MELANY JOHNSON

The Crusades and the Near East Routledge

Based on the latest scholarship by experts in the field, this work provides an accessible guide to the Crusades fought for the liberation and defense of the Holy Land—one of the most enduring and consequential conflicts of the medieval world. • Presents concise, accessible articles written by more than 40 leading experts in the field that explain key concepts and describe important institutions of the Crusades • Covers all main Crusades as well as the distinct countries and various personalities involved • Includes maps that make clear the course of Crusades and main areas of campaigning in the Eastern Mediterranean region • Documents the Christian principalities established in the course of the Crusades and the Muslim states that opposed them

The Routledge Companion to the Crusades The History Press
John of Brienne's progress, from mid-ranking knightly status to king of Jerusalem and, later, Latin emperor of Constantinople, traces one of the most remarkable careers in the entire medieval period. But how and why did he achieve such heights? This biographical study of aristocratic social and geographical mobility in the 'Age of the Crusades' reassesses John's fascinating life, and explores how families and dynasticism, politics, intrigue, religion

and war all contributed to John's unprecedented career. John was a major figure in the history of the thirteenth-century Mediterranean, and yet very much a product of the workings of the society of his day. This book reveals how John's life, and its multifarious connections to France, Italy, the German empire and the papacy, can illuminate the broad panorama of the early thirteenth-century world, and the zenith of the crusading movement.

Rethinking Medieval Margins and Marginality Routledge
With more than 1,100 cross-referenced entries covering every aspect of conflict in the Middle East, this definitive scholarly reference provides readers with a substantial foundation for understanding contemporary history in the most volatile region in the world. • Provides more than 1,100 A-Z entries on various military, political, and social topics connected with conflict in the Middle East • Features contributions from approximately 200 distinguished scholars and independent historians from a variety of disciplines • Devotes a full volume to key documents relevant to conflict in the Middle East throughout history • Includes more than 100 illustrations depicting conflict in the Middle East, plus dozens of maps depicting major geopolitical relationships, large scale military operations, and individual battles on land and sea
John of Brienne Macmillan

Christianity has been accused of being misogynistic, pro-slavery, and anti-science, and some say it is finally beginning its long decline. This book provides an entirely different side to the stories about this faith. • Provides an introduction to Christianity in its

historical context • Examines particular misconceptions related to Christianity through history along with what are now believed to be the historical truths • Excerpts primary source documents for evidence for how the misconceptions developed and spread • Offers a selected general bibliography of the most important sources of additional information

The Crusader States Routledge

The First Crusade (1096-1099) was an extraordinary undertaking, the repercussions of which have reached down to the present day. This book re-examines the sources to provide a detailed analysis of the various social classes that participated in the expedition, and the tensions between them.

King of Jerusalem, Emperor of Constantinople, c.1175â€“1237 Routledge

Between the eleventh and fifteenth centuries, the social and cultural worlds of medieval Europe and the Eastern Mediterranean were transformed by the religious impetus of the crusades. Today we bear witness to these transformations in the material and environmental record revealed by new archaeological excavations and reappraisals of museum collections. This volume highlights new archaeological knowledge being developed by scholars working in the fields of history, archaeology, numismatics, and architecture to demonstrate its potential to change and augment our understanding of the crusades. The 16 chapters in this volume deploy a contemporary scientific approach to archaeology of the crusades to give an up-to-date account into the diverse range of research in this area. They explore five key themes: the

implications of scientific methods, new excavations and surveys, architectural analyses, sigillography, and the application of social interpretations. Together these chapters provide a new way of approaching the study of the crusades, and demonstrate the value of taking a holistic view that utilises the full diverse range of evidence available to us.

