King’s use of child characters within the framework of horror (or of horrific childhood) raises questions about adult expectations of children, childhood, the American family, child agency, and the nature of fear and terror for (or by) children. The ways in which King presents, complicates, challenges, or terrorizes children and notions of childhood provide a unique lens through which to examine American culture, including both adult and social anxieties about children and childhood across the decades of King’s works.
