Before there was Max, there was Mike. A true story much like the touching movie, Navy SEAL Dogs explores the incomparable relationship between trainer and military dog. From the author of Team Dog, Trident K9 Warriors gave readers an inside look at the Navy SEAL teams' elite K9 warriors-who they are, how they are trained, and the extreme missions they undertake to save lives. From detecting explosives to eliminating the bad guys, these powerful dogs are also some of the smartest and highest skilled working animals on the planet. Mike Ritland's job is to train them. This special edition re-telling presents the dramatic tale of how Ritland discovered his passion and grew up to become the trainer of the nation's most elite military working dogs. Ritland was a smaller-than-average kid who was often picked-on at school-which led him to spend more time with dogs at a young age. After graduating BUD/S training-the toughest military training in the world-to become a SEAL, he was on combat deployment in Iraq when he saw a military working dog in action and instantly knew he'd found his true calling. Ritland started his own company to train and supply working and protection dogs for the U.S. Government, Department of Defense, and other clients. He also started the Warrior Dog Foundation to help retired Special Operations dogs live long and happy lives after their service. Navy SEAL Dogs is the true story of how Mike Ritland grew from a skinny, bullied child, to a member of our nation's most elite SEAL Teams, to the trainer of the world's most highly skilled K9 warriors.

As the People's Liberation Army PLA continues to undergo a wide range of institutional and equipment changes, it garners much attention from think tanks, academics, and other militaries from around the world. While the organizational and technological changes of the PLA are certainly important and merit study, one aspect that often is overlooked is the 'softer' side, the people who actually operate that equipment, and occupy the positions that make up the organizations. This study focuses on the People of the People's Liberation Army. Without people, there is no army, and without highly trained people, there is no modern army. This is true not just for China, but for nations all over the world, the United States included. U.S. military periodicals and journals often feature articles and exposes detailing a myriad of 'people problems' facing the Department of Defense today. Obesity of potential recruits, low levels of civilian unemployment, and massive pilot shortage, are just a few of the challenges that the U.S. facing with recruiting, training, and retaining the best and brightest for the U.S. military. China's Communist Party faces many of the same challenges in trying to fill and maintain the ranks of the PLA; however, some are uniquely Chinese, and may come as a surprise to those not familiar with certain aspects of Chinese culture.

A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.
