Geography for Kids: World Continents R.I.C. Publications
 Suicide is one of the most personal yet one of the most complex acts people can engage in. It continues to be a major global public health problem with an estimated 800,000 deaths annually. Suicide prevention is an important target in the United Nations Sustainable Development Goals (SDGs) for 2030, which aim to reduce premature mortality from noncommunicable diseases by one-third. Suicide is a global problem, but what differences are there in the challenges faced and the solutions found regionally? Written by leading experts, the nine chapters of this volume provide a clear outline of the major milestones and achievements so far in six different geographical regions using the data collated by the International Association for Suicide Prevention (IASP) and the WHO Department of Mental Health and Substance Abuse, as well as information on the recent progress in the development and implementation of national suicide prevention programs in different countries. In two concluding chapters, the evidence base and best practice of suicide prevention programs are reviewed, as well as the future directions for suicide prevention at the global level. This book is essential reading for all those involved in suicide research and prevention as well as public health policy and epidemiology who want to keep up-to-date with the latest global developments.

Its Countries and Continents ... Parragon Publishing India

In a thoughtful and engaging critique, geographer Martin W. Lewis and historian Karen Wigen re-examine the basic geographical divisions we take for granted. Their up-to-the-minute study reflects both on the global scale and its relation to the specific continents of Europe, Asia, and Africa actually part of one contiguous landmass. Photos. maps.

Continents, Countries, and More 99 Learning LLC

This is a book of basic knowledge that unfortunately isn't general knowledge for the average America. This book gives you information about the 54 countries in Africa. After reading you'll know a little more about the motherland and you will be 100% certain that Africa is not a country.

Shows how people live in many places at once, from their bedrooms at home, through their city, state, and country, to the solar system, the galaxy, and the universe

Flags Around The World Coloring Book Scholastic Inc.

Flags of England, Wales, Scotland and Northern Ireland on page 34. The flag of Southern Ireland (Ireland) on page 9. CUSTOMER REVIEWS: "Good book especially for children. All independent states with compact information (area, population, etc.) as well as flags." - Alexey V. F. Ch. Bobrov (5 stars) "Great book. My grandson is interested in geography and loves flags. This book was perfect for him. Good information, organized well and at a great price. I highly recommend this book." - One of the Gardner Clan (5 stars) "My nephew and I play trivia every Wednesday night and there is always a question in a category called Fun with Flags. I bought this for him on Father's day and he loves it." - Helen Meehan (5 stars) "Nice tool and learning guide. Good guide for countries/capitals." - Judy Lion (5 stars) "Wow!Very nice book with many countries, capitals and flags! Ordered this one for my children." - D.J. Boettcher (5 stars) "I loved that you are having

fun but also learning at the same time. it is my favorite book for my daughter." - Jennifer (5 stars) "Very interesting book on country flags. Great book, more than just flags, countries capitals as well as lots of information." - Anthony Harris (5 stars on Amazon.co.uk) "Great book of facts. Ideal book of facts easy to pack in kids bags." - Irene Herkes (5 stars on Amazon.co.uk) "Flagtastic. Great Christmas present." - cfc1968 (5 stars on Amazon.co.uk) Is your child developing an interest in the wider world?Are they starting to ask questions you can't answer?Would you like to be able to assist them with homework or other school projects? The world continues to contract as the years go by. Air travel, the Internet and mobile telephones mean that we can travel and communicate in ways we would never have imagined even just 100 years ago.So, when your child asks about a country in Africa, or a city in South America, what do you say? This book, All Countries, Capitals and Flags of the World, was written to help you when your child becomes interested in the world around them. It contains chapters on: Flags of all INDEPENDET countries of the world Flags of unrecognized states and states with limited recognition Flags of all states of the USA Populations and area of each country!!! Capital cities Continents Transcontinental countries Biggest countries by area Smallest countries in the world And much more... Children of any age will love learning about the colorful flags, capital cities and interesting facts about countries from around the world and parents will find it useful for testing a child's knowledge of geography.An ideal birthday gift, or as a reward for good behavior, if your child is craving knowledge about the countries of the world then this book is a 'must read' for them. Especially for children is not a large book format-6 x 9 in. (15.2x22.9 cm)! Convenient book size for children to study! Convenient to put in a school backpack! This book an ideal gift not only for children, but also for adults who are loved geography or travel. Adults can use it as reference (Last update of the names of countries and capitals is January 1, 2020!!!)

Continents and Countries

The popularity of the first two editions of this book necessitated a third revised and updated version to record the many challenges in Africa since the first edition appeared in 1998. Africa is a vast and fascinating continent whose population has exceeded the one billion mark. Africa A-Z attempts to provide, in a concise manner, the facts for an elementary understanding of the continent and its

complex problems. The book falls into two main sections; the five chapters on the first main section focus on the continent as a whole, dealing with its physical and human diversity, its eventful history and Africans' struggle for economic survival. The second main section contains profiles of 58 independent countries, ranging from Algeria to Zimbabwe. Presentation of the profiles is uniform, in that the same themes are covered in each profile. The data panels with the profiles contain data not provided in the text. The maps, appearing throughout the text were produced by AISA's cartography department.

Continents of the World for Kids: Geography for Kids: World Continents Do you want to teach your children about the continents of the world? If yes then this is the book for you! It's important that children appreciate the planet as the home land of mankind so that they can take wise decisions when they grow older about how the planet's resources should be used. In this book, children will learn about the various continents of the world, about its people, their societies, economies, cultures and the environment. This book is more than just a factual look through. It is a book that will make children appreciate why each continent is important and why they should be preserved for as long as possible. With the increase in global warming and climate change that is currently affecting the world, the current state of the continents is subject to change as well. Soon Antarctica might not

be a place that is considered to be icy and cold. If the ice caps keep melting then the continent of Antarctica may disappear all together and become flooded with water. But if children never had knowledge about Antarctica then they would never understand the significance of this change. That is why learning about the continents now is crucial. Let this book be their guide to the current state of the continents. Then in the next 30 years they can look back upon and see how much they've truly changed over the years.
