They were each born with the gift of gospel. Martin's voice kept people in their seats, but also sent their praises soaring. Mahalia's voice was brass-and-butter - strong and smooth at the same time. With Martin's sermons and Mahalia's songs, folks were free to shout, to sing their joy. On August 28, 1963, Martin Luther King, Jr. gave his famous "I Have a Dream" speech from the steps of the Lincoln Memorial, and his strong voice and powerful message were joined and lifted in song by world-renowned gospel singer Mahalia Jackson. It was a moment that changed the course of history and is imprinted in minds forever. Told through Andrea Davis Pinkney's poetic prose and Brian Pinkney's evocative illustration, the stories of these two powerful voices and lives are told side-by-side -- as they would one day walk -- following the journey from their youth to a culmination at this historical event when they united as one and inspiring kids to find their own voices and speak up for what is right.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, *The Power of Now* is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

The final book from a towering pioneer in the study of poverty and inequality—a critically important examination of poverty around the world In this, his final book, economist Anthony Atkinson, one of the world's great social scientists and a pioneer in the study of poverty and inequality, offers an inspiring analysis of a central question: What is poverty and how much of it is there around the globe? The persistence of poverty—in rich and poor countries alike—is one of the most serious problems facing humanity. Better measurement of poverty is essential for raising awareness, motivating action, designing good policy, gauging progress, and holding political leaders accountable for meeting targets. To help make this possible, Atkinson provides a critically

important examination of how poverty is—and should be—measured. Bringing together evidence about the nature and extent of poverty across the world and including case studies of sixty countries, Atkinson addresses both financial poverty and other indicators of deprivation. He starts from first principles about the meaning of poverty, translates these into concrete measures, and analyzes the data to which the measures can be applied. Crucially, he integrates international organizations' measurements of poverty with countries' own national analyses. Atkinson died before he was able to complete the book, but at his request it was edited for publication by two of his colleagues, John Micklewright and Andrea Brandolini. In addition, François Bourguignon and Nicholas Stern provide afterwords that address key issues from the unfinished chapters: how poverty relates to growth, inequality, and climate change. The result is an essential contribution to efforts to alleviate poverty around the world. *Change Your Words, Change Your World* Simon and Schuster "A picture book about how family and community help shape the wonderful people our children become"--

The Power of Now Tordotcom

She grew up in front of the world on the beloved sitcom Full House, but then actress Andrea Barber abruptly left Hollywood. Why did she leave and what did she do for twenty years out of the spotlight before returning to television? This is her funny and inspiring memoir of fame, heartache, resilience--and the reboot of a lifetime . . . When Kimmy Gibbler burst into the Tanners' home on Full House in 1987, audiences immediately connected with the confident and quirky pre-teen character, played by ten-year-old actress Andrea Barber. During an eight-season run on one of the most popular series of the '80s and '90s, Andrea came of age in front of millions. But she was as far removed from her character as a girl can get. The introverted young star was plagued with self-doubt, insecurities, and debilitating anxieties that left her questioning her identity after the show's cancelation. Andrea wouldn't return to the public eye until 2016, for Fuller House. So what happened in those intervening decades that Andrea jokingly calls "the lost years"? For starters, Andrea never stopped working. But it was on a series of life-changing transitions: earning a college degree, then a Master's, building a career in international education, getting married, and starting a family. She also faced some unforeseeable transitions: navigating a sudden divorce after nearly twelve years of marriage, and second-guessing her capabilities as a single mother. But it was her devastating bout with post-partum anxiety and depression that derailed Andrea's life--and became a crucial turning point. Full Circle is a raw, refreshingly honest look into the life of a celebrity who has never been fully comfortable in the spotlight. Here Andrea shares her deeply personal struggles with mental health in a way she has never done before. She opens up about fighting her way back and finding solace--while finding herself--all before her life came full circle with her costars and lifelong friends on Fuller House. Sharing her journey from child star, to champion of mental health, and back to stardom, Andrea writes in a way that feels like catching up with an old friend. You'll laugh, reminisce, and finally get to know the woman behind the

zany next door neighbor.

