simply claim that 'finance' was the sole instigator of the 2008 crisis. Society itself has become financialized; the process of replacing relations, structures of trust and reciprocity, by anonymous and systemic transactions. The volume poses vital questions with regard to this societal development. How did this happen? And more importantly: is change possible? If yes, how? This volume contains 21 essays on the themes mentioned above. Authors include Jan Peter Balkenende, Wouter Bos, Lans Bovenberg, Govert Buijs, and Herman Van Rompuy. A recommendation by Dutch Minister of Finance Wopke Hoekstra is also included.

This book traces the formation of Italian migrant belongings in Britain, and scrutinizes the identity narratives through which they are stabilized. A key theme of this study is the constitution of identity through both movement and attachment. The study follows the Italian identity project since 1975, when community leaders first raised concerns about 'the future of invisible immigrants'. The author uses the image of 'invisible immigrants' as the starting point of her inquiry, for it captures the ambivalent position Italians occupy within the British political and social landscape. As a cultural minority absorbed within the white European majority, their project is steeped in the ideal of visibility that relies on various 'displays of presence'. Drawing on a wide range of material, from historical narratives, to political debates, processions, religious rituals, activities of the Women's Club, war remembrances, card games, and beauty contests, the author explores the notion of migrant belongings in relation to performative acts that produce what they claim to be reproducing. She reveals how these acts work upon the historical and cultural environment to re-member localized terrains of migrant belongings, while they simultaneously manufacture gendered, generational and ethnicized subjects. Located at the crossroads of cultural studies, 'diaspora' studies, and feminist/queer theory, this book is distinctive in connecting an empirical study with wider theoretical debates on identity. Nominated for the Philip Abrams Memorial Book Prize 2001.

The last decade has seen an incredible growth in the production and distribution of images and other cultural artefacts. The internet is the place where all these cultural products are stored, classified, voted, collected and trashed. What is the impact of this process on art making and on the artist? Which kind of dialogue is going on between amateur practices and codified languages? How does art respond to the society of information? This is a book about endless archives, image collections, bees plundering from flower to flower and hunters crawling through the online wilderness. Essays on "how motion pictures in the first two decades of the 20th century constructed 'communities of nationality' . . . recommended." —Choice While many studies have been written on national cinemas, *Early Cinema and the "National"* is the first anthology to focus on the concept of national film culture from a wide methodological spectrum of interests, including not only visual and narrative forms, but also international geopolitics, exhibition and marketing practices, and pressing linkages to national imageries. The essays in this richly illustrated landmark anthology are devoted to reconsidering the nation as a framing category for writing cinema history. Many of the 34 contributors show that concepts of a national identity played a role in establishing the parameters of cinema's early development, from technological change to discourses of stardom, from emerging genres to intertitling practices. Yet, as others attest, national meanings could often become knotty in other contexts, when concepts of nationhood were contested in relation to colonial/imperial histories and regional configurations. *Early Cinema and the "National"* takes stock of a formative moment in cinema history, tracing the beginnings of the process whereby nations learned to imagine themselves through moving images.

World-renowned canopy biologist Nalini Nadkarni has climbed trees on four continents with scientists, students, artists, clergymen, musicians, activists, loggers, legislators, and Inuits, gathering diverse perspectives. In *Between Earth and Sky*, a rich tapestry of personal stories, information, art, and photography, she becomes our captivating guide to the leafy wilderness above our heads. Through her luminous narrative, we embark on a multifaceted exploration of trees that illuminates the profound connections we have with them, the dazzling array of goods and services they provide, and the powerful lessons they hold for us. Nadkarni describes trees' intricate root systems, their highly evolved and still not completely understood canopies, their role in commerce and medicine, their existence in city centers and in extreme habitats of mountaintops and deserts, and their important place in folklore and the arts. She explains tree fundamentals and considers the symbolic role they have assumed in culture and religion. In a book that reawakens our sense of wonder at the fascinating world of trees, we ultimately find entry to the entire natural world and rediscover our own place in it.

Life and Death of Harriett Freen Pearson Higher Ed

Raised in a restrictive and oppressive household, Harriet Freen is used to sacrificing her own happiness and comfort for the sake of others, in fact, she's proud of it. Taught that women were to be submissive, pious, kind, and quiet, Harriet molds herself into the perfect Victorian woman. Though she struggles with the crushing expectations of Victorian gender roles, Harriet finds comfort in her close relationship with Prissy, her best friend. As the two grow older, they conform to their

expected mold. With Prissy's support, Harriet continues her dedication to being the perfect woman, and is in pursuit of a husband. However, when Harriet finally falls in love, she is overcome by a crisis of conscience. Her entire perception of herself is shaken and her beliefs are challenged, because she has fallen for an unavailable man. Unsure how to process her feelings, Harriet begins to isolate herself in shame, because she cannot possibly tell anybody, not even Prissy, that she is in love with her best friend's fiancé. Originally published under one-hundred years ago, May Sinclair's *Life and Death of Harriet Freen* explores questionable ideals still present in modern society. With topics of romance, gender roles, and identity, *Life and Death of Harriet Freen* is both timeless and a perfect record of the harmful ideals of English Victorian society. As a pioneer of the stream-of-consciousness literary style, Sinclair's prose is captivating and brilliant, allowing her characters to feel real and familiar to readers, creating a narrative that is undeniably compelling. This edition of *Life and Death of Harriet Freen* by May Sinclair now features an eye-catching new cover design and is printed in a font that is both modern and readable. With these accommodations, this edition of *Life and Death of Harriet Freen* creates an accessible and pleasant reading experience for modern audiences while restoring the original brilliance and insight of May Sinclair's work.

The young British photographer Nick Knight discovered the beauty of dried plants on a stroll through the herbarium, the "library of pressed flowers," at the Natural History Museum in London. These flowers were a source of such fascination to the photographer that in 1997 he devoted his second large photo album to them. A classic of plant photography, Nick Knight: *Flora* is now available again in an unchanged edition.

Compact Preliminary for Schools Student's Book Without Answers with CD-ROM McGraw-Hill Education (UK)

Seeing is believing. This is the title of a new campaign promoted by the International Agency for Prevention of Blindness to raise funds to help tackle avoidable loss of sight in poorly developed countries, truly an admirable initiative. This book could have used a similar leitmotiv: if you see what happens inside of a joint, you will be able to believe in your patient's symptoms. But it would not be right. Arthroscopy is not out there just to make a diagnosis; it was not developed just to certify that the patient's complaints are based on something physical. Arthroscopy was introduced to help patients, to make our treatments more reliable, to have better control of our procedures. It is merely a tool, indeed, but a marvelous one which nobody should underrate among all surgical options we have when it comes to solving wrist trauma. Seeing is understanding. This could be another leitmotiv for these authors' campaign to get more hand surgeons to incorporate arthroscopy in their practices. Certainly, mastering these newly developed techniques help understanding the patient's problems. But again, that statement would also be misleading for not always what we see through the scope is the real cause of dysfunction. The enemy may be outside of the capsular enclosure. Indeed, arthroscopy provides lots of useful information, but the surgeon need not accept biased interpretations of the patient's problem based only on what appears on the screen.
