*My Journey to the White House* Createspace Independent Publishing Platform

Twenty-five years after Richard Nixon's resignation, investigative journalist Bob Woodward examines the legacy of Watergate. Based on hundreds of interviews - both on and off the record - and three years of research of government archives, Woodward's latest book explains in detail how the premier scandal of US history has indelibly altered the shape of American politics and culture - and has limited the power to act of the presidency itself. Bob Woodward's mix of historical perspective and journalistic sleuthing provides a unique perspective on the repercussions of Watergate and proves that it was far more than a passing, embarrassing crisis in American politics: it heralded the beginning of a new period of troubled presidencies. From Ford through to Clinton, presidents have battled public scepticism, a challenging Congress, adversarial press and even special prosecutors in their term in office. Now, a quarter of a century after the scandal emerged, the man who helped expose Watergate shows us the stunning impact of its heritage.

*George W. Bush and the Bush Family Dynasty* Simon and Schuster

Bush V. Gore Exposing the Hidden Crisis in American Democracy

*What Happened* Macmillan

The history behind Marbury v. Madison and why it is a foundational case for establishing the principle of judicial review and to understanding the development of the U.S. Supreme Court.

*The Best Democracy Money Can Buy* Landmark Law Cases & American

In one of the most unprecedented developments in the history of national politics, George W. Bush abruptly emerged to lead all presidential aspirants in the national polls for the 2000 election. Yet voters know very little about the man, beyond his famous name and his place in one of the nation's most powerful political dynasties. First Son is a true, riveting family saga about extraordinary power and politics in America and in the unharnessed state--a state of mind--called Texas. The story begins

with the turn-of-the-century emergence of the influential Bush-Walker clan and of Prescott Bush, the Connecticut patrician who ingrained in his family an ethos that continues to exert influence on his son, former President George Bush, and his grandsons, George W. and Jeb. How these scions of the Bush dynasty struggle to live up to their enduring legacy is the central theme of this colorful and perceptive portrait the first authentic book on the governor of Texas. In the past year, award-winning Texas writer Bill Minutaglio has met with George W. Bush and interviewed dozens of people close to him, from his brother Governor Jeb Bush of Florida to uncles and cousins, from current and former political advisers to high-ranking insiders from his father's years in the White House. Fraternity buddies, political operatives, George W.'s employers, and even ardent critics of the Bush family bring this story to life--from the society circles in his native Connecticut to the family compound in Maine to the backwaters of his adopted Texas. The result is a book that is nuanced, insightful, and surprising in the contradictions and complexities it reveals about this man. First Son vividly reconstructs George W. Bush's boarding-school days at one of the country's most exclusive institutions; his tenure in one of Yale's secret societies and as president of his unfettered fraternity; his attempts to follow his family's million-dollar path into the wide-open Texas oil patch; his role in major league baseball as the public face and head cheerleader for the Texas Rangers; and, finally, his rise to governor of Texas and national political force, executed with more hard-edged calculation than many people realize. Written with precision, verve, and fair-minded balance, First Son will be the political story of 2000--the eye-opening tale of a natural-born politician.

**Law, Pragmatism, and Democracy** Springer

"The presidency of George W. Bush is indelibly linked in the minds of Americans with the 9/11 terrorist attack on the World Trade Center and the subsequent War on Terror that transformed US foreign policy and the international political order. While John Robert Greene's history of Bush's presidency covers these events in detail, especially the wars in Afghanistan and Iraq, the book addresses the entirety of his time in office, including debates over executive power, the disaster of Hurricane Katrina, and the economic recession. Only the second time the son of a president became president himself, Bush 43's presidency remains highly controversial and the events of those years

continue to shape geopolitics today, drawing both praise and censure from partisan commentators. Drawing on all available sources, Greene's account sheds fresh light on the first presidency of the twenty-first century in an effort to clear aside misunderstandings and deepen our understanding of those consequential years"--

*Tempering the Rose* Routledge

Thurgood Marshall was an Associate Justice of the US Supreme Court from 1967 to 1991. He was the first African American to hold that position, and was one of the most influential legal actors of his time. Before being appointed to the Supreme Court by President Lyndon Johnson, Marshall was a lawyer for the National Association for the Advancement of Colored People (NAACP), Federal Judge (1961-1965), and Solicitor General of the United States (1965-1966). Marshall won twenty-nine of thirty-two cases before the Supreme Court – most notably the landmark case of *Brown v. Board of Education*, which held segregated public schools unconstitutional. Marshall spent his career fighting racial segregation and legal inequality, and his time on the court establishing a record for supporting the "voiceless American." He left a legacy of change that still affects American society today.

