Decentralizati
on and
Democracy in

Latin America
Rowman &
Littlefield
The nine

essays in this collection represent the first book-length treatment of one of the major changes that have shaped Latin America since independence: decentralization of the state. Contributors argue that though the assignment of political, fiscal, and administrative duties to subnational governments has been one of the most important political developments in Latin America, it is also one of the

most overlooked. This volume is divided into three sections. Part one presents an overview of the topic by the editors; part two considers the political origins of decentralization; and part three examines decentralization and economic reforms. Decentralization and Democracy in Latin America explores the causes of decentralization in six significant case studies:

Argentina, Bolivia, Brazil, Chile, Mexico, and Venezuela. Shorter analyses of Uruguay and Peru are also included. The essays in this volume find substantial common ground across regime types, historical periods, and countries, and yield several substantive conclusions. First, historical-institutional and socioeconomic legacies matter. Second, democratization and

<p>neoliberal reform are neither necessary nor sufficient to explain</p> <p><u>More Thrilling Tales From UK and US Operators of the McDonnell Douglas F-4</u></p> <p>Ever FaithfulRace, Loyalty, and the Ends of Empire in Spanish Cuba</p> <p>Ever FaithfulRace, Loyalty, and the Ends of Empire in Spanish Cuba</p> <p>Duke University Press</p> <p>Phantom Boys Volume 2</p> <p>Palgrave Macmillan</p> <p>Known for</p>	<p>much of the nineteenth century as "the ever-faithful isle," Cuba did not earn its independence from Spain until 1898, long after most American colonies had achieved emancipation from European rule. In this groundbreaking history, David Sartorius explores the relationship between political allegiance and race in nineteenth-century Cuba. Challenging</p>	<p>assumptions that loyalty to the Spanish empire was the exclusive province of the white Cuban elite, he examines the free and enslaved people of African descent who actively supported colonialism. By claiming loyalty, many black and mulatto Cubans attained some degree of social mobility, legal freedom, and political inclusion in a world where hierarchy and inequality</p>
---	--	---

were the fundamental lineaments of colonial subjectivity. Sartorius explores Cuba's battlefields, plantations, and meeting halls to consider the goals and limits of loyalty. In the process, he makes a bold call for fresh perspectives on imperial ideologies of race and on the rich political history of the African diaspora. 130 artistas, 24 curadoras Grub Street This edited

volume brings together essays that examine recent scholarship on the history of the Rio de la Plata region (present-day Argentina, Paraguay, Uruguay and southern Brazil) from the colonial period to the nineteenth century. It illustrates new themes and historical methods that have transformed the historiography of Rio de la Plata, including the use of new sources,

digital methodologies and techniques, and innovative approaches to the already well-studied themes of gender, race, commerce, the slave trade, indigenous history, and economic, political, and military history. Contributions privilege trans-national and Atlantic approaches to the Rio de la Plata, emphasizing the inter-connections of processes beyond imperial and

national lines, and aiming at uncovering the history of Africans and Amerindians, popular classes, women, urban groups, as well as the partnerships created across the Spanish and Portuguese imperial borders, which also involved other agents from Britain, the Netherlands, and the United States. Furthermore, each chapter offers historiographical introductions covering

scholarship produced in the twenty-first century. This book will be an indispensable and unique tool for English speaking students of colonial and nineteenth-century Rio de la Plata and for those with a broader interest in Latin American and Atlantic History.

Phantom

Boys

McFarland
The Catholic Church acted as a mediator during social and political change in several Latin American countries from the 1960s through the 1990s: the Dominican Republic, Bolivia, Guatemala, Nicaragua, and El Salvador. Although the Catholic clergy was called to mediate in political crises in all five countries, in the Dominican Republic the Church's role

as mediator was eventually institutionalized. A historical examination of church-state relations and case study of the Dominican Republic leads into important regional comparisons that broaden our understanding of the Catholic Church in the whole of Latin America.

