The Renaissance in Rome Rowman & Littlefield

This groundbreaking study examines how modern Colombian literature—from Gabriel García Márquez to Juan Gabriel Vásquez—reflects one of the world's most tumultuous entrances into globalization. While these literary icons, one canonical, the other emergent, bookend Colombia's fall and rise on the world stage, the period between the two was inordinately violent, spanning the Colombian urban novel's evolution into narco-literature. Marking Colombia's cultural and literary manifestations as threefold, this book explores García Márquez's retreat to a rural romanticism that paradoxically made him a global literary icon; the country's violent end to the twentieth century when its largest economic export was narcotics; and the contemporary period in which a new major author has emerged to create a "literature of national reconstitution." Harkening back to the Regeneration movement and extending through the early twenty-first century, this book analyzes the cultural implications of Colombia's relationship to the wider world.

In *Won in Translation* Roger Chartier, one of the world's leading historians of books, publishing, and reading, considers the mobility of the early modern text and the plurality of circulating versions of the same work. The agent for both is translation, for through their lexical, aesthetic, and cultural decisions, translators always assign new meaning or new status to what they translate. *Won in Translation* proceeds by way of four case studies, three dedicated to works originally in Spanish, the fourth to a Portuguese dramatic adaptation of Don Quixote. Bartolomé de Las Casas' *Brevísima relación de la destrucción de las Indias*, first printed in 1552, was a powerful instrument for the construction of what was later called the "black legend" of Spanish monarchy. Baltasar Gracián's *Oráculo Manual*, published in 1647, became the most famous courtier's manual in Europe. Both traveled more widely and were translated more often than any other books of their era. For Chartier they illustrate the great power of translation, which allowed Las Casas' account to be placed in multiple and successive contexts and enabled Gracián's book to take on a range of meanings it had not originally had. Chartier's next two chapters are devoted to plays, one by Lope de Vega, the other by Antônio José da Silva. In the case of Lope's *Fuente Ovejuna*, the "translation" was one from historical chronicle to dramatic performance. In Antônio José da Silva's *Vida do Grande D. Quixote*, the textual migration is twofold, as Cervantes' hero moves from Spanish to Portuguese and from novel to play. In an Epilogue, Chartier moves three centuries forward to consider the paradox that it is the absolute immobility of the text, "reinvented" word for word, that creates its mobility in Jorge Luis Borges' fiction "Pierre Menard, Author of the Quixote." Works are transformed through changes of genre or language, to be sure; but even when the texts remain fixed, their readers give them different or inverted meaning.

This book investigates a central chapter in the history of 20th century intellectualism: the commitment to the communist ideal and the Soviet Union. Focusing on Argentina, whose communist party was among the most important in Latin America, Petra engages with the current literature on Western communism in order to conduct an exhaustive study of the intellectuals, cultural organizations, publications, and debates within Argentine communism in the decades following World War II. Based on rigorous archival research from diverse sources, Petra's book distances itself from existing teleological visions and institutional approaches to the communist world, offering instead a complex framework in which multiple contexts, scales, and actors frame the larger problem: the intellectual commitment to a political project that brooked no dissent. Intellectuals and Communist Culture also addresses the emergence of Peronism, a crucial movement in Argentine political life to this very day, thus offering an important chapter on Latin American political and intellectual history and an invaluable contribution to the global history of the international communist movement.

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries

in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

There has been a dramatic increase in the amount of narrative work published by Chicana and Latina authors in the past 5 to 10 years. Nonetheless, there has been little attempt to catalog this material. This reference provides convenient access to all forms of narrative written by Chicana and Latina authors from the early 1940s through 2002. In doing so, it helps users locate these works and surveys the growth of this vast body of literature. The volume cites more than 2,750 short stories, novels, novel excerpts, and autobiographies written by some 600 Mexican American, Puerto Rican, Cuban American, Dominican American, and Nuyorican women authors. These citations are grouped in five indexes: an author/title index, title/author index, anthology index, novel index, and autobiography index. Short annotations are provided for the anthologies, novels, and autobiographies. Thus the user who knows the title of a work can discover the author, the other works the author has written, and the anthologies in which the author's shorter pieces have been reprinted, along with information about particular works.

Leonara is a first in francophone Caribbean literature: neither fiction nor biography, this book by sociologist and Creole-culture advocate Dany Bebel-Gisler has elements of both novelistic and documentary style. It has been likened to the Latin-American testimonio genre (testimony novel). The real-life Leonara- model for and subject of this book- told Bebel-Gisler that "in this book made up of my words, it is my very self that is present. You have written the story just as I have told it" In the course of her life, Leonara has witnessed, from her perspective as the mother of a large family, the passage of Guadeloupe from colony to departement of France; from the hard-scrabble subsistence agriculture of the rural poor to the subsidized consumer economy of France's overseas departements today. Along the way she offers witty and pungent observations on language, politics, sex, and religion.

Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research. Interest in translation and music, however, has so far been relatively limited, mainly because translation of musical material has been considered somewhat outside the limits of translation studies, as traditionally conceived. Difficulties associated with issues such as the 'musicality' of lyrics, the fuzzy boundaries between translation, adaptation and rewriting, and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera. Yet the intersection of translation and music can be a fascinating field to explore, and one which can enrich our understanding of what translation is and how it relates to other forms of expression. This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies, and to an extent, within musicology and cultural studies. The volume includes contributions from a wide range of musical genres and languages: from those that investigate translation and code-switching in North African rap and rai, and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese, to the appropriation and after-life of Kurdish folk songs in Turkish, and the emergence of rock'n roll in Russian. Other papers examine the reception of Anglo-American stage musicals and musical films in Italy and Spain, the concept of 'singability' with examples from Scandinavian languages, and the French dubbing of musical episodes of TV series. The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music.

