## Books

This expansive collection of A-Z entries offers a compelling look into hate groups in America. Focusing on organizations in operation today, this resource book for student and general audiences covers numerous hot-button issues in politics and culture. The Southern Poverty Law Center lists nearly 900 hate groups active in the United States today. Some of these, such as the KKK, have deep roots in American history. Others are newer, formed in response to

policies and shifts in our cultural landscape. Often these organizations imply defense of America and political ideals in their names, such as "Council of Conservative Citizens" and "American Family Association." Some, such as "White Aryan Resistance" and "Supreme White Alliance," are more direct in their associations. Nearly all posit an erosion of rights and values; a way of life that is becoming lost to immigrants; a diffusion or integration of population; and government overstep.

Many of these groups preach a necessity for violence, through either outright or thinly veiled language. Membership in these organizations poses another topic for investigation, as their ranks are not just anti-government or pro-gun rights types who seek to defend the Constitution. Many are simply citizens who see their ideal for America as under threat by various groups—whether ethnic, racial, or religious. This unique reference will allow readers to explore

the underlying issues central to understanding them. How do these hate groups get started, and why do people join? Invitation to Lead John Benjamins Publishing

The second thrilling book in Sally Green's Half Bad trilogy, the inspiration for the Netflix series *The Bastard Son & The Devil Himself* "An enthralling fantasy in the Harry Potter tradition."—Time magazine on Half Bad

Kept in a cage for two years by the Council of Fairborn Witches, Nathan was trained to kill his

father, the most violent and feared of the Blood Witches. Now Nathan has escaped, and he dreams of a quiet life of freedom with Annalise, the girl he loves—but Annalise is a prisoner, wasting away in a deathlike sleep.

Nathan's friend, Gabriel, is missing, likely dead, and although Nathan has found his unique magical Gift, he can't control it. The Council's Hunters are on his trail, so he is always on the run.

Nathan's only hope of survival is to join with new allies and old enemies in

an alliance to bring down the Council, and they want Nathan's help: they, too, want Nathan to be a killer. Maybe that is the only way out. Maybe that is just who he is now... Set in modern-day Europe, the second book in the Half Bad trilogy is more than a story about witches. It's a heart-pounding visceral look at survival and exploitation, the nature of good and evil, and the risks we take for love.

Now streaming on Netflix as *The Bastard Son & The Devil Himself*.

Being in Balance  
(EasyRead Super Large  
20pt Edition) Little, Brown  
Books for Young Readers  
This collection of studies  
by leading scholars in the  
field focuses on the  
semantics of non-definite  
(bare and indefinite)  
plural NPs. The  
contributions in the first  
part concentrate on bare  
plurals and their cross-  
linguistic counterparts.  
They discuss applicability  
of the notion of 'semantic  
incorporation' to bare  
plurals by contrasting  
them to bare singulars,  
with the aim of

accounting for the  
interaction between the  
semantics of number and  
the degree of  
(in)dependency of the NP  
with respect to the verb.  
The articles in the second  
part examine the  
relationship between the  
semantics of number and  
the semantics of aspect.  
The contributions in the  
third part concentrate on  
non-definite numerical  
noun phrases by  
addressing a range of  
fundamental questions  
such as: the semantics of  
indefinite time-phrases,  
numericals in classifier-

and non-classifier  
languages, scope  
interactions, the at least-  
and exactly-readings,  
referential properties of  
numericals. The volume  
will be welcomed by  
linguists interested in the  
semantics of number in  
non-definite NPs.

The One Year Devos for Teens Little, Brown Books for Young Readers  
 Experts have documented an explosive rise in the number of hate groups since the turn of the century, driven by anger over immigration and demographic projections showing that whites will no longer hold majority status in the United States by 2040. The rise accelerated with the elections of presidents Obama and Trump. Extremists are increasingly diffuse, moving to the web and

away from organized, on-the-ground activities. What is a hate group and how does it operate? How do we legally define hate speech and hate crimes? What is the history of organizing around hate and how do we recognize and confront it? These are the salient issues readers will investigate in this overview.  
*Hate List* Albin Michel  
 For readers of Marieke Nijkamp's *This Is Where It Ends*, a powerful and timely contemporary classic about the aftermath of a school

shooting. Five months ago, Valerie Leftman's boyfriend, Nick, opened fire on their school cafeteria. Shot trying to stop him, Valerie inadvertently saved the life of a classmate, but was implicated in the shootings because of the list she helped create. A list of people and things she and Nick hated. The list he used to pick his targets. Now, after a summer of seclusion, Val is forced to confront her guilt as she returns to school to complete her senior year. Haunted by

the memory of the boyfriend she still loves and navigating rocky relationships with her family, former friends, and the girl whose life she saved, Val must come to grips with the tragedy that took place and her role in it, in order to make amends and move on with her life. Jennifer Brown's critically acclaimed novel now includes the bonus novella Say Something, another arresting Hate List story.

Shyt List Fragment  
In Hate List, Jennifer Brown delivered a

powerful story about grief, friendship, and forgiveness in the aftermath of a school shooting. Now, she explores an evocative new narrative while digging deeper into the themes first touched upon in her debut novel. David Judy knows what it's like to be bullied. Shy and gentle, with a soft voice and "a girl's name for a last name," he is a prime target. Thankfully, there's one girl David feels at ease with -- Valerie, the girl who's been dating his neighbor and sometimes-

friend, Nick. Valerie is kind to David and pulls him into their circle of outcast friends, where he finally feels like he (sort of) belongs. So when David starts to suspect that Nick and his friend Jeremy are planning a revenge plot against their tormentors, he wrestles with whether or not to tell someone. By the time he finally works up the courage to say something...it's too late. David tries to put what he knows behind him -- to forget and move on -- but that's hard to do as senior

year starts and he watches his old friend, Valerie, struggle in a deep, dark place of guilt and confusion. It's time to speak up. David may not be able to end bullying, but by standing up, he might just make a difference. And that's what matters.

Please note that the content of this book primarily consists of

articles available from Wikipedia or other free sources online. Pages: 36. Chapters: Racism, Misogyny, Misanthropy, List of organizations designated by the Southern Poverty Law Center as hate groups, Homophobia, Resentment, Hatred, Homophobic propaganda, Srbe na vrbe!, Two Minutes Hate, Anti-Western sentiment, Implacable hostility, Hate studies, Love-hate relationship, Spite. Excerpt: Racism is the belief that there are

inherent differences in people's traits and capacities that are entirely due to their race, however defined, and that, as a consequence, racial discrimination (i.e. different treatment of those people, both socially and legally) is justified. In the modern English language, the term "racism" is used predominantly as a pejorative epithet. It is applied especially to the practice or advocacy of racial discrimination of a pernicious nature (i.e. which harms particular

groups of people), and which is often justified by recourse to racial stereotyping or pseudo-science. Modern usage, in fact, often equates "racism" and "racial discrimination" and defines the latter term only as applying to pernicious practices. Differential treatment of racial groups that is intended to ameliorate past discrimination, rather than to harm, goes by other names (e.g. affirmative action); the characterization of this practice as "racism,"

"racial discrimination" or "reverse discrimination" is normally only done by its opponents, and typically implies a belief in the harmful nature of the practice with respect to the groups not receiving

assistance. Racism is popularly associated with various activities that are illegal or commonly considered harmful, such as extremism, hatred, xenophobia, (malignant or forced) exploitation, separatism, racial

supremacy, mass murder (for the purpose of genocide), genocide denial, vigilantism (hate crimes, terrorism), etc. "Racism" and "racial discrimination" are often used...