Through this concise biography, accompanied by primary sources that present Marshall in his own words, students will learn what Marshall did (and did not do) during his life, why those actions were important, and what effects his efforts had on the larger course of American history.

*The Presidency of George W. Bush* Penguin

Voting is simple in the United States, right? The process of voting (organizing, running and tabulating the results of a popular election) is, in fact, a highly contested act whose forms, meanings, and practical boundaries are open to widely differing interpretations. From questions of who can vote to the tricky problem of accurately counting the votes, popular democracy is still a work in progress in the United States. Add in the complexities of politics and the picture becomes even more complicated. Taking a chronological approach to the topic, *The Supreme Court and Elections* explores the ways that the Court has struggled with these questions. From the earliest days of the Union when the Supreme Court refused to address the topic, to the early struggles with the Fourteenth Amendment's impact on the question of who can vote, to the rise and fall of race-based disenfranchisement, to our recent issues of proper districting, campaign finance reform and the struggle to find a workable voting technology, the essay and documents in this reference illuminate the multifaceted nature of voting and election laws. At the same time, this title provides in-depth analysis of the impact of the Court in shaping this ongoing history. Topics addressed in *The Supreme Court and Elections* include the following: The Nature of Election Law/Voting Rights and the Impact of the Court Impact of the Civil Rights Amendments Voting in the late 19th and early 20th centuries Disenfranchisement and the Court Redistricting cases Majority-Minority districts Campaign finance reform *Bush v. Gore* and beyond This title also interweaves select sections of primary source documents in an easy-to-follow format: The U.S. Constitution The Voting Rights Act (1965) and the later Amendment (1982) Excerpts from Federal Voting Statutes Supreme Court cases President Lyndon Baines Johnson excerpts Contemporaneous news articles Court Briefs Focusing on the practical problems of U.S. voting and its complex development within the framework of the political branches of the government, students and researchers will benefit from the clear picture painted by the author of the current elective structure. Essay and document based,

*The Supreme Court and Elections* is the definitive reference on the application of U.S. law on Americans right to vote and the resulting participatory democracy.

*The Rose of Nerine Fantasy Series* Pantheon

COURAGE > COWARDS As we approach the most important presidential election in America's history, something has been lost among all of the debates, attack ads, and super-PACs—something that Americans used to hold in very high regard: THE TRUTH. Glenn Beck likes to say that "the truth has no agenda"—but there's another side to that: people who have agendas rarely care about the truth. And, these days, it seems like everyone has an agenda. The media leads with stories that rate over those that matter. Politicians put lobbyists and electability over honesty. Radicals alter history in order to change the future. In *Cowards*, Glenn Beck exposes the truth about thirteen important issues that have been hijacked by deceit. Whether out of spite, greed, or fear, these are the things that no one seems to be willing to have an honest conversation about. For example: \* How our two-party POLITICAL SYSTEM often leaves voters with NO GOOD OPTIONS. \* How extremists are slowly integrating ISLAMIC LAW into our SOCIETY. \* How PROGRESSIVE "religious" leaders like JIM WALLIS are politicizing the Bible. \* How the CARTEL VIOLENCE on our border is FAR WORSE than people realize. \* How "LIBERTARIAN" has been INTENTIONALLY turned into a DIRTY WORD. \* How GEORGE SOROS has amassed enough MONEY and POWER to INFLUENCE entire ECONOMIES. In some cases, the truth is out there, but people simply don't want to hear it. It's much easier, and certainly a lot more convenient, to keep our blinders on. After all, as a quote attributed to President James Garfield made clear, "The truth will set you free, but first it will make you miserable." Miserable or not, the truth can no longer be something we hope for; it must be something we live. When courage prevails, cowards do not—and this book was written to ensure that's exactly what happens.

*Down & Dirty* Simon and Schuster

"An engaging, beautifully synthesized page-turner" (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton's most personal memoir yet, about the 2016 presidential election. In this "candid and blackly funny" (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. "At her most emotionally raw" (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this "feminist manifesto" (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a "bracing... guide to our political arena" (The Washington Post), *What Happened* lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand

them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. What Happened is the story of that campaign, now with a new epilogue showing how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for office, and young people marching in the streets.

