Detailed attention to compliance with labour and employment laws is crucial for success in setting up business in a foreign country. This book – one of a series derived from Kluwer's matchless publication International Labour and Employment Compliance Handbook – focuses on the relevant laws and regulations in the United Arab Emirates. It is thoroughly practical in orientation. Employers and their counsel can be

assured that it fulfills the need for accurate and detailed knowledge of laws in the United Arab Emirates on all aspects of employment, from recruiting to termination, working conditions, compensation and benefits to collective bargaining. The volume proceeds in a logical sequence through such topics as the following: - written and oral contracts - interviewing and screening - evaluations and warnings - severance pay - reductions in force - temporary workers - trade union rights - wage and hour laws - employee benefits - workers' compensation - safety and environmental regulations - immigration law compliance - restrictive covenants - anti-discrimination laws -

employee privacy rights - dispute resolution - recordkeeping requirements A wealth of practical features such as checklists of do's and don'ts, step-by-step compliance measures, applicable fines and penalties, and much more contribute to the book's day-to-day usefulness. Easy to understand for lawyers and non-lawyers alike, this book is sure to be welcomed by business executives and human resources professionals, as well as by corporate counsel and business lawyers. *The Global Innovation Index 2015* Springer

“When you call the customer king, you must give him royal treatment” This message from the authors of the book you hold in your hand reaffirms one of the most time-honoured corporate mantras for growth, survival and success. *Power of High Touch* is a power-packed rulebook for practicing managers, entrepreneurs, CEOs, business leaders and research scholars looking to understand, appreciate and apply the significance of customer care and hospitality in any industry. Recounting varied experiences from their rich repertoire, the authors exemplify that

flawless customer care is only possible when it is pursued as a mission, with not just talent but extraordinary perseverance to achieve desired results. Tomorrow’s empowered customer will be more demanding than can you see in your mind’s eye today, the authors predict. Especially, in a world full of shifting business paradigms and innovation where the customer has been steadily gaining space and significance. Cultivating and nurturing the culture of customer care will be the only way forward. MOID SIDDIQUI has served corporate India in senior and board level positions in both the public and the private sector. A simple approach to weight loss and better health, with an exhaustive (and exhausting) collection of fun, fat-torching, life-changing workouts that can be tailored to any fitness level “This is a must read for everyone who wants to live a long and active life.”—Robert Sallis, MD, former president, American College of Sports Medicine What if there were a drug to treat every illness, across all body systems, proven potent against heart disease, depression, arthritis, PMS and erectile dysfunction—even in chronic diseases such as asthma, dementia, and certain types of cancer? What if it had no side effects, was completely free, readily available, and worked for everyone? Every single person who took it decreased her

risk of premature death and raised his quality of life. Would you want it? In a healthcare system that spends 17% of GDP, roughly \$2.7 trillion, mostly on disease treatment, how do we save money and prevent illness? By increasing the use of the world's most effective preventive medicine: exercise. In *The Exercise Cure*, Dr. Jordan Metzl—nationally renowned sports medicine physician—offers malady-specific and well-researched exercise prescriptions to help readers stay healthy, heal disease, drop pounds, increase longevity, and transform their lives. Dr. Metzl knows that exercise is inexpensive, powerful medicine that has benefits in prevention and treatment of disease without disturbing side effects. Even in older adults, daily exercise has been found to prevent dementia by generating neuron development in the hippocampus, the memory center of the brain. Combining the latest data and his proven motivational skills, Dr. Metzl addresses the common maladies troubling millions. He discusses our cardiovascular, pulmonary, metabolic, musculoskeletal, neurologic, reproductive, and endocrinologic body systems, with special sections on sleep

problems and cancer prevention, presenting the science behind the role of exercise as medicine. Then, he details workouts that can be tailored easily to any fitness level, beginner to advanced, and provides nutritional information, including meal plans for healthy eating and disease prevention.

The term 'overtourism' has come into prominence since 2017 and refers to the fact that, due to various factors such as more sophisticated marketing strategies, a large number of tourists visit the same place at the same time. The consequences are felt by the locals, the tourists themselves as well as the environment. As a result, tourismphobia and anti-tourism movements have emerged as ways for locals to reclaim their lifestyle by refusing to interact with visitors and sometimes discouraging them to visit. This book presents new research on this emerging phenomenon and discusses the main causes and implications before putting forward possible solutions. The authors take an interpretivist approach in order to unveil aspects of overtourism that have not yet been discussed. It provides case

studies and explores topics such as tourism education, overtourism of cultural and heritage sites, and the need for sustainable tourism development.

An anthropological study based on ethnographic work in Israel and Qatar explores the relationship between science, particularly genetics, and national identity. Based on ethnographic work in Israel and

Qatar, two small Middle Eastern ethnations with significant biomedical resources, *Genomic Citizenship* explores the relationship between science and identity. Ian McGonigle, originally trained as a biochemist, draws on anthropological theory, STS, intellectual history, critical theory, Middle Eastern studies, cultural studies, and critical legal studies. He connects biomedical research on ethnic populations to the political, economic, legal, and historical context of the state; to global trends in genetic medicine; and to the politics of identity in the context of global biomedical research. *Genomic Citizenship* is more an anthropology of scientific objects than an anthropology of scientists or an ethnography of the laboratory. McGonigle bases his untraditional project on traditional anthropological methods, including participant observation. Some of the most persuasive data in the book are from public records, legal and historical sources, published scientific papers, institutional reports, websites, and brochures. McGonigle discusses biological understandings of Jewishness, especially in relation to the intellectual history of

Zionism and Jewish political thought, and considers the possibility of a novel application of genetics in assigning Israeli citizenship. He also describes developments in genetic medicine in Qatar and analyzes the Qatari Biobank in the context of Qatari nationalism and state-building projects. Considering possible consequences of findings on the diverse origins of the Qatari population for tribal identities, he argues that the nation cannot be defined as either a purely natural or biological entity. Rather, it is reified, reinscribed, and refracted through genomic research and discourse.

