When four young friends head out for a sexy trip to a cabin deep in the Minnesota woods, the boys have a secret plan to help their girlfriends really let loose and let go of all their inhibitions. Connor and Frank just want Maya and Kelsey to learn to be wild and freaky, and they've pulled out all the stops to help them: booze, costumes, sexy videos. They want the

weekend to be an unrestrained sex-fest, where the girls can let out their inner love goddesses and get comfortable getting down and dirty. But those plans come to screeching halt when Kelsey finds an old board game in a closet and insists that they try playing it. It's called "Exchanji: An exciting game of changes for consenting adults." Even though it's meant to be sexy, Connor is skeptical. It looks like it came right out of the 1900s! How hot can this game really be? As soon as the dice hit the game board, they start to find out. Swapped body parts and enhanced libidos are only the beginning of this wild ride! Inhibitions could be a distant memory before this crazy night ends,

because things are going to get weirder than anyone ever imagined...

Celia Wird and her three sisters are just like other 20-something girls—with one tiny exception: they're products of a backfired curse that has given each of them unique powers that make them, well, weird... Celia's a girl in trouble. Her heart is bound to Aric, but he is a pureblood were who must deny her or risk condemning his species to extinction. And that's just her love life. She's also been called to take down a group of demon terrorists looking to overthrow the paranormal world. (No pressure.) In order to

bring them down, Celia must ally herself to Misha, the master vampire who has made no secret of his desire for her. And if that weren't enough misfortune for one girl, a clairvoyant's prediction could destroy Celia and Aric's love for good. The only way to protect the world from unbridled supernatural terrorism is for Celia to bind herself to her destined mate. And that doesn't appear to be Aric...

 Thanks to the success of franchises such as *The Hunger Games* and *Twilight*, young adult literature has reached a new level of prominence and popularity. Teens and adults alike are drawn to the genre's coming-of-age themes, fast pacing, and vivid emotional portrayals. The essays in this volume suggest ways high school and college instructors can incorporate YA texts into courses in literature, education, library science, and general education. The first group of essays explores key issues in YA literature, situates works in cultural contexts, and addresses questions of text selection and censorship. The second section discusses a

range of genres within YA literature, including both realistic and speculative fiction as well as verse narratives, comics, and film. The final section offers ideas for assignments, including interdisciplinary and digital projects, in a variety of courses.

 "Something's Alive In There!" She was just a little girl, with a tiny horn in the center of her forehead, funny-looking feet, beautiful silver hair, and several curious powers: the ability to purify air and water, make plants grow, and heal scars and broken bones. A trio of grizzled prospectors found her drifting in an escape pod amid the asteroids, adopted her, and took her to the bandit planet Kezdet, a

place where no questions are asked and the girl might grow up free. But Kezdet has its own dark secret. The prosperity of the planet is based on a hideous trade in child slave labor, administered by "The Piper" -- a mystery man with special plans for Acorna and her powers. But free little girls have a way of growing into freedom-loving young women, and Acorna has special plans all her own. . .

Manga Vision examines cultural and communicative aspects of Japanese comics, drawing together scholars from Japan, Australia and Europe working in areas as diverse as cultural studies, linguistics, education, music, art, anthropology, and translation, to explore the influence of manga in Japan and worldwide via translation, OEL manga and fan engagement. The volume includes a mix of theoretical, methodological, empirical and professional practice-based chapters, examining manga from both academic and artistic perspectives. Manga Vision also provides the reader with a multimedia experience, featuring original artwork by

Australian manga artist Queenie Chan, cosplay photographs, and an online supplement offering musical compositions inspired by manga, and downloadable manga-related teaching resources.

The Fearless Watson-Guptill

What happens to amusement park rides once they are put into storage or destroyed? They are magically transported to a place known as Amusement Park Between, a park that coexists within any other and is only accessible by those who are of its blood. There are no limits and no humans. The only residents are the rides. However, they are much different from our kind. Amusement Park Between's rides are alive, having both

the characteristics of man and beast.

Amusement Park Between was once merry and joyous, but for the past several years, it has spiraled into turmoil. An evil tyrant known as Ironwheel has taken control, casting a dark shadow over

Amusement Park Between, his evil intentions endangering both their world and our own. The rides' only hope is the key to their prophecy: the red will defeat the black. That particular key is the only ride that was created differently: Railrunner, the red roller coaster. This is his story.

A series of grisly, animalistic murders has rocked the walled town of Gilneas. A

detective sets out to expose the perpetrators and finds more than he bargained for. Collecting the five-issue mini-series! Twisted Dc Comics NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021 BY THE TIMES AND THE SUNDAY TIMES "Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts." —Janice Turner, The Times of London
Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the

population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as “transgender.” These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans “influencers.” Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and “gender-affirming” educators and therapists who push life-changing interventions on young girls—including

medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to “detransitioners”—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls’ social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their

daughters. A generation of girls is at risk. Abigail Shrier's essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

The 7th Bandung Creative Movement conference presented the theme "Dynamics of Industrial Revolution 4.0" which discussed

how the digital world and connectivity changed human culture in various aspects of life, and transformed in accordance to human needs and social culture. Digital technology has transformed society to serve people from manufacturing needs to smart cities, from network connectivity to people connectivity. The application of information technology has helped in improving live quality and environmental sustainability. Digital transformation is revolutionizing how businesses and workers interconnect to be more productive and efficient. The result is improved collaboration, faster processes and time-to-market, lower costs

and better products. Devices are getting smarter, meaning they are able to perform more and more tasks without human intervention; moreover, these devices generate data that provide insights to further improve processes and gain greater efficiencies. Moreover, with the Internet of Things (IoT), all these smart devices are interconnected in ways that not only help make them even smarter, but also enhances the intelligence of the overall system. Digital technology is a formidable driver for the transformation of a highly carbon-dependent world into one that is more ecologically 'smart.' We are entering a new era of environmental

innovation that is driving better alignment between technology and environmental goals. Since its first announcement in 2011, industrial revolution 4.0 has dynamically changed and transformed to adjust itself to the human needs and to serve more efficiency and effectiveness of everyday life as well as environmental enhancement. The 7th Bandung Creative Movement has brought forward discussions on dynamic changes, ups and downs, innovations, relations of industrial revolution of the internet of thing, data, automation, to human physical world, new art and aesthetic, business, product innovation, built environment, and

education.