*The 2000 Election, the Constitution, and the Courts* Simon and Schuster

Once a vote is cast you cannot take it back. Americans owe it to themselves to learn as much as they can about the real candidates, beyond the phony images projected by the media consultants and the press. Whether or not you agree with their conclusions, Bossie and Brown have painted a revealing portrait of Al Gore- exactly the kind of material every American should know. Prince Albert brilliantly serves up what is a voter's most valuable resource- information.- Professor Larry Sabato, University of Virginia

*First Son* Harvard University Press

This book is open access under a CC BY 4.0 license. This book addresses the peculiarities of the current presidential election system not yet addressed in other publications. It argues that any rules for electing a President that may have a chance to replace the current ones should provide an equal representation of states as equal members of the Union, and of the nation as a whole. This book analyzes the National Popular Vote plan and shows that this plan may violate the Supreme Court decisions on the equality of votes cast in statewide popular elections held to choose state electors. That is, the National Popular Vote plan may violate the Equal Protection Clause of the Fourteenth Amendment. The book proposes a new election system in which the will of the states and the will of the nation as a whole are determined by direct popular elections for President and Vice President in the 50 states and in D.C. This system a) would elect President a candidate who is the choice of both the nation as a whole and of the states as equal members of the Union, b) would let the current system elect a President only if the nation as a whole and the states as equal members of the Union fail to agree on a common candidate, and c) would encourage the candidates to campaign nationwide. The second edition has been updated to include a proposal on how to make established non-major party presidential candidates and independent candidates welcome participants in national televised presidential debates with the major-party candidates.

**Breaking the Deadlock** Penguin

Richard Posner argues for a conception of the liberal state based on pragmatic theories of government. He views the actions of elected officials as guided by interests rather than by reason and the decisions of judges by discretion rather than by rules. He emphasizes the institutional and material, rather than moral and deliberative, factors in democratic decision making. Posner argues that democracy is best viewed as a competition for power by means of regular elections. Citizens should not be expected to play a significant role in making complex public policy regarding, say, taxes or missile defense.

*The True Story of the 2000 Presidential Election* University of Virginia Press

A dark epic fantasy series, where one woman's thirst for revenge and struggle with her inner demons will put the entire world in jeopardy. The only thing twenty-one year old Adrastine wants is revenge against her depraved father-but when she tries to kill him, she is caught and thrown into a

holy war for a god she doesn't believe in. But disaster is coming, and all Adrastine's problems will seem minor by comparison. Someone, or something, is draining the planet's lifeblood, killing the land and everything on it at an alarming rate. Jacob is a shelon, a man who can wield magic, and a spy dispatched by Queen Valtice to find The Rose of Nerine - the only one who can stop the rape of the land and save the people. But when Jacob finds Adrastine, he can't convince her that she is The Rose, let alone to leave her home and journey with him across the tempestuous sea to Nerine. Adrastine is drawn to Jacob, despite their differences. But that is a dangerous path, as he is an unwelcome distraction to her quest for revenge. And if she learns his secrets, it will cement her hatred of men forever, weakening powers she is only just learning she has, powers needed to save their world.

Thurgood Marshall Rhetoric & Public Affairs

A critical study that presents the definitive history of the Supreme Court decision that allowed George W. Bush to become president despite losing the popular vote to Al Gore offers a non-partisan analysis of the legal opinions in the case.

**New York Times V. Sullivan** Princeton University Press

A majestic big-picture account of the Great Society and the forces that shaped it, from Lyndon Johnson and members of Congress to the civil rights movement and the media Between November 1963, when he became president, and November 1966, when his party was routed in the midterm elections, Lyndon Johnson spearheaded the most transformative agenda in American political history since the New Deal, one whose ambition and achievement have had no parallel since. In just three years, Johnson drove the passage of the Civil Rights and Voting Rights Acts; the War on Poverty program; Medicare and Medicaid; the National Endowments for the Arts and the Humanities; Public Broadcasting; immigration liberalization; a raft of consumer and environmental protection acts; and major federal investments in public transportation. Collectively, this group of achievements was labeled by Johnson and his team the "Great Society." In *The Fierce Urgency of Now*, Julian E. Zelizer takes the full measure of the entire story in all its epic sweep. Before Johnson, Kennedy tried and failed to achieve many of these advances. Our practiced understanding is that this was an unprecedented "liberal hour" in America, a moment, after Kennedy's death, when the seas parted and Johnson could simply stroll through to victory. As Zelizer shows, this view is off-base: In many respects America was even more conservative than it seems now, and Johnson's legislative program faced bitter resistance. *The Fierce Urgency of Now* animates the full spectrum of forces at play during these turbulent years, including religious groups, the media, conservative and liberal political action groups, unions, and civil rights activists. Above all, the great character in the book whose role rivals Johnson's is Congress—indeed, Zelizer argues that our understanding of the Great Society program is too Johnson-centric. He discusses why Congress was so receptive to passing these ideas in a remarkably short span of time and how the election of 1964 and burgeoning civil rights movement transformed conditions on Capitol Hill. Zelizer brings a deep, intimate knowledge of the institution to bear on his story: The book is a master class in American political grand strategy. Finally, Zelizer reckons with the legacy of the Great Society. Though our politics have changed, the heart of the Great Society legislation remains intact fifty years later. In fact, he argues, the Great Society shifted the American political center of gravity—and our social landscape—decisively to the

