The overwhelming victory of Henry V's English army at Agincourt in October 1415 has passed into myth as one of the defining events of the Hundred Years War against France, as a feat of arms outshining the previous famous English victories at Crécy and Poitiers, and as a milestone in English medieval history. This epic story of how an exhausted, outnumbered army, commanded by an inspirational leader, crushed a huge French force on French soil has given rise to legends and misconceptions that make it difficult for us to reach a clear understanding of what really happened on the battlefield 600 years ago. But that is what Stephen Cooper attempts in this thoroughgoing, perceptive and fascinating reconstruction and reassessment of the battle and its history. In graphic detail he describes the battle itself and the military expedition that led to it. He examines the causes of the conflict and the controversies associated with it, and traces how the story of the battle has been told over the centuries, by eyewitnesses and chroniclers and by the historians of the present day. As featured in the Yorkshire Post, The Star (Sheffield) and Rotherham Advertiser.

History of the battle of Agincourt, and of the expedition of Henry V. into France, in 1415 Pen & Sword

This book investigates the Battle of Agincourt—which continues to be of immense national and international interest—as well as the wider conduct and organisation of war in the late Middle Ages. In England, Shakespeare's Henry V ensured that the battle holds a place in the English national consciousness, and through the centuries that followed the story of Henry's famous victory was used to galvanise English national spirit in times of war. In France, the immediate impact of the battle was that it helped to galvanise French national awareness in response to an external enemy. This book showcases new research into Agincourt and the wider issues of military recruitment, naval logistics, gunpowder and siege warfare, and the conduct of war. It also takes a wider European perspective on the events of 1415 by including research on Portuguese military organisation at the time of Agincourt. This book was originally published as a special issue of the *Journal of Medieval History*.

Agincourt (1415) is an exceptionally famous battle, one that has generated a huge and enduring cultural legacy in the six hundred years since it was fought. Everybody thinks they know what the battle was about. Even John Lennon, aged 12, wrote a poem and drew a picture headed 'Agincourt'. But why and how has Agincourt come to mean so much, to so many? Why do so many people claim their ancestors served at the battle? Is the Agincourt of popular image the real Agincourt, or is our idea of the battle simply taken from Shakespeare's famous depiction of it? Written by the world's leading expert on the battle, this book shows just why it has occupied such a key place in English identity and history in the six centuries since it was fought, exploring a cultural legacy that stretches from bowmen to Beatles, via Shakespeare, Dickens, and the First World War. Anne Curry first sets the scene, illuminating how and why the battle was fought, as well as its significance in the wider history of the Hundred Years War. She then takes the Agincourt story through the centuries from 1415 to 2015, from the immediate, and sometimes surprising, responses to it on both sides of the Channel, through its reinvention by Shakespeare in *King Henry V* (1599), and the enduring influence of both the play and the film versions of it, especially the patriotic Laurence Olivier version of 1944, at the time of the D-Day landings in Normandy. But the legacy of Agincourt does not begin

and end with Shakespeare's play: from the eighteenth century onwards, on both sides of the Channel and in both the English and French speaking worlds the battle was used as an explanation of national identity, giving rise to jingoistic works in print and music. It was at this time that it became fashionable for the gentry to identify themselves with the victory, and in the Victorian period the Agincourt archer came to be emphasized as the epitome of 'English freedom'. Indeed, even today, historians continue to 'refight' the battle - an academic contest which has intensified over recent years, in the run-up to the sixth hundredth anniversary year of 2015.

The Face of Battle is military history from the battlefield: a look at the direct experience of individuals at 'the point of maximum danger'. It examines the physical conditions of fighting, the particular emotions and behaviour generated by battle, as well as the motives that impel soldiers to stand and fight rather than run away. And in his scrupulous reassessment of three battles, John Keegan vividly conveys their reality for the participants, whether facing the arrow cloud of Agincourt, the levelled muskets of Waterloo or the steel rain of the Somme.

There can be few military victories so complete, or achieved against such heavy odds, as that won by Henry V on 25 October 1415 against Charles VI's army at Agincourt. In the words of one contemporary French chronicler, it was the 'most disgraceful event that had ever happened to the Kingdom of France'. Christopher Hibbert's wonderfully concise account draws on the unusual number of contemporary sources available to historians to describe in lucid detail not only what happened, but how it happened. His classic account of the crushing defeat of the French at Agincourt combines historical rigour with a vigorous and very readable narrative style.

On St Crispin's Day, 25 October 1415, Henry V's English army crushed the French in the most famous battle of the Hundred Years' War. His outnumbered force of men-at-arms and archers repelled the repeated charges of the French mounted men and killed or captured the leading members of the French nobility. The encounter changed the course of the war and made a mark on English and French history that endures to this day. In this compelling new study, medieval historian Michael K. Jones looks critically at the historical evidence and retells in graphic detail the story of this extraordinary campaign. He also provides a fascinating tour of the sites associated with it - Harfleur, Henry V's route across northern France and the Agincourt battlefield itself.

