in trouble today. That is clear. Effective methods of combating this trend are less evident. Counselors, pastors and social workers need more than mere theories or mere moralizing. They need a practical and comprehensive model for understanding couples and their problems. They need a thoroughly Christian perspective that is biblical, compassionate and human. Everett

Worthington provides this in an integrated, biblically based theory of marriage and marriage therapy with analysis at three levels: the individual, the couple and the family. The model he has constructed, with techniques drawn from the major psychological schools, is standard enough to guide counselors in actual interventions and powerful enough to produce

change. A thoroughgoing overview of the assessment process includes practical, workable guidelines for: creating realistic, mutually-agreeable goals for counselor and clients; estimating the number of sessions needed to reach those goals; and planning the actual assessment, intervention and termination sessions. Next Worthington offers specific

techniques for enhancing cooperative change, intimacy, communication, conflict resolution and forgiveness within the marriage. But keeping couples from slipping back into old patterns is one of the counselor's most difficult tasks. So Worthington concludes with suggestions for solidifying change and effectively concluding the counseling relationship. Here is a text that will be a

standard for counselors, pastors and mental health professionals in the years to come.

**Tests in Print** Moody Publishers How do you know if you're ready to marry? What are the signs that a man and a woman are heading in the same direction and are right for each other? In this booklet a biblical counselor and a pastor team up to offer five pertinent questions that will help couples decide

whether to commit themselves to each other for life. These questions bring to light basic convictions, assumptions, expectations, priorities, and more. As couples think through and discuss them, they will get to know themselves and each other better-a wise investment toward building a marriage on a solid foundation, with Christ at the center.

Counseling Before Marriage P & R Publishing  
Islamic counselling is a form of counselling which incorporates spirituality

into the therapeutic process. Until now there has been little material available on the subject with no one agreed definition of Islamic counselling and what it involves. There has also been a rapidly growing population of Muslims in Western societies with a corresponding rise in need of psychological and counselling services. Islamic Counselling: An

Introduction to theory and practice presents a basic understanding of Islamic counselling for counsellors and Islamic counsellors, and provides an understanding of counselling approaches congruent with Islamic beliefs and practices from a faith-based perspective. The book is designed as an introduction for counsellors, its goal is to inform the reader about how the

diverse roles of the Islamic counsellor fit together in a comprehensive way and to provide the guidelines that can be potentially integrated into a theoretical framework for use. The book is divided into two parts. Section one: Context and Background, and Section two: Assessment, Models and Intervention Strategies. Islamic Counselling encompasses both current theory, research and

an awareness of the practice implications in delivering appropriate and effective counselling interventions with Muslim clients. It will be essential reading for both professionals and students alike.

Zondervan  
This study examined relationships between married couples and couples

communication patterns and theories on interpersonal communication. One hundred seventy-eight students from Washington, DC, metropolitan campuses of Strayer University participated in the study. Couples Pre-Counseling Inventory, a validated instrument, was used to examine the participants' communication patterns; results were analyzed using SPSS. Variables studied were

demographic data, communication patterns, happiness, satisfaction in the couple relationship, and several indices of personal life. Significant differences were found linking communication patterns to general and specific happiness; to satisfaction with the marital relationship; and to management of personal life. In addition, the study revealed significant

differences between men and women in the sample, with women less satisfied than men on several variables. The findings thus indicate that the variables studied are related, in a complex manner, to the nature and quality of communication as a factor in many aspects of marriage and family life. The study opens the door for future research considering other variables, such as

ethnic, cultural, and socioeconomic status. *101 Questions to Ask Before You Get Engaged* Harmony The two authors of this book, Linda Grenz and Del Glover, say at the outset that they are ordinary Christians writing for ordinary Christians and congregations. So why has this book become a classic for couples about to marry, already married, and

the congregations that support them? Because they approach the ordinary issues couples face in marriage from the life-experience perspectives of an Episcopal priest (Linda) and a former corporate executive (Del) who worked with people as they faced various family-related issues. They invite readers to use the book in ways that speak most directly to them and offer

questions for the couple to discuss and others that engage a congregation. The book is interspersed with relevant quotes from scripture with probing questions for the individual to consider.