left in many crucial respects. In a very real sense, we are living today in the country that Johnson and his Congress made.

Thurgood Marshall Seven Stories Press

In recent years the American public has witnessed several hard-fought battles over nominees to the U.S. Supreme Court. In these heated confirmation fights, candidates' legal and political philosophies have been subject to intense scrutiny and debate. *Citizens, Courts, and Confirmations* examines one such fight--over the nomination of Samuel Alito--to discover how and why people formed opinions about the nominee, and to determine how the confirmation process shaped perceptions of the Supreme Court's legitimacy. Drawing on a nationally representative survey, James Gibson and Gregory Caldeira use the Alito confirmation fight as a window into public attitudes about the nation's highest court. They find that Americans know far more about the Supreme Court than many realize, that the Court enjoys a great deal of legitimacy among the American people, that attitudes toward the Court as an institution generally do not suffer from partisan or ideological polarization, and that public knowledge enhances the legitimacy accorded the Court. Yet the authors demonstrate that partisan and ideological infighting that treats the Court as just another political institution undermines the considerable public support the institution currently enjoys, and that politicized confirmation battles pose a grave threat to the basic legitimacy of the Supreme Court.

How Superdelegates, Redistricting, Party Insiders, and the Electoral College Rigged the 2016 Election Rowman & Littlefield Publishers

Thurgood Marshall was an Associate Justice of the US Supreme Court from 1967 to 1991. He was the first African American to hold that position, and was one of the most influential legal actors of his time. Before being appointed to the Supreme Court by President Lyndon Johnson, Marshall was a lawyer for the National Association for the Advancement of Colored People (NAACP), Federal Judge (1961-1965), and Solicitor General of the United States (1965-1966). Marshall won twenty-nine of thirty-two cases before the Supreme Court - most notably the landmark case of *Brown v. Board of Education*, which held segregated public schools unconstitutional. Marshall spent his career fighting racial segregation and legal inequality, and his time on the court establishing a record for supporting the "voiceless American." He left a legacy of change that still affects American society today.

Through this concise biography, accompanied by primary sources that present Marshall in his own words, students will learn what Marshall did (and did not do) during his life, why those actions were important, and what effects his efforts had on the larger course of American history.

The Origins and Legacy of Judicial Review, Second Edition, Revised and Expanded Penguin

Ralph Nader is one of America's most passionate and effective social critics. He has been called a

muckraker, a consumer crusader, and America's public defender. The cars we drive, the food we eat, the water we drink-their safety has been enhanced largely due to Ralph Nader. His inspiration and example have rallied consumer advocates, citizen activists, public interest lawyers, and government officials into action, and in the 2000 election, nearly three million people voted for him. An inspiring and defiant memoir, *Crashing the Party* takes us inside Nader's campaign and explains what it took to fight the two-party juggernaut; why Bush and Gore were really afraid to let him in on their debates; why progressive Democrats have been left behind and ignored by their party; how Democrat and Republican interests have been lost to corporate bankrolling; and what needs to happen in the future for people to take back their political system.

**Marbury V. Madison** Metropolitan Books

"Palast is astonishing, he gets the real evidence no one else has the guts to dig up." Vincent Bugliosi, author of *None Dare Call it Treason* and *Helter Skelter* Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

*The Supreme Court and Elections* Crown

In *The Perfect Tie: The True Story of the 2000 Presidential Election*, James Ceaser and Andrew Busch continue their study of national elections and their broader implications for American politics and society. With groundbreaking research of electoral politics and penetrating discussions of divided government, independent candidates, party platforms, realignment theory, the electoral college, and campaign strategies, Ceaser and Busch attempt to make sense of the 2000 presidential election. By separating myth from fact in presidential contests and by emphasizing the significance of frequently overlooked issues, such as foreign policy, this book is essential reading for courses in American Government, Campaigns and Elections, and Presidential Politics, as well as for any American interested in the real and lasting importance of the 2000 elections.