Muslim Heroes on Screen Simon and Schuster

“An enriching account of the expansion of the political and cultural frontiers of the Latin West in the central Middle Ages.”—History Today When the armies of the First Crusade wrested Jerusalem from control of the Fatimids of Egypt in 1099, they believed their victory was an evident sign of God’s favor. It was, therefore, incumbent upon them to fulfill what they understood to be God’s plan: to re-establish Christian control of Syria and Palestine. This book is devoted to the resulting settlements, the crusader states, that developed around the eastern shores of the Mediterranean and survived until Richard the Lionheart’s departure in 1192. Focusing on Jerusalem, Antioch, Tripoli, and Edessa, Malcolm Barber vividly reconstructs the crusaders’ arduous process of establishing and protecting their settlements, and the simultaneous struggle of vanquished inhabitants to adapt to life alongside their conquerors. Rich with colorful accounts of major military campaigns, the book goes much deeper, exploring in detail the culture of the crusader states—the complex indigenous inheritance, the architecture, the political, legal, and economic institutions, the ecclesiastical framework through which the crusaders perceived the world, the origins of the Knights Templar and the Hospitallers, and more. With the zest of a scholar pursuing a life-long interest, Barber presents a complete narrative and cultural history of the crusader states while setting a new standard for the term “total history.” A Choice Outstanding Academic Title in the Western Europe Category “Barber is a highly distinguished scholar, whose touch is continually deft, and he navigates the basis of the main narrative histories with care . . . a delight to read.”—Literary Review *Syria in Crusader Times* A&C Black

With its impressive breadth of coverage – both geographically and chronologically – the International Encyclopedia of Military History is the most up-to-date and inclusive A-Z resource on military history. From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded

them, the campaigns and wars to the weapons and equipment used in them, this international and multi-cultural two-volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history.

Hattin Cambridge University Press

A new series of bespoke, full-coverage resources developed for the AQA 2015 A/AS Level History. Written for the AQA A/AS Level History specifications for first teaching from 2015, this print Student Book provides full coverage of The Age of the Crusades, c.1071-1204 Breadth component. Completely matched to the new AQA specification, this full-colour Student Book provides valuable background information to contextualise the period of study. The Second Crusade Routledge

A concise, general history of the crusades from the beginnings to the fall of the last strongholds in 1291.

Expanding the Frontiers of Medieval Latin Christianity

Reaktion Books

This German-to-English translation of a highly successful book is a clear, approachable, student-friendly introduction to the history of the Crusades. With a long chronological span, from the eleventh to the late fifteenth century, and with a wide geographical coverage of the whole of Europe and some of the Middle East, The Crusades is clear, concise and more wide-ranging than most single-volume works. Taking recent scholarship into account, and using boxes, case studies, marginal directions and chronologies, the book is well laid out and easy to follow, providing a comprehensive overview of the crusade movement for students at all university levels.

The Social Structure of the First Crusade Routledge

Proceedings of a conference on a theme, the 34 essays by specialists from 15 countries present various facets of the struggles waged for the possession of the Holy Land between the 10th and 13th centuries, and of the activities of the military orders elsewhere in Europe.

The Crusades and the Military Orders Yale University Press

The Crusades and the Expansion of Catholic Christendom, 1000-1714 is a fascinating and accessible survey that places the

medieval Crusades in their European context, and examines, for the first time, their impact on European expansion. Taking a unique approach that focuses on the motivation behind the Crusades, John France chronologically examines the whole crusading movement, from the development of a ‘crusading impulse’ in the eleventh century through to an examination of the relationship between the Crusades and the imperialist imperatives of the early modern period. France provides a detailed examination of the first Crusade, the expansion and climax of crusading during the twelfth and thirteenth centuries and the failure and fragmentation of such practices in the fourteenth and fifteenth centuries. Concluding with an assessment of the influence of the Crusades across history, and replete with illustrations, maps, timelines, guides for further reading, and a detailed list of rulers across Europe and the Muslim world, this study provides students with an essential guide to a central aspect of medieval history.

The Hospitallers and the Holy Land Bloomsbury Publishing

First modern edition of an undeservedly neglected account of the events of the First Crusade.

