On the fiftieth anniversary of her death, a startling new vision of Plath—the first to draw from the recently-opened Ted Hughes archive The life and work of Sylvia Plath has taken on the proportions of myth. Educated at Smith, she had an epically conflict-filled relationship with her mother, Aurelia. She then married the poet Ted Hughes and plunged into the sturm and drang of married life in the full glare of the world of English and American letters. Her poems were fought over, rejected, accepted and, ultimately, embraced by readers everywhere. Dead at thirty, she committed suicide by putting her head in an oven while her children slept. Her poetry collection titled Ariel became a modern classic. Her novel *The Bell Jar* has a fixed place on student reading lists. American Isis will be the first Plath bio benefitting from the new Ted Hughes archive at the British Library which includes forty one letters between Plath and Hughes as well as a host of unpublished papers. The Sylvia Plath Carl Rollyson brings to us in American Isis is no shrinking Violet overshadowed by Ted Hughes, she is a modern day Isis, a powerful force that embraced high and low culture to establish herself in the literary firmament.

White supremacy-busting facts that ran in the black publication the Pittsburgh Courier, written by the renowned African American author and journalist. First published in 1934 and revised in 1962, this book gathers journalist and historian Joel Augustus Rogers' columns from the syndicated newspaper feature titled Your History. Patterned after the look of Ripley's popular Believe It or Not the multiple vignettes in each episode recount short items from Rogers's research. The feature began in the Pittsburgh

Courier in November 1934 and ran through the 1960s. "I have been intrigued by this book, and by its author, since I first encountered it as a student in an undergraduate survey course in African-American history at Yale . . . Sometimes, [Rogers] was astonishingly accurate; at other times, he seems to have been tripping a bit, shall we say." —Henry Louis Gates, Jr., *The Root* "Rogers made great contribution to publishing and distributing little know African history facts through books and pamphlets such as 100 Amazing Facts About the Negro with Complete Proof and *The Five Negro Presidents* . . . The common thread in Roger's research was his unending aim to counter white supremacist propaganda that prevailed in segregated communities across the United States against people of African descent." —Black History Heroes

Included in Time's 100 Must Read Books of 2021 list \* A New York Times Best Seller \* One of Audible's Best of The Year \* AV Club's Best Books to Buy "Funny, tender, and so good." —Mindy Kaling, #1 New York Times bestselling author of *Why Not Me?* Remember when we hit it off so well that we decided *We're Going to Need More Wine?* Well, this time you and I are going to turn to our friend the bartender and ask, *You Got Anything Stronger?* I promise to continue to make you laugh, but with this round, the stakes get higher as the conversation goes deeper. So. Where were we? Right, you and I left off in October 2017, when my first book came out. The weeks before were filled with dreams of loss. Pets dying. My husband leaving me. Babies not being born. My therapist told me it was my soul preparing for my true self to

emerge after letting go of my grief. I had finally spoken openly about my fertility journey. I was having second thoughts—in fact, so many thoughts they were organizing to go on strike. But I knew I had to be honest because I didn't want other women going through IVF to feel as alone as I did. I had suffered in isolation, having so many miscarriages that I could not give an exact number. Strangers shared their own journeys and heartbreak with me. I had led with the truth, and it opened the door to compassion. When I released *We're Going to Need More Wine*, the response was so great people asked when I would do a sequel. The New York Times even ran a headline reading "*We're Going to Need More Gabrielle Union*." Frankly, after being so open and honest in my writing, I wasn't sure there was more of me I was ready to share. But life happens with all its plot twists. And new stories demand to be told. This time, I need to be more vulnerable—not so much for me, but anyone who feels alone in what they're going through. A lot has changed in four years—I became a mom and I'm raising two amazing girls. My husband retired. My career has expanded so that I have the opportunity to lift up other voices that need to be heard. But the world has also shown us that we have a lot we still have to fight for—as women, as black women, as mothers, as aging women, as human beings, as friends. In *You Got Anything Stronger?*, I show you how this ever-changing life presents challenges, even as it gives me moments of pure joy. I take you on a girl's night at Chateau Marmont, and I also talk to Isis, my character from *Bring It On*. For the first time, I truly open up about my surrogacy journey and the birth of Kaavia James Union Wade. And I take on racist institutions and practices in the entertainment industry, asking for equality and real accountability. *You Got Anything Stronger?* is me at my most vulnerable. I have recently found true strength in that vulnerability, and I want to share that power with you here,

through this book.

*Working with Paper* builds on a growing interest in the materials of science by exploring the gendered uses and meanings of paper tools and technologies, considering how notions of gender impacted paper practices and in turn how paper may have structured knowledge about gender. Through a series of dynamic investigations covering Europe and North America and spanning the early modern period to the twentieth century, this volume breaks new ground by examining material histories of paper and the gendered worlds that made them. Contributors explore diverse uses of paper—from healing to phrenological analysis to model making to data processing—which often occurred in highly gendered, yet seemingly divergent spaces, such as laboratories and kitchens, court rooms and boutiques, ladies' chambers and artisanal workshops, foundling houses and colonial hospitals, and college gymnasiums and state office buildings. Together, they reveal how notions of masculinity and femininity became embedded in and expressed through the materials of daily life. *Working with Paper* uncovers the intricate negotiations of power and difference underlying epistemic practices, forging a material history of knowledge in which quotidian and scholarly practices are intimately linked.