This book explores, in a series of detailed case studies, how public policy is actually made in Qatar. While Qatar is a Gulf monarchy, its governance is complex. Other analysts have tried to come to grips with this complexity using qualified descriptions of the system such as 'late rentier,' 'pluralized autocracy,' 'tribal democracy,' or 'soft authoritarian.' The authors of the volume use the lens of a transformative state. Qatar is deliberately engaged in a rapid process of radical economic and societal transformation.

That process has its contradictions and tensions, particularly with regards to achieving a balance between Islam, social traditions, and modernity. This book explores how it also has a specific policy dynamic of generating ideas and institutions, developing policy and program designs, implementation and coordination.

Labour and Employment Compliance in the United Arab Emirates Ravenio Books
Travel & Tourism is by any measure a massive modern day industry - in the same league as cars, oil, telecommunication and agriculture. It drives trillions of dollars in GNP, underpins millions of jobs, makes international business function and is the essence of leisure and happiness. In short it has to be one of the most significant sectors of the

world economy. Yet all too often its role and potential is underestimated when it comes to global and national socio-economic policy and practice. This book explores why the industry is misperceived and how it can take its rightful leadership place in the transformation to the new green economy. *Green Growth and Travelism: Letters from Leaders* is the first hard hitting publication to look practically into these issues by taking the views of 46 government, industry and civil society thought leaders on the challenges, opportunities and solutions. First the authors explore Green Growth as the new geopolitical paradigm to respond to the big social, economic, environment and climate challenges of today and the population driven resource challenges of tomorrow. They then analyze how Travelism - the Travel and Tourism value chain - transport, hospitality and the various industries that support our inexorable urge to move around this planet - can more effectively contribute to a positive long-term societal transformation. Taking this viewpoint, the 'Letters from Leaders' provides real evidence of the actions, viewpoints and

hopes of those at the frontline. With a foreword from Maurice Strong, architect of the 1992 Rio Earth Summit and Agenda 21, it includes contributions by thought leaders from inside and outside the sector such as Lyonchhen Jigmi Y. Thinley (Prime Minister of Bhutan), Thomas Enders (CEO of EADS), Tony Tyler (Director General & CEO IATA), Taleb Rifai (Secretary General UNWTO), Sir Richard Branson (Chairman Virgin Group), Shanzhong Zhu (Vice Chairman CNTA), Akbar Al Baker (CEO Qatar Airways), Marthinus Van Schalkwyk (Minister Tourism South Africa), Gerald Lawless (Executive Chairman Jumeirah Group), James Hogan (President & CEO Etihad Airways), Patricia Francis (Executive Director ITC), David P. Scowsill (President & CEO, WTTC), Giovanni Bisignani (Chairman WEF Global Agenda Council ATT), Supachai Panitchpakdi (Secretary-General, UNCTAD), Raymond Benjamin (Secretary General, ICAO) and Gloria Guevara (Secretary Tourism, Mexico) and a host of others. A riveting insider's account of the 2010 Winter Olympic and Paralympic Games, and an extraordinary story of leadership, love of country and the ability to dream big. When John Furlong and his family emigrated from Ireland in 1974, the customs officer greeted them with "Welcome to Canada. Make us better," an imperative that has defined Furlong's life ever since. A passionate athlete with a track record of community service, he was roped into acting as spokesperson for Vancouver's incipient Olympic bid movement back in 1996, and then spent the next fourteen years living and breathing the Olympics. Furlong and his organizing team, including some 25,000 volunteers, orchestrated a remarkable Winter Games. *Patriot Hearts* is the story of how they did it. Early on Furlong realized the Olympics weren't about highways and buildings and tourism, they were about people: the athletes, and everyday Canadians who wanted to see their country shine on the world stage. He defined a vision for the games that would capture the hearts and minds of Canadians, and held to it with unwavering determination. Working with Globe and

Mail columnist Gary Mason, Furlong recounts the lead-up to the Games and describes how he handled seemingly insurmountable setbacks

Report shows that employers across Qatar frequently violate workers' right to wages and that Qatar has failed to meet its 2017 commitment to the International Labour Organization to protect migrant workers. At the heart of the abuses lies the kafala, or sponsorship, system which give employers control over migrant workers.

This book is the first to explore Arabic tourism from a business viewpoint, rather than taking a sociological, anthropological or political stance. It focuses on business planning, management and marketing destinations in the Arab World, which are topics crucial for industry stakeholders and which have previously been neglected in the tourism literature. The book examines similarities and differences in the emergence and development of the tourism industry in countries across the Arab world as well as its inbound and outbound travel flows. It analyses several

different aspects of Arabic tourism including tourism policy, organisation and planning, tourism product development, destination marketing and consumer behaviour. This volume will be of interest to postgraduate students and researchers of tourism studies, business and Middle Eastern studies.