The Crusades to the Holy Land: The Essential Reference Guide

BRILL

If films drawing on Middle East tropes often highlight white Westerners, figures such as Sinbad and the Thief of Bagdad embody a counter-tradition of protagonists, derived from Islamic folklore and history, who are portrayed as ‘Other’ to Western audiences. In *Muslim Heroes on Screen*, Daniel O’Brien explores the depiction of these characters in Euro-American cinema from the silent era to the present day. Far from being mere racial masquerade, these screen portrayals are more complex and nuanced than is generally allowed, not least in terms of the shifting concepts and assumptions that inform their Muslim identity. Using films ranging from Douglas Fairbanks’ *The Thief of Bagdad*, *The 7th Voyage of Sinbad*, *El Cid*, *Kingdom of Heaven* and *The Message to The Wind and the Lion*, O’Brien considers how the representational strategies of Western filmmakers may transcend such Muslim stereotypes as fanatic antagonists or passive victims. These figures possess a cultural significance which cannot be fully appreciated by Euro-American audiences without reference to their distinction as Muslim heroes and the implications and resonances of an Islamicized protagonist.

The Crusades ABC-CLIO

The Crusades continue to exert a fascination in the West as a story of perceived gallantry and battles against impossible odds. Yet what is less often considered is their effect on the Holy Land, and in particular the response of the Muslim world to the invasions of European Crusaders. In this book, W. B. Bartlett, author of four books on the Crusades, looks at these great events from the Muslim point of view. One of the effects was to unite a previously divided Islamic world against a common enemy. In the process, they gave an unstoppable impetus towards the declaring of jihad against the West, a holy war against Christendom. They also helped to shape the careers of some important figures, most notably Saladin, but also other great men like Sultan Baibars and Nur al-Din. The rise of these great leaders is traced in this book, as are the many great battles that were fought by men just as devoted to their cause as the Crusaders were.

Lebanon Boydell Press

This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events. • Provides compelling examinations of major controversies in military history from the time of the ancient world to the modern day • Enables readers to see how historians address such topics and understand how their process could be applied to other topics or research areas • Offers a bibliography specific to each topic to give students looking to do further research a wealth of options
The Crusades, C.1071-c.1291 Edinburgh University Press

The crusades are often seen as epitomising a period when hostility between Christian West and the Muslim Near East reached an all time high. This edited volume reveals a more complex story, exploring how the Holy Wars led on the one hand to a reinforcement of the beliefs and identities of each side, but on the other to a growing level of cultural exchange and interaction.

From Antiquity to the Empire of Modernity Amberley Publishing Limited

Marginality assumes a variety of forms in current discussions of the Middle Ages. Modern scholars have considered a seemingly innumerable list of people to have been marginalized in the European Middle Ages: the poor, criminals, unorthodox religious, the disabled, the mentally ill, women, so-called infidels, and the list goes on. If so many inhabitants of medieval Europe can be qualified as "marginal," it is important to interrogate where the margins lay and what it means that the majority of people occupied them. In addition, we scholars need to reexamine our use of a term that seems to have such broad applicability to ensure that we avoid imposing marginality on groups in the Middle Ages that the era itself may not have considered as such. In the medieval era, when belonging to a community was vitally important, people who lived on the margins of society could be particularly vulnerable. And yet, as scholars have shown, we ought not forget that this heightened vulnerability sometimes prompted so-called marginals to form their own communities, as a way of redefining the center and placing themselves within it.

The present volume explores the concept of marginality, to whom the moniker has been applied, to whom it might usefully be applied, and how we might more meaningfully define marginality based on historical sources rather than modern assumptions. Although the volume's geographic focus is Europe, the chapters look further afield to North Africa, the Sahara, and the Levant acknowledging that at no time, and certainly not in the Middle Ages, was Europe cut off from other parts of the globe.

The Papacy and Crusading in Europe, 1198-1245 Cambridge University Press

From the Viking invasions to the Crusades to the Hundred Years War, wars were crucial agents of change in medieval Europe. They fostered many economic and political changes. They also affected the science, technology, religion, and culture of the parties involved. This two-volume encyclopedia examines all aspects of warfare and military technology in medieval times. Featuring the latest research from the leading experts in medieval military history, the set provides an exhaustive and accurate view of how and why wars were waged throughout Europe, the Byzantine Empire, and the Crusader States from circa 500 CE to circa 1500. Although many reference works have been published in medieval history, this is the first and only encyclopedia to focus exclusively on medieval warfare, offering unique insight into the subject by addressing developments in military technology across the period with articles on topics such as gunpowder and shields. The encyclopedia will appeal to scholars and readers of all levels interested in military history and in the medieval world.