This volume of seven essays on the 1987 Nicaraguan constitution does not accept a priori the judgment that Latin American constitutions are as fragile as egg shells, easily broken and

discarded if found to be inconvenient to the interests of the rulers. Rather, they are viewed as being central to understanding political life in contemporary Nicaragua. The perspectives of the analysts and their conclusions are not consensual. They prohibit glib and facile general conclusions. Some find the constitution to be nothing more than a façade for arbitrary and capricious rule; others that the document reflects clear commitments to the democratic rule of law. Thus far the implementation of the constitution has resulted in the peaceful transition of power from the Sandinistas to the National Opposition Union.

The Handbook of Spanish-English Translation is a lively and accessible book for students interested in translation studies and Spanish. This book details the growth of translation studies from Cicero to postcolonial interpretations of translation as rewriting. It examines through examples the main issues involved in translation and interpretation, such as text types, register, interference, equivalence and untranslatability. The chapters on interpretation and audiovisual translation and the comparative analysis of Spanish and English are especially significant. The second part of the book offers a rich compilation of diverse Spanish and English texts (academic, literary, and government writings, comic strips, brochures, movie scripts and newspapers) and their published translations, each with a brief introduction by Professor Aranda.

The Nicaraguan Constitution of 1987 Rutgers University Press Premiered in 1981, *The Granny and the Heist* (La estanquera de Vallecas) interweaves tense excitement, comic banter and moments of great tenderness in its examination of an area of Madrid equally ignored by Spain's nascent democracy as it had been under the Franco dictatorship. Contains a new critical introduction and language-teaching resources.

Challenging the notion that Central American literature is a marginal space within Latin American literary and world literary production, this collection positions and discusses Central American literature within the recently revived debates on world

literature. This groundbreaking volume draws on new scholarship on global, transnational, postcolonial, translational, and sociological perspectives on the region's literature, expanding and challenging these debates by focusing on the heterogeneous literatures of Central America and its diasporas. Contributors discuss poems, testimonios, novels, and short stories in relation to center-periphery, cosmopolitan, and Internationalist paradigms. *Central American Literatures as World Literature* explores the multiple ways in which Central American literature goes beyond or against the confines of the nation-state, especially through the indigenous, Black, and migrant voices. *Translations In Times of Disruption* Walter de Gruyter GmbH & Co KG

There is a wealth of published literature in English by Latin American women writers, but such material can be difficult to locate due to the lack of available bibliographic resources. In addition, the various types of published narrative (short stories, novels, novellas, autobiographies, and biographies) by Latin American women writers has increased significantly in the last ten to fifteen years. To address the lack of bibliographic resources, Kathy Leonard has compiled *Latin American Women Writers: A Resource Guide to Titles in English*. This reference includes all forms of narrative-short story, autobiography, novel, novel excerpt, and others-by Latin American women dating from 1898 to 2007. More than 3,000 individual titles are included by more than 500 authors. This includes nearly 200 anthologies, more than 100 autobiographies/biographies or other narrative, and almost 250 novels written by more than 100 authors from 16 different countries. For the purposes of this bibliography, authors who were born in Latin America and either continue to live there or have immigrated to the United States are included. Also, titles of pieces are listed as originally written, in either Spanish or Portuguese. If the book was originally written in English, a phrase

to that effect is included, to better reflect the linguistic diversity of narrative currently being published. This volume contains seven indexes: Authors by Country of Origin, Authors/Titles of Work, Titles of Work/Authors, Autobiographies/Biographies and Other Narrative, Anthologies, Novels and Novellas in Alphabetical Order by Author, and Novels and Novellas by Authors' Country of Origin. Reflecting the increase in literary production and the facilitation of materials, this volume contains a comprehensive listing of narrative pieces in English by Latin American women writers not found in any other single volume currently on the market. This work of reference will be of special interest to scholars, students, and instructors interested in narrative works in English by Latin American women authors. It will also help expose new generations of readers to the highly creative and diverse literature being produced by these writers.

The Routledge Companion to Latine Theatre and Performance Routledge

The Routledge Companion to Latine Theatre and Performance traces how manifestations of Latine self-determination in contemporary US theatre and performance practices affirm the value of Latine life in a theatrical culture that has a legacy of misrepresentation and erasure. This collection draws on fifty interdisciplinary contributions written by some of the leading Latine theatre and performance scholars and practitioners in the United States to highlight evolving and recurring strategies of world making, activism, and resistance taken by Latine culture makers to gain political agency on and off the stage. The project reveals the continued growth of Latine theatre and performance through chapters covering but not limited to playwriting, casting practices, representation, training, wrestling with anti-Blackness and anti-Indigeneity, theatre for young audiences, community empowerment, and the market forces that govern the US theatre industry. This book enters conversations in performance studies, ethnic studies, American studies, and Latina/e/o/x studies by taking up performance scholar Diana Taylor's call to consider the ways that "embodied and performed acts generate, record, and transmit knowledge." This collection is an essential resource for students, scholars, and theatremakers seeking to explore, understand, and advance the huge range and significance of Latine performance.