Myth and Reality 1915-2015 AgincourtHenry V and the Battle That Made England

The first book about this decisive battle in the Hundred Years War In August, 1424, the armies of England, Scotland, and France met in the open fields outside the walls of Verneuil in a battle that would decide the future of the English conquests in France. The hero king Henry V had been dead for two years, and the French felt that this was their chance to avenge their startling defeat at Agincourt, and recover the lands that Henry had won from them. Despite its importance, the battle of Verneuil is largely overlooked

in accounts of the Hundred Years War, and this book is the first proper account of the battle and its significance. It is also one of the first books to outline the important part the Scots played in the wars in France in the years between the two great battles of Agincourt and Verneuil.

The History of the Battle of Agincourt Redcrest Publishing
Henry V's stunning victory at Agincourt was a pivotal battle of the Hundred Years War, reviving England's military fortunes and changing forever the course of European warfare. In this exciting and readable account Colonel Burne recreates the years leading up to Agincourt and its bitter aftermath. He also puts the battle in the perspective of the other important, yet less well known, engagements of the war such as the battles of Verneuil and Fresnay. As with the battles, so with its commanders: Henry V is known to all, but Colonel Burne gives rightful honour to Talbot, Salisbury, Bedford, Chandos and many others. On the French side he details the parts played by Bertrand du Guesclin and of course Joan of Arc. Colonel Burne's outstanding reconstruction of the war is written for layman and historian alike and conveys the drama that Agincourt and its heroes have always so vividly evoked. This new edition of a classic text includes a new introduction by Anne Curry, the world's leading authority on the battle of Agincourt.

On 25th October 1415, on a French hillside near the village of Agincourt, four men sheltered from the rain and prepared for battle. All four were English knights—ancestors of Sir Ranulph Fiennes—and part of the army of England's King Henry V. Across the valley, four sons of the French arm of the Fiennes family were confident that the Dauphin's army would win the day. . . Sir Ranulph Fiennes explains how his own ancestors were key players through the centuries of turbulent Anglo-French history that led up to Agincourt, and he uses his experience as expedition leader and soldier to give us a fresh perspective on one of the bloodiest periods of medieval history. With fascinating detail on the battle plans, weaponry, and human drama of Agincourt, this is a gripping evocation of a historical event integral to English identity. Six hundred years after the Battle of Agincourt, Sir Ranulph Fiennes casts new light on this epic event that has resonated throughout British and French history.

The Battle of Agincourt OUP Oxford

Henry V became King of England in 1413. He was one of the great warrior kings of the country, cast in the same mould as Edward I and Edward III. He was just, pious, athletic, chivalrous, acquisitive, ruthless and eager to gain honour on the field of battle. Henry hoped that a successful campaign against the nation's traditional enemy would draw the people together and establish the popularity of the Lancastrian dynasty. This splendid addition to Osprey's Men-at-Arms series explores the background, organisation and equipment of the armies which fought in one of the most famous conflicts in England's history - the Battle of Agincourt.

The fascinating story of the Battle of Agincourt told by a distinguished historical novelist

Knights of Agincourt: A Roll of Honour Library of Alexandria
Agincourt took place on 25 October 1415 and was a turning-point not only in the Hundred Years War between England and France but also in the history of weaponry. Azincourt (as it is now) is in the Pas-de-Calais, and the French were famously defeated by an army led by Henry V. Henry V's stunning victory revived England's military prestige and greatly strengthened his territorial claims in France. The exhausted English army of about 9,000 men was engaged by 20,000 Frenchmen, but the limited space of battle favoured the more compact English forces. The undisciplined charges of the French combined with the exceptional skill of the English archers contributed to a pivotal moment in European warfare. Not more than 1,600 English soldiers died; the French probably lost more than 6,000 men. Juliet Barker's shimmeringly brilliant narrative commemorates and analyses a canonical battle in British history.

Osprey's Campaign title for one of the most important campaigns of the Hundred Years' War (1337-1453). Agincourt is one of the most evocative names in English military history. Henry V's forces were tired, hungry, and faced a French army three to six times more numerous. However, they possessed several advantages, and English success resulted from the combination of heavily armoured men-at-arms with troops armed with the infamous

longbow - the havoc this weapon wreaked was crucial. Using original fifteenth century evidence, including the surviving French battle plan and the accounts of men present in both armies, this title discusses the lead-up to the battle, the tactical dispositions

of the two forces and the reasons for the ultimate English success.