Springer Nature Includes debates and documents. *Disability in the Americas* Grub Street Publishing From Richard Pike, best-selling author of Hunter Boys and The Lightning Boys volumes, comes the newest addition to Grub Street's popular Boys series; Phantom

Boys. Originally developed for the US Navy, this twin-engine supersonic long-range fighter-bomber first flew in the spring of 1958. It then entered service for the US Navy in 1961, and in 1969 with the Fleet Air Arm and RAF in the UK. Regarded as one of the most versatile fighters ever built, the Phantom F-4 was the US Navy's fastest and highest-flying aircraft. It was flown by both

US military demonstration teams (Navy Blue Angels and the Air Force Thundercats) from 1969 to 1973. It ended its service in 1991 with the RAF. But it continued to serve a variety of air forces across the world, with some still in service fifty years after its first flight. Throughout the twenty chapters of this book, thirteen contributors will take readers across the world with adventures in the Falkland

Islands, the United States of America, the United Kingdom, the Far East and Germany. There are anecdotes of reconnaissance missions, encounters with the Russian Tupolevs, record-breaking flights and life on HMS Ark Royal. The scope, flair and pace of the writing in this book will appeal to the general reader as well as to the enthusiast. Anuario latinoamericano de las artes

plásticas UCL Press The highly anticipated follow-up to Phantom Boys is here! Once again Richard Pike has brought together brilliant, hitherto unpublished, accounts across eighteen chapters. And now there is coverage of the Americans. So, with both British and American perspectives, Phantom Boys 2 is packed with exhilarating action. From combat in the

Vietnam War to life after the Falklands War, readers will experience a variety of wartime and peacetime tales. An array of narratives from air and ground crew cover adventures across the world; from the UK, US and Germany to the Far East. It also includes the fascinating story of one female fighter controller's chance to fly in a Phantom during the 1970s. Throughout the book

Richard Pike captures the drama and emotion of life in the cockpit. With such detailed stories, readers will be gripped by this captivating book. [Legislación y jurisprudencia \(notas y comentarios\)](#) Springer Nature Comics Beyond the Page in Latin America is a cutting-edge study of the expanding worlds of Latin American comics. Despite lack of funding and institutional

support, not since the mid-twentieth century have comics in the region been so dynamic, so diverse and so engaged with pressing social and cultural issues. Comics are being used as essential tools in debates about, for example, digital cultures, gender identities and political disenfranchisement. **True Tales from Aircrew of the McDonnell Douglas F-4 Fighter-**

Bomber Casemate Publishers This edited volume highlights the rich and complex educational debates around Critical Disability Studies in Education (DSE), critical mental health, and crip theories. Chapter authors use the term Dis/ability to criticize aspects of education research and international development that do not center the experiences of dis/abled students and people with dis/abilities. Through case studies from around the Americas, chapters highlight how top-down approaches to disabilities further oppress rather than emancipate. The volume prioritizes the spaces of resistance where local initiatives speak back to the demands imposed by an ever-globalizing world shaped by colonialism and imperialism, undergird by intersectional ableism. Voices of disabled students and people with dis/abilities counter-narrate the personal, interpersonal, structural, and political ways in which biomedical and psychological models of disability have impacted their well-being throughout education and society in the Americas. Through a critical sentipensante approach that centers the “epistemologies of the

south," this volume challenges global mental health and dis/ability hegemony in the Americas.

Derecho notarial argentino, teoría aplicada y práctica notarial

The highly anticipated follow-up has "more scintillating stories from both the front and rear cockpits of one of the world's most legendary jet fighters" (Air Classics). Once again Richard Pike has brought

together brilliant, hitherto unpublished accounts across eighteen chapters. And now there is coverage of the Americans. So, with both British and American perspectives, Phantom Boys 2 is packed with exhilarating action. From combat in the Vietnam War to life after the Falklands War, readers will experience a variety of wartime and peacetime tales. An array

of narratives from air and ground crew cover adventures across the world; from the UK, US and Germany to the Far East. It also includes the fascinating story of one female fighter controller's chance to fly in a Phantom during the 1970s. Throughout the book Richard Pike captures the drama and emotion of life in the cockpit. With such detailed stories, readers will be gripped by

this captivating book. “Pike has done an excellent job of drawing the reader into the cockpit and then into the skies. The shared tales are engaging and quickly read. While each tale is relatively short—typically less than fifteen pages—all are packed with the details, sights, and sounds of flying one of the modern age’s most iconic jet fighters.” —Air Power History

jurisprudencia
--legislación--

doctrina
This work provides biographies of more than 500 men and women who have served as admiral, vice admiral, or rear admiral. While officers from the U.S., British, French and Japanese navies make up the bulk of the work, officers from 22 countries, including Australia, Canada, Germany, India, Italy, the Netherlands, Russia, and Spain, are also included. The main criterion

for inclusion is that each person must have actively served in the rank of at least rear admiral, but not necessarily in enemy action. This effectively rules out people who were granted the rank on retirement, as a courtesy title or posthumously. The book also includes lists of admirals organized by nationality and by year of birth.
