True Tales of Love in 100 Words or Less Alpha Edition

An exultant novel of New York City at the turn of the twentieth century, about one man's rise to fame and fortune, and his mysterious murder—"engrossing" (Wall Street Journal), "immersive" (The New Yorker), and "seriously entertaining" (The Sunday Times, London). Andrew Haswell Green is dead, shot at the venerable age of eighty-three, when he thought life could hold no more surprises. The killing—on Park Avenue in broad daylight, on Friday the thirteenth—shook the city. Born to a struggling farmer, Green was a self-made man without whom there would be no Central Park, no Metropolitan Museum of Art, no Museum of Natural History, no New York Public Library. But Green had a secret, a life locked within him that now, in the hour of his death, may finally break free. A work of tremendous depth and piercing emotion, The Great Mistake is the story of a city transformed, a murder that made a private man infamous, and a portrait of a singular individual who found the world closed off to him—yet enlarged it.

Tahiti Nui is an account of the survival of a Polynesian society in the face of successive settlements of missionaries, traders, and administrators. Beginning with the first explorers and Captain Cook's scientific observations at Point Venus, Dr. Newbury has separated the various strands interwoven in the fabric of Tahitian society, tracing their development and showing how they interacted at successive stages. Missionaries and foreign traders, administrators and Polynesians, planters and immigrant Chinese have all contributed to the distinctive flavor of French Polynesia, with Tahiti and Tahitians becoming increasingly dominant, not just as the focus of the French administration in Pape'ete, but in the social networks and trading patterns that have evolved.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

They rowed hard, away from the battleships and the bombs. Water sprayed over them. The rowboat pitched one way and then the other. Then, before his eyes, the Arizona lifted up out of the water. That enormous battleship bounced up in the air like a rubber ball and split apart. Fire burst out of the ship. A geyser of water shot into the air and came crashing down. Adam was almost thrown out of the rowboat. He clung to the seat as it swung around. He saw blue skies and the glittering city. The boat swung back again, and he saw black clouds, and the Arizona, his father's ship, sinking beneath the water. -- from A Boy at War "He kept looking up, afraid the planes would come back. The sky was obscured by black smoke...It was all unreal: the battleships half sunk, the bullet holes in the boat, Davi and Martin in the water." December 7, 1941: On a quiet Sunday morning, while Adam and his friends are fishing near Honolulu, a surprise attack by Japanese bombers destroys the fleet at Pearl Harbor. Even as Adam struggles to survive the sudden chaos all around him, and as his friends endure the brunt of the attack, a greater concern hangs over his head: Adam's father, a navy lieutenant, was stationed on the USS Arizona when the bombs fell. During the subsequent days Adam -- not yet a man, but no longer a boy -- is caught up in the war as he desperately tries to make sense of what happened to his friends and to find news of his father. Harry Mazer, whose autobiographical novel, The Last Mission, brought the European side of World War II to vivid life, now turns to the Pacific theater and how the impact of war can alter young lives forever.