Though capable of staging spectacular attacks like 9/11, jihadist organizations were not a significant force on the ground when they first became notorious in the shape of al-Qa'ida at the turn of century. //Today, that's changed. Exploiting the missteps of the West's wars in Afghanistan, Iraq and Libya, as well as its misjudgments in relation to Syria and the uprisings of the Arab Spring, jihadist organizations, of which ISIS is the most important, are swiftly expanding. They now control a geographical territory greater in size than Britain or Michigan, stretching from the Sunni

heartlands in the north and west of Iraq through a broad swath of north-east Syria. On the back of their capture of Mosul and much of northern Iraq in June 2014, the leader of ISIS, Abu Bakr al-Baghdadi, has been declared the head of a new caliphate that demands the allegiance of all Muslims. The secular, democratic politics that were supposedly at the fore of the Arab Spring have been buried by the return of the jihadis writing with customary calmness and clarity, and drawing on unrivaled experience as a reporter in the region, Cockburn analyzes the unfolding of one of the West's greatest foreign policy debacles and the rise of the new jihadis. //Patrick Cockburn is currently a Middle East correspondent for the Independent. His book on Iraq's recent history, *The Occupation: War and Resistance in Iraq*, was a finalist for the National Book Critics' Circle Awards. He won the Martha Gellhorn Prize in 2005, the James Cameron Prize in 2006, and the Orwell Prize for Journalism in 2009. He was named Foreign Commentator of the Year by the Comment Awards in 2013.

In June 2014 Islamic State launched an astonishing blitzkrieg which saw them seize control of an area in the Middle East the size of Britain. The news was soon filled with their relentless acts

of savagery, yet nobody seemed to know who they were or where they'd come from. Now BBC reporter Andrew Hosken delivers the inside story on Islamic State. Through extensive first-hand reporting, Hosken builds a comprehensive picture of IS, their brutal ideology and exterminationist methods. Equally compelling and horrifying, *Empire of Fear* reveals how Islamic State came to be, explores how they might be defeated and asks a frightening question - if they were brought down, could we stop another group emerging to replace them?

*In Dear Science and Other Stories* Katherine McKittrick presents a creative and rigorous study of black and anticolonial methodologies. Drawing on black studies, studies of race, cultural geography, and black feminism as well as a mix of methods, citational practices, and theoretical frameworks, she positions black storytelling and stories as strategies of invention and collaboration. She analyzes a number of texts from intellectuals and artists ranging from Sylvia Wynter to the electronica band Drexciya to explore how narratives of imprecision and relationality interrupt knowledge systems that seek to observe, index, know, and discipline blackness. Throughout, McKittrick offers curiosity, wonder, citations, numbers, playlists, friendship, poetry, inquiry, song, grooves, and anticolonial chronologies as interdisciplinary codes that entwine with the academic form. Suggesting that black life and black livingness are, in themselves, rebellious methodologies, McKittrick imagines without totally disclosing the ways in which black intellectuals invent ways of living outside prevailing knowledge systems.

These papers are seminal—they are the first serious, data-driven examination of the impact of ISIS in India and the wider South Asian region. While the first section of this monograph looks at the ideological moorings of the ISIS as well as its organisational and operational dynamics, the other sections are focused on the impact of ISIS on South Asia and India. A pioneering, data-driven examination of the Islamic State, its rise and fall, and its post-geography threat to India, South Asia, and beyond. This monograph aims to fill the void in the current understanding of not only ISIS' conception and operational structure, but the evolving nature of terrorism and the factors that strengthen jihadist ideologies. It offers decision-makers fresh insights for

formulating appropriate counter- terrorism strategies towards creating a safe, secure and peaceful regional environment.

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. "A fresh new voice who adds her own charming, beguiling brand of lyricism to the growing body of Haitian American stories . . . a unique and fascinating book." —Lorna Goodison, author of *From Harvey River* One of the South Florida Times's Best Bets For Your Weekend An Essence Magazine Summer Reading Pick *Iris Odys*, is the offspring of Hagathe, a Haitian maid, and Brahami, a French-educated mixed-race father who cares little about his child. Hagathe, who'd always dreamt of a better life for her daughter, is presented with the perfect opportunity when Iris is five years old. Adopted by a white American couple, an anthropologist and an art gallery owner, Iris is transported from her tiny remote Haitian village, Monn Neg, to an American suburb. The *Roving Tree* illuminates how imperfectly assimilated adoptees struggle to remember their original voices and recapture their personal histories. Set between two worlds, suburban America and Haiti under the oppressive regime of Papa Doc's Tonton Macoutes, the novel offers a unique literary glimpse into the deeply entrenched class discrimination and political repression of Haiti during the Duvalier era, along with the subtle but dangerous effects of American racism. Told from beyond the grave and underscored by the spiritual wisdom of Haitian griots, *The Roving Tree* explores separation and loss, rootlessness, the impact of class privilege and color consciousness, and the search for cultural identity. This book, based on four years of on-the-ground reporting, research in ten countries in the Middle East, a thousand hours of interviews with key players and access to generals, spies, policymakers, soldiers and refugees, is the first comprehensive look at the defeat of ISIS and the future reshaping of the Middle East. It provides a unique window into the battle for the heart and soul of the Muslim world and lays out why we need to be informed about changes on the ground after the defeat of ISIS. More than seventy countries are members of the international coalition formed in 2014 to defeat Islamic State (ISIS). After ISIS provides a sobering blueprint for how the US and regional powers will re-shape the region in years to come. Understanding these events and the choices ahead will determine if ISIS and similar ideologies reemerge, whether a new war between the US, its allies and Iran comes in the wake of ISIS, or if a younger generation of leaders can carve out a new Middle East. As ISIS recedes, the world is at a unique historic crossroads in the Middle East. Decisions made now in the region and in Washington matter more than ever. Tehran and the US are increasingly on a collision course to struggle over the vacuum left behind by ISIS in Iraq and Syria.
