Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a "perfect storm." There's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold? Which cars and trucks are "wallet-friendly" and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM's 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide.

2012

This book constitutes the refereed proceedings of the 18th International Conference on Runtime Verification, RV 2018, held in Limassol, Cyprus, in November 2018. The 21 full papers presented together with 3 short papers and 3 tool papers were carefully reviewed and selected from 49 submissions. The RV conference is concerned with all aspects of monitoring and analysis of hardware, software and more general system executions. Runtime verification techniques are lightweight techniques to assess correctness, reliability, and robustness; these techniques are significantly more powerful and versatile than conventional testing, and more practical than exhaustive formal verification. The book provides insights into each car manufacturer's corporate culture, products, production, leadership and technologies, as well as some thoughts on the future of the car. Industrial dominance will be important to them in the future, with both companies needing to master the next steps in product and manufacturing excellence. While most correspondents are too busy diving straight into BHP, MPG and MPH, Jeremy appreciates that there are more important things to life. Don't worry, we'll get to the cars. Eventually. Spot-welding with the Duchess of Kent · And why Denmark is the best place in the world Armed only with conviction, curiosity, enthusiasm and a stout pair of trousers, Jeremy hurtles around the world - along motorway, autoroute, freeway and autobahn - in search of answers to life's puzzles and ponderings without forethought or fear for his own safety. What, you have to ask, could possibly go wrong... Praise for Clarkson: 'Brilliant... laugh-out-loud' Daily Telegraph 'Outrageously funny... will have you in stitches' Time Out 'Very funny . . . I cracked up laughing on the tube' Evening Standard Jeremy Clarkson began his career on the Rotherham Advertiser.
