The Real Astrology Applied Teachings from the "Astrologer's Apprentice"

Ten Speed Press

The techniques of mundane astrology inherited from tradition are not the most suitable for explaining and predicting events, as in reality they only capture the last links in the chain of celestial causes that underlie them. In fact, the primary causes of all events always and only reside in the Eighth Sphere, that is, in the sky of the constellations and fixed stars. In this book, the Stellar Astrology techniques are developed and applied to the real prediction of world events, but also to natal charts. Heaven and the stars that populate it are living beings. The various parts of the starry sky - constellations, parts of constellations (asterisms) and single stars - are not isolated, but communicate with each other, and therefore must be conceived as parts of a community, similarly to the relations between men who live on this earth. Indeed, our communities and our earthly bonds are nothing but the reflection and manifestation of these celestial bonds. And, just as happens between men and between specific groups of men, between some of these parts of the sky there are privileged relationships. This book explains which are the astronomical and astrological factors that highlight these ties of "kinship", thus also indicating the existence of similar relations existing between the things of the world linked to those stars. It is a real science, based on rigorous criteria, and in this book it is illustrated by providing the student with a general method that he can then apply to any person, thing or event he intends to study in depth. It will be seen how the identification of these stellar links is also essential for correctly interpreting a birth chart. Only in this way astrology becomes what it should always be, that is, the sapiential matter par excellence, as the only one capable of explaining and demonstrating the true nature and origin of earthly reality.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most

significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

Hellenistic astrology is a tradition of horoscopic astrology that was practiced in the Mediterranean region from approximately the first century BCE until the seventh century CE. It is the source of many of the modern traditions of astrology that still flourish around the world today, although it is only recently that many of the surviving texts of this tradition have become available again for astrologers to study. *Hellenistic Astrology: The Study of Fate and Fortune* is one of the first comprehensive surveys of this tradition in modern times. The book covers the history, philosophy, and techniques of ancient astrology, with a special focus on demonstrating how many of the fundamental concepts underlying the practice of western astrology originated during the Hellenistic period.

"A dense and scholarly book about . . . the relationship between the Nazi party and the occult . . . reveals stranger-than-fiction truths on every page."—Daily Telegraph The Nazi fascination with the occult is legendary, yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty. Preposterous though it was, however, supernatural thinking was inextricable from the Nazi project. The regime enlisted astrology and the paranormal, paganism, Indo-Aryan mythology, witchcraft, miracle weapons, and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion. In this eye-opening history,

Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward. Even as popular occultism and superstition were intermittently rooted out, suppressed, and outlawed, the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power, shape propaganda and policy, and pursue their dreams of racial utopia and empire. "[Kurlander] shows how swiftly irrational ideas can take hold, even in an age before social media."—The Washington Post "Deeply researched, convincingly authenticated, this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish."—The Spectator "A trustworthy [book] on an extraordinary subject."—The Times "A fascinating look at a little-understood aspect of fascism."—Kirkus Reviews "Kurlander provides a careful, clear-headed, and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits."—National Review

Al Biruni, one of the greatest Arab scholars, was born on September 4, 973, in what is now Uzbekistan. He showed talent at an early age and by his early 20's had written several acclaimed papers. Political unrest in his 20's and 30's found him at one point at Gurgan, on the shores of the

Caspian Sea. Peace found him in Ghaznah, which is today in Afghanistan. From 1017 to 1030 he travelled extensively in India, becoming fluent in Sanskrit. From this he wrote his monumental survey, *India, of the history, customs and beliefs of the subcontinent*. His other books include *The Chronology of Ancient Nations*, *the Masudic Cannon*, *Book of Instructions*, and more than 100 others, some of which are lost. He died on December 13, 1048, aged 75. He is buried in Ghaznah. *The Book of Instruction in the Elements of the Art of Astrology* was written for Lady Rayhanah, to whom it is dedicated. R. Ramsay Wright, the translator, said it could be regarded as a primer of 11th century science. Among its highlights are a comprehensive list of more than 150 Lots, various forms of aspects and planetary relationships, planetary positions relative to the sun, an excellent text on rulerships as well as comprehensive notes on weather and meteorological phenomena. This book was unknown to medieval European astrologers. This edition, comprising the astrological part of the original (sections 347-530) has been taken from Wright's pioneering 1934 translation, itself taken from Persian and Arabic sources. For this edition, text and tables have been reset, and a new index added.
