Pedigrees of Thomas, Chew, and Lawrance, a West River Register, and Genealogical Notes Nabu Press

Excerpt from An Index to Printed Pedigrees, Contained in County and Local Histories, the Herald's Visitations, and in the More Important Genealogical Collections IN the autumn of 1863 I announced my intention to publish a volume on the Bibliography of Heraldry and Genealogy, and in the following spring, in Notes and Queries and

in the Herald and Genealogist, I promised to add to it an Index to the Pedigrees contained in the County Histories, and other topographical works. Partly in consequence of the extent of the materials I have collected for that work, and partly on account of the production of a hastily prepared compilation of a similar nature to the present Index, I have been compelled to postpone for a time the publication of the bibliographical manual, and to issue my Index as a separate work. In submitting it to the genealogical student, I can only express a hope that the trifling errors which may have escaped notice, in over sixteen thousand references, in

duplicate, will not militate against the general adoption of it as a guide to printed genealogies. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Herbert Summers Lloyd MBE, (April 1, 1887 - January 26, 1963), known commonly as H. S. Lloyd, was best known for being a breeder of

show English Cocker Spaniels. He remains the most successful breeder/owner at Crufts, having won Best in Show on six occasions in the 1930s and 1940s. This monograph on the breed has been written at the request of many friends who have urged me to endeavour to place before the novice and newcomer to the breed a simply-written book dealing with the subject from a practical standpoint. I make no claims to any literary genius, but the information contained herein has been gathered through a lifetime's experience of the dog I love. It is my sincere hope that this volume may prove of some assistance, and if it gives as much pleasure to the reader as it did to me in its

compilation I am amply rewarded.

Wallace's American Stud-book BoD - Books on Demand

Beginning with those who reached or were born in the New World, explore to the starting points in their or their family's immigrations from the Old Country and beyond to the Germanic roots of these 3 family branches! This book, Volume I, starts with William Frederick Lynn – born in Indiana in 1882 and resided as well in Texas and Oklahoma throughout his life. Using this pedigree format, the researcher can then work back in time to the known origination of these Lynn/Linn ancestors. Nine generations are included in this volume that spans over 3 centuries. All books in this series provide extensive information about ancestors from personal data (name,

gender, birth & death dates and places, religious affiliation and even occupations if known) to timelines with the ancestor's life events – often authenticated with transcripts from original records. As well, there is some information provided about their families along with pedigree charts for most ancestors and relationship charts between the starting ancestor and all other ancestors included. For ancestors to whom it applies, a DNA Confirmation section presents known AncestryDNA® matches and gives details about which children passed this DNA to descendants who match to the ancestor they have in common. This can

include several generations of offspring from a particular ancestor. Note: The internal links are disabled in this online version and cross-referencing is unavailable. Download this free book to take advantage of this feature.
