This book examines the contemporary history, culture, and social relationships that form the fundamental issues confronted by Asians in America today. Comprehensive, yet concise, it focuses on a broad range of issues, and features a unique comparative approach that analyzes how race, class, and gender intersect throughout the contemporary Asian American experience.

Chapter topics cover the history of Asians in America; emerging communities, changing realities; Asian Americans and educational opportunity; workplace issues; anti-Asian violence; Asian Americans and the media; Asian American families and identities; and political empowerment. For anyone interested in an understanding and awareness beyond the simplistic stereotype of the "model minority"—through the exposure to important concerns of Asian American groups and communities.

Santiago, an old Cuban fisherman, has gone 84 days without catching a fish. Confident that his bad luck is at an end, he sets off alone, far into the Gulf Stream, to fish. Santiago's faith is rewarded, and he quickly hooks a marlin...a marlin so big he is unable to pull it in and finds himself being pulled by the giant fish for two days and two nights. "A fascinating and frightening book" (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—"this book will scare the hell out of you" (Kansas City Star).

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do—with curricula, classroom settings, and teaching methods—to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to

know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from

both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

"An Occurrence at Owl Creek Bridge" (1890) is a short story by the American writer and Civil War veteran Ambrose Bierce. Described as "one of the most famous and frequently anthologized stories in American literature", it was originally published by The San Francisco Examiner on July 13, 1890, and was first collected in Bierce's book *Tales of Soldiers and Civilians* (1891). The story, which is set during the American Civil War, is known for its irregular time sequence and twist ending. Bierce's abandonment of strict linear narration in favor of the internal mind of the protagonist is an early example of the stream of consciousness narrative mode. Peyton Farquhar, a civilian and plantation owner, is being prepared for execution by hanging from an Alabama railroad bridge during the American Civil War. Six military men and a company of infantrymen are present, guarding the bridge and carrying out the sentence. Farquhar thinks of his wife and children and is then distracted by a noise that, to him, sounds like an unbearably loud clanging; it is actually the ticking of his watch. He considers the possibility of jumping off the bridge and swimming to safety if he can free his tied hands, but the soldiers drop him from the bridge before he can act on the idea. Famous works of the author Ambrose Bierce:

"A Psychological Shipwreck", "Killed at Resaca", "An Inhabitant of Carcosa", "One of the Missing", "A Tough Tussle", "An Unfinished Race", "One of Twins", "A Horseman in the Sky", "The Spook House", "The Middle Toe of the Right Foot", "The Man and the Snake", "An Occurrence at Owl Creek Bridge", "The Realm of the Unreal", "The Boarded Window", "The Secret of Macarger's Gulch", "The Death of Halpin Frayser", "The Damned Thing", "The Eyes of the Panther", "Moxon's Master", "The Moonlit Road", "Beyond the Wall".

From unsubstantiated 2020 election fraud claims and the storming of the US Capitol to the rampage of COVID-19 and racial injustice, this book covers the foundations, institutions, and processes of "the great American experiment" with a clear and resonant theme: Democracy cannot be taken for granted, whether at home or internationally, and eternal vigilance (along with civic intelligence) is required to protect it. Approaching Democracy provides students with a framework to analyze the structure, process, and action of US government, institutions, and social movements. It also invites comparison with other countries. This globalizing perspective gives students an understanding of issues of governance and challenges to democracy here and elsewhere. At a moment of growing domestic terrorism, political hyper-partisanship, populism, identity politics, and governmental dysfunction, there is no better time to bring Approaching Democracy--a textbook based on Vaclav Havel's powerful

metaphor of democracy as an ideal and the American experiment as the closest approach to it--to a new generation of political science undergraduate students. NEW TO THE NINTH EDITION Two new authors, Nadia E. Brown and Sarah Allen Gershon, who bring refreshing intellectual and diverse perspectives to the text. Includes the tumultuous political context surrounding the Trump presidency, the 2020 elections, the 116th Congress, the Supreme Court, the COVID-19 crisis, and the fight for social and racial justice. Figures and tables reflect the latest available data and surveys. Two new features--Diversity and Democracy, highlighting the experiences of America's diverse social groups and the role of identity politics—and Discussion Questions at the end of each chapter, assessing critical thinking skills. Critical contemporary events are explored throughout the book, including the attempted coup following the 2020 elections, the Trump administration's handling of the COVID-19 pandemic, Black Lives Matter, protests in American cities that come to the epicenter of America's approach to democracy, the changes in the Supreme Court and the federal court system, the growth of LGBTQ+ legal rights, and the alteration in American Federalism. New and updated data on public attitudes toward police brutality, DACA, voter suppression, healthcare, and the global climate movement are also covered.
