Haunting, gripping, and psychologically fierce tales that illuminate an unsettling side of humanity from “one of the treasures of American story writing” (Jonathan Lethem). Featuring the O. Henry Prize-winning short story “Windeye,” this collection of Brian Evenson’s masterful stories “involve impossible scenarios and alternative realities” that are “always surprising” (Bookforum). A woman falling out of sync with the world; a king’s servant hypnotized by his murderous horse; a transplanted ear with a mind of its own—the characters in these twenty-five stories live as interlopers in a world shaped by mysterious disappearances and unfathomable discrepancies between the real and imagined, revealing the breadth and depth of Evenson’s uncanny vision.

Building on their breakthrough bestsellers *Lean Software Development* and *Implementing Lean*

Software Development, Mary and Tom Poppendieck’s latest book shows software leaders and team members exactly how to drive high-value change throughout a software organization—and make it stick. They go far beyond generic implementation guidelines, demonstrating exactly how to make lean work in real projects, environments, and companies. The Poppendiecks organize this book around the crucial concept of frames, the unspoken mental constructs that shape our perspectives and control our behavior in ways we rarely notice. For software leaders and team members, some frames lead to long-term failure, while others offer a strong foundation for success. Drawing on decades of experience, the authors present twenty-four frames that offer a coherent, complete framework for leading lean software development. You’ll discover powerful new ways to act as competency leader, product champion, improvement mentor, front-line leader, and even visionary. Systems thinking: focusing on customers, bringing predictability to demand, and revamping policies that cause inefficiency Technical excellence: implementing low-dependency architectures, TDD, and evolutionary development processes, and promoting deeper developer expertise Reliable delivery: managing your biggest risks more effectively, and optimizing both workflow and schedules Relentless improvement: seeing problems, solving problems, sharing the knowledge Great people: finding and growing professionals with purpose, passion, persistence, and pride Aligned leaders: getting your entire leadership team on the same page From the world’s number one experts in Lean software development, *Leading Lean Software Development* will be indispensable to everyone who wants to transform the promise of lean into reality—in enterprise IT and software companies alike.

Get the Key to the Boardroom with Powerful Executive Presence! “This book can be a key aid in helping you make it to the next level! Great coaching for anyone who is even thinking of becoming an executive!” Marshall Goldsmith, New York Times bestselling author of *What Got You Here Won’t Get You There* “On the corporate battlefield a true leader’s success is based upon his or her ability to communicate effectively, persuade others to follow a goal, and execute it. This leads to success for all. When the stakes are high, you’re well advised to read this book first.” Scott A. Gaines, vice president, Hertz Corporation “If you are seriously looking to be perceived in the light you choose, *Executive Presence* is the book that not only answers the question, but shows you how to apply the answers.” Kevin Hogan, author of *The Psychology of Persuasion* “Harrison Monarth is a first-rate thinker who writes as clearly as he thinks. No matter where you are on the career ladder, *Executive Presence* will put you a step ahead of your competition.” T. Scott Gross, author of *Positively Outrageous Service* “Most people know that to move up in your career, you need to have self-awareness and the ability to manage the perceptions of those whose opinions count. . . . *Executive Presence* is your comprehensive guide to help you become more proficient at self-marketing and the art of ethical persuasion to achieve your personal and professional goals.” Larina Kase, PsyD, MBA, author of *The Confident Leader* and coauthor of the New York Times bestseller *The Confident Speaker* About the Book An expert in coaching high-level players in the art of perception management, Harrison Monarth reveals the critical difference between CEOs and those of us who wish to be CEOs. It’s not a matter of intelligence, connections, or luck. It can be summed up in two words: executive presence. While most of us toil in obscurity and expect great things to follow, those on the path to corporate leadership spend their time perfecting the types of leadership communication skills that generate respect and get others to share their vision. They use these skills to establish how they are perceived by others and to manage their reputation throughout the organization. In other words, these soon-to-be top players have developed the presence of an executive through careful image management—and they make sure they have the goods to back it up. In *Executive Presence*, Monarth shows how you can seize control of your own

career using the same skills. Inside, he explains how to: Accurately “read” people and predict their behavior Influence the perceptions of others Persuade those of opposing views to your side Create and maintain a personal “brand” Manage and control your online reputation Perform damage control when things go wrong Monarth’s conclusions aren’t based solely on his keen insight and extensive experience; they’re the result of the latest scientific research in interpersonal communication and human behavior. Talent and skills are important, but they alone won’t take you to the top of your organization. People reach highly influential positions because they deeply understand the power of perception and know how to leverage it in their favor. The good news is, anyone with the will to succeed can do it. *Executive Presence* provides all the techniques you need to take your career to the highest level of any organization.

