It explores problems associated

with population growth and poverty, landlessness and food security, land use and natural resource management, urbanism, climate change, disaster management and human health. The volume shows how research and the study of geography in the 'periphery' can contribute in achieving progress in countries like Bangladesh and help them prepare against

imminent disasters, ecological, social, economic shocks and uncertainties. This book will be useful to students and researchers of geography, environment studies, disaster management,

development studies, geoinformatics, geology, demography, sociology and South Asian studies with a particular focus on Bangladesh. It will also interest various policy makers and NGO professionals

working in these and related fields.
