A young art student enlists as a combat engineer in World War One. He draws what he sees in a number of canvas-bound sketchbooks which he carries in his helmet. From the time he enters training camp, throughout many battles and until he returns to the U.S. after the Armistice, he is constantly drawing whatever is around him. Once he is home, he returns to art school and his sketchbooks are put away. Ninety years later, his son runs across them in his attic. The Lost Sketchbooks is the book that tells the story of his experiences in The Great War and finally shares his marvelous artwork with the world.
