On a hot August afternoon in 1811, an army of 10,000 British redcoats splashed ashore through the muddy shallows off Batavia (the former name of Jakarta, Indonesia's capital) to conquer the Dutch colony of Java. They would remain there for five turbulent years. Drawing on both British and Javanese archival sources, this entertaining and highly readable narrative history-cum-biography explores the bloody battles and furious controversies that marked British rule in Java, and reveals the future founder of Singapore, Thomas Stamford Raffles – long celebrated as a hero, a liberal and a visionary – in a shocking new light, showing how he crushed dissent, looted palaces and incited massacres to further his own insatiable ambitions. The book features the dramatic Battle of Batavia, the sinister British expedition to Palembang, the 1812 sacking and looting of Yogyakarta, and various fights between soldiers and civilians, buffaloes and tigers, and Englishmen and Javanese.

A History of Christianity in Indonesia Vintage

NAMED ONE OF THE BEST BOOKS OF 2020 BY NPR, THE FINANCIAL TIMES, AND GQ The hidden story of the wanton slaughter -- in Indonesia, Latin America, and around the world -- backed by the United States. In 1965, the U.S. government helped the Indonesian military kill approximately one million innocent civilians. This was one of the most important turning points of the twentieth century, eliminating the largest communist party outside China and the Soviet Union and inspiring copycat terror programs in faraway countries like Brazil and Chile. But these events remain widely overlooked, precisely because the CIA's secret interventions were so successful. In this bold and comprehensive new history, Vincent Bevins builds on his incisive reporting for the Washington Post, using recently declassified documents, archival research and eye-witness testimony collected across twelve countries to reveal a shocking legacy that spans the globe. For decades, it's been believed that parts of the developing world passed peacefully into the U.S.-led capitalist system. The Jakarta Method demonstrates that the brutal extermination of unarmed leftists was a fundamental part of Washington's final triumph in the Cold War.

Indonesia is the home of the largest single Muslim community of the world. Its Christian community, about 10% of the population, has until now received no overall description in English. Through cooperation of 26 Indonesian and European scholars, Protestants and Catholics, a broad and balanced picture is given of its 24 million Christians. This book sketches the growth of Christianity during the Portuguese period (1511-1605), it presents a fair account of developments under the Dutch colonial administration (1605-1942) and is more elaborate for the period of the Indonesian Republic (since 1945). It emphasizes the regional differences in this huge country, because most Christians live outside the main island of Java. Muslim-Christian relations, as well as the tensions between foreign missionaries and local theology, receive special attention.

A comprehensive, yet entertaining look at China's history through a modern lens. For millennia, China was the largest and richest nation on earth. Two centuries ago, however, its economy sank into a depression from which it had not fully recovered—until now. China's modern resurgence as the world's largest nation in terms of population and its second-largest economy—where 800 million people have been lifted out of poverty in the space of a few decades—is the greatest untold story of the 21st century. A Brief History of China tells of the development of a rich and complex civilization where the use of paper, writing, money and gunpowder were widespread in ancient times and where silk, ceramics, tea, metal implements and other products were produced and exported around the globe. It examines the special conditions that allowed a single culture to unify an entire continent spanning 10 billion square kilometers under the rule of a single man—and the unbelievably rich artistic, literary and architectural heritage that Chinese culture has bequeathed to the world. Equally fascinating is the story of China's decline in the 19th and early 20th century—as Europeans and Americans took center stage—and its modern resurgence as an economic powerhouse in recent years. In his retelling of a Chinese history stretching back 5,000 years, author and China-expert Jonathan Clements focuses on the human stories which led to the powerful transformations in

Chinese society—from the unification of China under its first emperor, Qin Shi Huangdi, and the writings of the great Chinese philosophers Confucius and Laozi, to the Mongol invasion under Genghis Khan and the consolidation of Communist rule under Mao Zedong. Clements even brings readers through to the present day, outlining China's economic renaissance under Deng Xiaoping and Xi Jinping. What really separates this book from its counterparts is the focus on women, and modern themes such as diversity and climate change. Chinese history is typically told through the stories of its most famous men, but Clements' telling gives women equal time and research—which introduces readers of this book to equally important, but less commonly-known facts and historical figures. Often seen in the West in black or white terms—as either a savage dystopia or a fantastical paradise—China is revealed in the book as an exceptional yet troubled nation that nevertheless warrants its self-description as the Middle Kingdom.

