"Maintenance of order and curbing violence--the core constituents of internal security--are fundamental responsibilities of any government. developing countries find this task especially challenging since they face a multitude of internal security threats, either caused by misgovernance, internal political turmoil, or provoked from outside. Since independence, the Indian state has grappled with a variety of internal security challenges including insurgencies, terrorist attacks, caste and communal violence, riots, and electoral violence. Their toll has claimed more lives than all of India's five external wars put together. However, after a sharp upswing in the 1980s and 1990s, a number of violence-related indicators have declined over the past two decades. This drop in violence, its causes and implications, have largely gone unnoticed. Three broad questions animate the discussions in "Internal Security in India". What has been the record of the Indian State in controlling violence and preserving order? How have the approaches and capacity of the State evolved to attain these twin objectives? And what have been the implications of the State's approach towards internal security for civil liberties and the quality of democracy?"--

Short-listed for the Society for Army Historical Research UK's Templer Medal Best First Book Prize, 2020 In the Indian Army of the British Raj, the officer corps was "reserved for the governing race"— in other words, the British. Only in 1917, a mere thirty years before India won its freedom, did the Raj permit Indians into the Army's officer corps, thus slowly beginning its Indianization. Yet it is often forgotten that this decision was the culmination of a hundred-year-long debate. Based on meticulous archival research in Britain and India, Indianization, the Officer Corps, and the Indian Army breaks new ground by offering

readers the first detailed account of this generally forgotten debate. It traces the myriad schemes and counter-schemes the debate generated, the complex twists and turns it took, and how it engaged both British policymakers anxious to maintain control as well as nationalist Indian leaders agitating for greater self-government. This work also offers insights into the martial races concept, the 1857 uprising, and the impact of Anglo-Indian ideology upon the Indian Army. Clearly written and carefully argued, it is an original and defining contribution to military/war and society history, the history of colonial India and its army, the history of British empire, the history of racism, and civil-military relations.

Volume 1 of 4. The January and July issues of the Indian Army List contain not only the distribution of officers on the active list of the Army in India, including officers of British army regiments, battalions etc stationed in India, but are supplemented by the addition of Orders of Knighthood, Honours and Awards, including Foreign Orders, by the non-effective officer list and the War Services of officers of the Indian Army. Details of each officer include dates of birth (except for wartime commissioned officers), date of first commission, of appointment to the Indian Army and dates of promotion. Officers are grouped according to their rank and by seniority within that rank, and are again shown under their regiments/battalions. In the case of British units, their date of arrival in India is shown, and with Indian units their date of formation and changes in title since, plus details of the backgrounds of men recruited, e.g. Sikhs, Punjabis, Dogras, Rajputs, etc. This army list also includes all native Viceroy Commissioned Officers - Subadar Majors, Subadars and Jemadars - and their war services, Major HQs and their staffs, divisional and brigade commanders and their staffs, schools, colleges, Administrative Departments of the Army are all shown. Non-regular Indian Defence Force units such as 22nd Bengal and North-Western railway Battalion, and the Indian Army Reserve of Officers are all there, along with British Warrant Officers serving in departments of the Indian Army. In 1914 there were 116 Indian and 10 Gurkha Regiments, all with one battalion apart from the cavalry, 32 Indian and one Gurkha regiment had been formed and the majority of the original regiments had raised second and sometimes third battalions. This splendid four-volume work reflects the tremendous contribution made by the Indian Army to the Empire's war effort. A full index is included.

Books

In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that "American military officers, of whatever service, should share common ground ethically and morally." In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.
