Think homeschooling is only for a handful of eccentrics on either end of the political spectrum? Think again. Today in America, two million primary- and secondary-school students are homeschooled. Growing at a rate of 10 percent annually, homeschooling represents the most dramatic change in American education since the invention of the mimeograph—and the story has only just begun. In *The Year of Learning Dangerously*, popular blogger, author, and former child actor Quinn Cummings recounts her family’s decision to wade into the unfamiliar waters of homeschooling—despite a chronic lack of discipline, some major gaps in academic knowledge, and a serious case of math aversion. (That description refers to Quinn.) Trying out the latest trends, attending key conferences (incognito, of course), and recounting the highlights and lowlights along the way, Quinn takes her daughter’s education into her own hands, for better and for worse. Part memoir, part social commentary, and part how-not-to guide, *The Year of Learning Dangerously* will make you laugh and make you think. And it may or may not have a quiz at the end. OK, there isn’t a quiz. Probably.

A warm, intimate account of the love between Eleanor Roosevelt and reporter Lorena Hickok—a relationship that, over more than three decades, transformed both women's lives and empowered them to play significant roles in one of the most tumultuous periods in American history. In 1932, as her husband assumed the presidency, Eleanor Roosevelt entered the claustrophobic, duty-bound existence of the First Lady with dread. By that time, she had put her deep disappointment in her marriage behind her and developed an independent life—now threatened by the public role she would be forced to play. A lifeline came to her in the form of a feisty campaign reporter for the Associated Press: Lorena Hickok. Over the next thirty years, until Eleanor’s death, the two women carried on an extraordinary relationship: They were, at different points, lovers, confidantes, professional advisors, and caring friends. They couldn't have been more different. Eleanor had been raised in one of the nation’s most powerful political families and was introduced to society as a debutante before marrying her distant cousin, Franklin. Hick, as she was known, had grown up poor in rural South Dakota and worked as a servant girl after she escaped an abusive home, eventually becoming one of the most respected reporters at the AP. Her admiration drew the buttoned-up Eleanor out of her shell, and the two quickly fell in love. For the next thirteen years, Hick had her own room at the White House, next door to the First Lady. These fiercely compassionate women inspired each other to right the wrongs of the turbulent era in which they lived. During the Depression, Hick reported from the nation’s poorest areas for the WPA, and Eleanor used these reports to lobby her husband for New Deal programs. Hick encouraged Eleanor to turn their frequent letters into her popular and long-lasting syndicated column "My Day," and to befriend the female journalists who became her champions. When Eleanor’s tenure as First Lady ended with FDR's death, Hick pushed her to continue to use her popularity for good—advice Eleanor took by leading the UN’s postwar Human Rights Commission. At every turn, the bond these women shared was grounded in their determination to better their troubled world. Deeply researched and told with great warmth, Eleanor and Hick is a vivid portrait of love and a revealing look at how an unlikely romance influenced some of the most consequential years in American history.