A Brief History of Entrepreneurship charts how the pursuit of profit by private individuals has been a prime mover in revolutionizing civilization. Entrepreneurs often butt up against processes, technologies, social conventions, and even laws. So they circumvent, innovate, and violate to obtain what they want. This creative destruction has brought about overland and overseas trade, colonization, and a host of revolutionary technologies—from caffeinated beverages to the personal computer—that have transformed society. Consulting rich archival sources, including some that have never before been translated, Carlen maps the course of human history through nine episodes when entrepreneurship reshaped our world. Highlighting the most colorful characters of each era, he discusses Mesopotamian merchants' creation of the urban market economy; Phoenician merchant-sailors' intercontinental trade, which came to connect Africa, Asia, and Europe; Chinese tea traders' invention of paper money; the colonization of the Americas; and the current "flattening" of the world's economic playing field. Yet the pursuit of profit hasn't always moved us forward. From slavery to organized crime, Carlen explores how entrepreneurship can sometimes work at the expense of others. He also discusses the new entrepreneurs who, through the nascent space tourism industry, are leading humanity to a multiplanetary future. By exploring all sides of this legacy, Carlen brings much-needed detail to the role of entrepreneurship in revolutionizing civilization.

Sultans, Spices, and Tsunamis: The Incredible Story of the World's Largest Archipelago Indonesia is by far the largest nation in Southeast Asia and has the fourth largest population in the world after the United States. Indonesian history and culture are especially relevant today as the Island nation is an emerging power in the region with a dynamic new leader. It is a land of incredible diversity and unending paradoxes that has a long and rich history stretching back a thousand years and more. Indonesia is the fabled "Spice Islands" of every school child's dreams—one of the most colorful and fascinating countries in history. These are the islands that Europeans set out on countless voyages of discovery to find and later fought bitterly over in the 15th, 16th and 17th centuries. This was the land that Christopher Columbus sought, and Magellan actually reached and explored. One tiny Indonesian island was even exchanged for the island of Manhattan in 1667! This fascinating history book tells the story of Indonesia as a narrative of kings, traders, missionaries, soldiers and revolutionaries, featuring stormy sea crossings, fiery volcanoes, and the occasional tiger. It recounts the colorful visits of foreign travelers who have passed through these shores for many centuries—from Chinese Buddhist pilgrims and Dutch adventurers to English sea captains and American movie stars. For readers who want an entertaining introduction to Asia's most fascinating country, this is delightful reading.

Thailand is known for its picturesque beaches and famous temples, but there's much more to this popular holiday destination than many realize. A Brief History of Thailand offers an engaging look at the country's last 250 years—from coups and violent massacres to the invention of Pad Thai in the 1930's. Readers will learn the vibrant story of Thailand's emergence as a prosperous Buddhist state, its transformation from traditional kingdom to democratic constitutional monarchy and its subsequent rise to prominence in Southeast Asian affairs. Thailand's dramatic history spans centuries of conflict, and this book recounts many of these fascinating episodes, including: The true story of Anna Leonowens, the British governess hired to teach the children of King Mongkut, fictionalized in Margaret Landon's bestselling novel *Anna and the King of Siam* and turned into a hit Rodgers and Hammerstein musical and film, *The King and I*; The bloodless Siamese Revolution of 1932 that established overnight the first constitutional monarchy in Asia, ending almost eight centuries of absolute rule and creating a democratic system of parliamentary government; The Japanese invasion of Thailand and construction of the "Bridge Over the River Kwai" made famous by the novel and Oscar-winning film *The Bridge Over the River Kwai*; the mysterious death of King Ananda Mahidol, murdered in his bed in 1946, and a source of controversy ever since; The development of Thailand as an international playground during the Vietnam War, when American military used it as a rowdy destination for servicemen on furlough; The 70-year reign of King Bhumibol Adulyadej, the world's longest-serving monarch, who was born in the U.S., educated in Switzerland, loved to play the saxophone and was idolized by his people; With this book, historian and professor Richard A. Ruth has skillfully crafted an accessible cultural and political history of an understudied nation. Covering events through the King's death in 2016, *A Brief History of Thailand* will be of interest to students, travelers and anyone hoping to learn more about this part of the world.

