A Calendar of Wisdom

Simon and Schuster

God Is Not One Harper Collins

Heralded as the exponents of a 'new atheism', critics of religion are highly visible in today's media, and include the household names of Richard Dawkins, Daniel Dennett and Sam Harris. David Fergusson explains their work in its historical perspective, drawing comparisons with earlier forms of atheism.

Responding to the critics through conversations on the credibility of religious belief, Darwinism, morality, fundamentalism, and our approach to reading sacred texts, he establishes a compelling case for the practical and theoretical validity of faith in the contemporary world. An invitation to engage in a rich dialogue, *Faith and Its Critics* supports an informed and constructive exchange of ideas rather than a contest between two sides of the debate. Fergusson encourages

faith communities to undertake patient engagement with their critics, to acknowledge the place for change and development in their self-understanding whilst resisting the reductive explanations of the new atheism. *Sacred Stories* Da Capo Press

A leading spiritual teacher reveals how Celtic spirituality—listening to the sacred around us and inside of us—can help us heal the earth, overcome our conflicts, and reconnect with ourselves. John Philip Newell shares the long, hidden tradition of Celtic Christianity, explaining how this earth-

based spirituality can help us rediscover the natural rhythms of life and deepen our spiritual connection with God, with each other, and with the earth. Newell introduces some of Celtic Christianity's leading practitioners, both saints and pioneers of faith, whose timeless wisdom is more necessary than ever, including: Pelagius, who shows us how to look beyond sin to affirm our sacredness as part of all God's creation, and courageously stand up for our principles in the face

of oppression. Brigid of Kildare, who illuminates the interrelationship of all things and reminds us of the power of the sacred feminine to overcome those seeking to control us. John Muir, who encourages us to see the holiness and beauty of wilderness and what we must do to protect these gifts. Teilhard de Chardin, who inspires us to see how science, faith, and our future tell one universal story that begins with sacredness. By embracing the wisdom of Celtic Christianity, we

can learn how to listen to the sacred and see the divine in all of creation and within each of us. Human beings are inherently spiritual creatures who intuitively see the sacred in nature and within one another, but our cultures—and at times even our faiths—have made us forget what each of us already know deep in our souls but have learned to suppress. Sacred Earth, Sacred Soul offers a new spiritual foundation for our lives, once centered on encouragement,

guidance, and hope for creating a better world.

Dogmatic Constitution on Divine Revelation Duncan Baird Publishers
 "In 1895 Elizabeth Cady

Stanton and her "Revising Committee" produced The Woman's Bible, a commentary on passages in the Bible that "do not exalt or dignify women" and "those also in which women are prominent by exclusion." The women's movement has come a long way in the last hundred years, but so too have our knowledge and appreciation of religions other than Judaism and Christianity." "Serenity Young's Anthology of Sacred Texts by and about Women is the first comprehensive

comparative sourcebook on women and religion. It makes available readings by and about women from the primary texts of the world's religions. The religions treated include not only the "big seven," Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Taoism, but the religions of northern Europe, the Ancient Near East, Greece, and Rome, shamanism and tribal religions, as well as more recent alternative religious movements. Each chapter begins with

a brief introduction to the religion in question, providing a historical overview with particular regard to women. Then follow representative texts about women (each with its own introduction) from works that are central to their respective traditions. These texts include creation stories, biographies of founders (in which women often play a prominent role), law codes, folklore and fairy tales, the "texts" of tribal peoples, and works explicitly by women. Folklore and fairy tales

have particular importance in this book because they generally reveal the beliefs of the "little tradition," which are often in the hands of women, while the "great tradition" is represented by the male-dominated forms of orthodoxy. The works by women here take many forms from theological treatises to mystical poems to poems mourning the loss of a child or husband to the matter-of-fact statements by tribal women, such as Nisa, expressing the uncertainties of any

religious knowing." "Many of the texts included in this anthology are not only "representative texts about women" but formative texts of the various traditions, texts that have seeped into the language and consciousness of their culture and shaped its view of women. In her introduction the author sketches certain themes that are of central importance for the cross-cultural or comparative study of women in world religion: representations of women as evil, women

as role models, wisdom as feminine, women religious, dualities, goddesses, sex changes and sex disguises, myths and stories of gender conflict. These themes can help guide the reader as she makes her way through virtual libraries of the world's sacred texts. Reading sacred texts in this way, from the perspective of women, can be a radical activity, an activity that, at its best, subverts male dominance of the text."--

Universal Wisdom

Oxford University Press, USA

This is the first-ever English-language edition of the book Leo Tolstoy considered to be his most important contribution to humanity, the work of his life's last years. Widely read in prerevolutionary Russia, banned and forgotten under

Communism; and recently rediscovered to great excitement, A Calendar of Wisdom is a day-by-day guide that illuminates the path of a life worth living with a brightness undimmed by time. Unjustly censored for nearly a century, it deserves to be placed with the few books in our history that will never cease teaching us the essence of what is important in this world.