Matthew Bourne and His Adventures in Dance is an intimate and in-depth conversation between the prize-winning pioneer of ballet and contemporary dance Matthew Bourne and the New York Times dance critic Alastair Macaulay. In 1987, a small, aspirant dance group with a striking name made its debut on the London fringe. In 1996, *Adventures in Motion Pictures* made history as the first modern dance company to open a production in London's West End. From this achievement, AMP sailed triumphantly to Broadway - winning three Tony Awards - guided by Artistic Director Matthew Bourne. Even before the inception of AMP, Bourne was fascinated by theatre, by characterization, and by the history of dance. In his early works - *Spitfire*, *Town & Country* and *Deadly Serious* - Bourne brought a novel approach to dance. And in his reworkings of the classics of the ballet canon - *Nutcracker*, *Swan Lake*, *Cinderella* - Bourne created witty, vivid, poignant productions that received great acclaim. In the first decade of the new millennium, the company name was changed to *New Adventures*, and Bourne's 'classics', as well as Bourne's new works - *The Car Man*, *Play Without Words*, *Edward Scissorhands* and *Dorian Gray* - achieved levels of box-office popularity that have seldom, if ever, been matched in dance. In addition, his choreography

for various musicals - My Fair Lady, Mary Poppins and Oliver! - have run for years in the West End and on Broadway. The detail in which Bourne discusses his work with Alastair Macaulay is unprecedented. The two explore Bourne's upbringing, his training and influences, and his distinctive creative methods. Bourne's notebooks, his sources and his collaboration with dancers all form part of the discussion in this book.

1910. Pownal, Vermont. At 12, Grace and her best friend Arthur must leave school and go to work as a "doffers" on their mothers' looms in the mill. Grace's mother is the best worker, fast and

powerful, and Grace desperately wants to help her. But she's left handed and doffing is a right-handed job. Grace's every mistake costs her mother, and the family. She only feels capable on Sundays, when she and Arthur receive special lessons from their teacher. Together they write a secret letter to the Child Labor Board about underage children working in Pownal. A few weeks later a man with a camera shows up. It is the famous reformer Lewis Hine, undercover, collecting evidence for the Child Labor Board. Grace's brief acquaintance with Hine and the photos he takes of her are a gift that changes her sense of herself, her future, and her family's future.

In every major city, there exists a complex exchange between urban space and the institution of the theatre. *City Stages* is an interdisciplinary and materialist analysis of this relationship as it has existed in Toronto since 1967. Locating theatre companies ? their sites and practices ? in Toronto?s urban environment, Michael McKinnie focuses on the ways in which the theatre has adapted to changes in civic ideology, environment, and economy. Over the past four decades, theatre in Toronto has been increasingly implicated in the civic self-fashioning of the city and preoccupied with the consequences of the changing urban political economy. *City Stages* investigates a number of key questions that relate to this pattern. How has theatre been used to justify certain forms of urban development in Toronto? How have local real estate markets influenced the ways in which theatre companies acquire and use performance space? How does the analysis of theatre as an urban phenomenon complicate Canadian theatre historiography?

McKinnie uses the St. Lawrence Centre for the Arts and the Toronto Centre for the Performing Arts

as case studies and considers theatrical companies such as Theatre Passe Muraille, Toronto Workshop Productions, Buddies in Bad Times, and Necessary Angel in his analysis. *City Stages* combines primary archival research with the scholarly literature emerging from both the humanities and social sciences. The result is a comprehensive and empirical examination of the relationship between the theatrical arts and the urban spaces that house them.