On a bright July morning in 1870 the British explorer George Hayward was brutally murdered high in the Hindu Kush. Who was he, what had brought him to this wild spot, and why was he killed? Told in full for the first time, this is the gripping tale of Hayward's journey from a Yorkshire childhood to a place at the forefront of the 'Great Game' between the British Raj and the Russian Empire, and of how, driven by 'an insane desire', he crossed the Western Himalayas, tangled with despotic chieftains and ended up on the wrong side of both the Raj and the mighty Maharaja of Kashmir. It is also the tale of the conspiracies that surrounded his death, while the author's own travels in Hayward's footsteps bring the story up to date, and reveal how the echoes of the Great Game still reverberate across Central Asia in the twenty-first century.

"Indonesia is one of the few countries that came through the global economic crisis in 2008-09 with positive economic growth. Despite some recorded positive domestic economic performances, Indonesia faces new challenges as its economy keeps growing and the global economy remains uncertain. A new economic development paradigm is needed to overcome old problems (poverty and unemployment, inadequate infrastructure, corruption, a complex regulatory environment, and unequal resource distribution among regions) with global market opportunities. This book provides a new perspective on how Indonesian's economic policies should be developed by considering its past and future challenges." - Firmanzah, Professor of Economics and Dean of Faculty of Economics, University of Indonesia "Aris Ananta, Muljana Soekarni and Sjamsul Arifin gather excellent researchers and practitioners to discuss important economic policy issues for Indonesia today. They discuss monetary and fiscal policies and real economic sector issues based not only on theoretical analysis but also on their day-to-day experience in economic management. By reviewing Indonesia's economic policy reform and subsequent Asian financial crisis and sub-prime loan crisis, the authors present a new economic development paradigm and explore economic strategy and policies for the new era. The book offers many timely lessons from history, as well as the real policy experiences of the authors, and guides readers in exploring economic policies under the globalized world economy. This book is very useful for both practitioners and researchers." - Masaaki Komatsu, Professor of Economics, Hiroshima University

A Brief History of Vice Cambridge University Press

A major historian tells the dramatic and untold story of the shadowy networks of revolutionaries across Asia who laid the foundations in the early twentieth century for the end of European imperialism on their continent. This is the epic tale of how modern Asia emerged out of conflict between imperial powers and a global network of revolutionaries in the turbulent early decades of the twentieth century. In 1900, European empires had not yet reached their territorial zenith. But a new generation of Asian radicals had already planted the seeds of their destruction. They gained new energy and recruits after the First World War and especially the Bolshevik Revolution, which sparked utopian visions of a free and communist world order led by the peoples of Asia. Aided by the new technologies of cheap printing presses and international travel, they built clandestine webs of resistance from imperial capitals to the front lines of insurgency that stretched from Calcutta and Bombay to Batavia, Hanoi, and Shanghai. Tim Harper takes us into the heart of this shadowy world by following the interconnected lives of the most remarkable of these Marxists, anarchists, and nationalists, including the Bengali radical M. N. Roy, the iconic Vietnamese leader Ho Chi Minh, and the enigmatic Indonesian communist Tan Malaka. He recreates the extraordinary milieu of stowaways, false identities, secret codes, cheap firearms, and conspiracies in which they worked. He shows how they fought with subterfuge, violence, and persuasion, all the while struggling to stay one step ahead of imperial authorities. *Underground Asia* shows for the first time how Asia's national liberation movements crucially depended on global action. And it reveals how the consequences of the revolutionaries' struggle, for better or worse, shape Asia's destiny to this day.

From Kevin Brockmeier, one of this generation's most inventive young writers, comes a striking new novel about death, life, and the mysterious place in between. The City is inhabited by those who have departed Earth but are still remembered by the living. They will reside in this afterlife until they are completely forgotten. But the City is shrinking, and the residents clearing out. Some of the holdouts, like Luka Sims, who produces the City's only newspaper, are wondering what exactly is going on. Others, like Coleman Kinzler, believe it is the beginning of the end. Meanwhile, Laura Byrd is trapped in an Antarctic research station, her supplies are running low, her radio finds only static, and the power is failing. With little choice, Laura sets out across the ice to look for help, but time is running out. Kevin Brockmeier alternates these two storylines to create a lyrical and haunting story about love, loss and the power of memory.
