[A Dark Cinderella Tale](#) Simon and Schuster

A teenage boy uncovers a horrific family secret. A widower seeks vengeance on the creatures that killed his wife. A drug addled writer stalks the woman of his dreams, a woman much more sinister than she appears. A federal agent races to find the cursed relic powering this city full of spooks, spirits, and serial killers. The lives of these and others will collide in the dark and dangerous streets of Adderlass. A seed of evil was planted under Adderlass, a city where monsters hide behind masks of humanity and ordinary people shuffle anesthetized and addicted by the sickly supernatural power wafting up from below. The city

was built over the crystalline skull of a bloodthirsty beast. Now, the hunt is on for this lost treasure and whoever finds it first will control the fate not only of Adderlass but of the entire world.

Sixteen-year-old Simon Cubbins, young and naive, may be the key to unlocking the mystery buried in this twisted labyrinth of hidden agendas. He also unknowingly harbors a secret that could destroy the Cubbins bloodline. As different characters fight for control over Simon, he will have to decide whether or not to carry on his family's legacy.

 A Tale of Wisdom and Wealth
 "I will follow you to hell. You will never control any treasure and your army is dead where they stand. I promise you I

will reach down from the heavens and take each of their lives". Imagine for a moment you are skiing downhill racing ahead of an avalanche, your chest is pounding, pulse racing. That is what you will experience reading this story as the momentum builds, and your heart beats faster and faster. You will be absorbed into the lives of the characters, becoming a part of the action even after the ending. There are struggles between honor and greed, right and wrong, battlefields are soaked crimson over them. It makes you think and question 'What if?' due to the possibilities and theories contained within. It is purely fictional though based on a trilogy of poems I wrote. While hiking in Europe, Christian finds a unique rock formation resembling a rose hidden in shadows.

While camping in the shadows, Christian hears the voice of a ghost telling a magnificent tale of times long past. The voice of Sir Rowan Baldin of the Knights Templar, born out of the aftermath of the Templar purge in France 600 years prior. Rowan's lineage managed to escape the purge to what is now known as Switzerland. There they helped shape a country while protecting their Templar roots in absolute secrecy. Rowan uses dreams and leads Christian on a fast paced adventure throughout Europe. Christian stumbles onto a number of remarkable discoveries, and is knighted by the modern day Templars he uncovers on his quest. Christian finds who he was meant to be. The Templars, these once 'warrior monks' are brought out of the shadows, and their reputation

redeemed as their real story is told. This book is not suitable for children due to graphic nature of violence and adult situations. This is my first novel. *How to Build a Million Dollar Business the Lazy Way* Createspace Independent Publishing Platform

A Tale of Wisdom and Wealth

Currency

You've heard of the scheme. Now comes the man behind it. In Mitchell Zuckoff's exhilarating book, the first nonfiction account of Charles Ponzi, we meet the charismatic rogue who launched the most famous and extraordinary scam in the annals of American finance. It was a time when anything seemed possible—instant wealth, glittering fame, fabulous luxury—and for a run of magical weeks in the spring and summer of 1920, Charles Ponzi made it all come true. Promising to double investors'

money in three months, the dapper, charming Ponzi raised the “rob Peter to pay Paul” scam to an art form and raked in millions at his office in downtown Boston. Ponzi’s Scheme is the amazing true story of the irresistible scoundrel who launched the most successful scheme of financial alchemy in modern history—and uttered the first roar of the Roaring Twenties. Ponzi may have been a charlatan, but he was also a wonderfully likable man. His intentions were noble, his manners impeccable, his sales pitch enchanting. Born to a genteel Italian family, he immigrated to the United States with big dreams but no money. Only after he became hopelessly enamored of a stenographer named Rose Gnecco and persuaded her to marry him did Ponzi light on the means

to make his dreams come true. His true motive was not greed but love. With rich narrative skill, Mitchell Zuckoff conjures up the feverish atmosphere of Boston during the weeks when Ponzi’s bubble grew bigger and bigger. At the peak of his success, Ponzi was taking in more than \$2 million a week. And then his house of cards came crashing down—thanks in large part to the relentless investigative reporting of Richard Grozier’s Boston Post. In Zuckoff’s hands, Ponzi is no mere swindler; instead he is appealing and magnetic, a colorful and poignant figure, someone who struggled his whole life to attain great wealth and who sincerely believed—to the very end—that he could have made good on his investment promises if only he’d had enough time.

Ponzi is a classic American tale of immigrant life and the dream of success, and the unexpectedly moving story of a man who—for a fleeting, illusory moment—attained it all.

A Guide for Young Adults on Making Your First Million Dollars Harriman House Limited

In essence, this story is about how a certain person was searching his bookshelf for something to read and in the end found a book, which turned out

to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone, who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of Homo sapiens; in essence, the same as encyclopedias, reference books for specialists, which contain complete information about representatives of a

particular subspecies of animals, plants, etc. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone's help, but thanks to that knowledge, which they discovered in the

ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got. And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population—technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific discovery made by Andrey

Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to

exist without leaving a trace. As for organizers of this "civilization"—maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly.