Finalist for the Pulitzer Prize New York Times Bestseller | A Read with Jenna Today Show Book Club Pick | A New York Times Book Review Notable Book | TIME Magazine's 100 Must-Read Books of 2019 Named one of the Best Books of the Year by NPR, The Washington Post; O: The Oprah Magazine, Real Simple, Good Housekeeping, Vogue, Refinery29, and Buzzfeed Ann Patchett, the #1 New York Times bestselling author of *Commonwealth*, delivers her most powerful novel to date: a richly moving story that explores the indelible bond between two siblings, the house of their childhood, and a past that will not let them go. *The Dutch House* is the story of a paradise lost, a tour de force that digs deeply into questions of inheritance, love and forgiveness, of how we want to see ourselves and of who we really are. At the end of the Second World War, Cyril Conroy combines luck and a single canny investment to begin an enormous real estate empire, propelling his family from poverty to enormous wealth. His first order of business is to buy the Dutch House, a lavish estate in the suburbs outside of Philadelphia. Meant as a surprise for his wife, the house sets in motion the undoing of everyone he loves. The story is told by Cyril's son Danny, as he and his older sister, the brilliantly acerbic and self-assured Maeve, are exiled from the house where they grew up by their stepmother. The two wealthy siblings are thrown back into the poverty their parents had escaped from and find that all they have to count on is one another. It is this unshakeable bond between them that both saves their lives and thwarts their futures. Set over the course of five decades, *The Dutch House* is a dark fairy tale about two smart people who cannot overcome their past. Despite every outward sign of success, Danny and Maeve are only truly comfortable when they're together. Throughout their lives they return to the well-worn story of what they've lost with humor and rage. But when at last they're forced to confront the people who left them behind, the relationship between an indulged brother and his ever-protective sister is finally tested.

Two distinguished linguists on language, the history of science, misplaced euphoria, surprising facts, and potentially permanent mysteries. In *The Secrets of Words*, influential linguist Noam Chomsky and his longtime colleague Andrea Moro have a wide-ranging conversation, touching on such topics as language and linguistics, the history of science, and the relation between language and the brain. Moro draws Chomsky out on today's misplaced euphoria about artificial intelligence (Chomsky sees "lots of hype and propaganda" coming from Silicon Valley), the study of the brain (Chomsky points out that findings from brain studies in the 1950s never made it into that era's psychology), and language acquisition by children. Chomsky in turn invites Moro to describe his own experiments, which proved that there exist impossible languages for the brain, languages that show surprising properties and reveal unexpected secrets of the human mind. Chomsky once said, "It is important to learn to be surprised by simple facts"—"an expression of yours that has represented a fundamental turning point in my own personal life," says Moro—and this is something of a theme in their conversation. Another theme is that not everything can be known; there may be permanent mysteries, about language and other matters. Not all words will give up their secrets.

Uncommon Courage Change Your Words, Change Your World

A Finalist for the PEN/Bograd Weld Prize for Biography Four influential women we thought we knew well—Jane Jacobs, Rachel Carson, Jane Goodall, and Alice Waters—and how they spearheaded the modern progressive movement This is the story of four visionaries who profoundly shaped the world we live in today. Together, these women—linked not by friendship or field, but by their choice to break with convention—showed what one person speaking truth to power can do. Jane Jacobs fought for livable cities and strong communities; Rachel Carson warned us about poisoning the environment; Jane Goodall demonstrated the indelible kinship between humans and animals; and Alice Waters urged us to reconsider what and how we eat. With a keen eye for historical detail, Andrea Barnet traces the arc of each woman's career and explores how their work collectively changed the course of history. While they hailed from different generations, Carson, Jacobs, Goodall, and Waters found their voices in the early sixties. At a time of enormous upheaval, all four stood as bulwarks against 1950s corporate culture and its war on nature. Consummate outsiders, each prevailed against powerful and mostly male adversaries while also anticipating the disaffections of the emerging counterculture. All told, their efforts ignited a transformative progressive movement while offering people a new way to think about the world and a more positive way of living in it.
