DUNN ANASTASIA	
<p>English Grammar Independently Published</p> <p>Introducing English Grammar provides a basic grounding in English grammar, without going into too much detail or theory, and will lay the foundation for further grammatical studies. David Young presents English grammar in a coherent and lively way. He dispels the popular notion among students that grammar is simply a set of dreary rules and argues for the importance of grammar in describing the structure and function of language itself. Exercises are provided at the end of each chapter and the book includes integrated diagrams and a glossary of technical terms at the back of the book.</p> <p>American English Grammar McGraw Hill Professional</p> <p>The Gramming Guide to English Grammar is a resource book on the grammar of Standard British English. It is intended for intermediate to advanced students of English as a second or foreign language who have already studied the basic grammar of English. It covers the most important areas of English grammar and concentrates on structures which may cause difficulty at an intermediate level or above. The book starts with a pretest that helps you identify the areas you need to work on. The pretest is followed by eleven chapters, broken down to a number of subchapters that each deal with a specific grammar point. The related explanations are accompanied by real-life sample sentences, timeline diagrams, tables, and quotes. If a similar point or the same point is discussed in a different part of the book, you will find cross-references to that point. Where appropriate, chapters begin with guiding questions and end with revision questions. Most of the chapters are followed by exercises, including multiple choice, sentence transformation, error correction, gap filling and matching exercises, as well as communicative tasks that can be done in language lessons. At the end of the book, there is an appendix which contains a list of the most common irregular verb forms and the most important spelling rules; a list of the quotes that appear in the book; and a glossary that defines grammatical terms frequently used in the explanations. The chapters in this book are not arranged in order of difficulty. This way, the book can be used for quick reference on specific points of interest, as well as for systematic study, either as a self-study grammar book or as additional material in an ESL/EFL course. No matter which way you use the book, it is recommended that you follow the cross-references, which will lead you to further information on a given item. The exercises, which come with suggested answers, are best done using pen and paper. These exercises will not only help you to practise grammar but also to tie grammatical forms to real-world meaning.</p> <p>The Oxford Dictionary of English Grammar Cambridge University Press</p> <p>With more than 50 years of teaching experience between them, Ilse Depraetere and Chad Langford present a grammar pitched precisely at advanced learners of English who need to understand how the English language really works without getting lost in the complex specifics. Now fully updated and revised throughout, the second edition of this book pulls from linguistic theory all the relevant notions that will enable the language student to fully grasp English grammar. After introducing form and function, the authors cover verbs, nouns, aspect and tense, modality and discourse. Readers are led through the underlying principles of language use, with the book presupposing only a basic grasp of linguistic terminology and focusing on the critical issues. Full of challenging exercises and supported by a companion website featuring an extensive answer key, a glossary and further exercises for study, this is the reference grammar of choice for both native and non-native English speakers.</p> <p><u>"The Perfect Spoken English & Phonetics with the Best Concise English Grammar for Learners"</u> Cambridge University Press</p> <p>Grammar is a subject that even the best English users tend to neglect. This book can be used as a general reference book by all. For students, it is a grammar guide to refer to any topic at a glance.</p>	

The description of every rule is easily understandable without teachers' help. It covers all the grammar rules for day-to-day requirements and all parts of speech with plenty of examples. The pronouns are very well-explained, especially nominative and objective pronouns, which are often confusing for many. The case is similar with verbs and adverbs.

A Function-Based Introduction McGraw Hill Professional

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in English language and literature departments and schools of education.

Practice Makes Perfect English Problem Solver (EBOOK) Penguin

English enjoys the status of the World Language. No other language has ever scaled this height. It is the language that encompasses everything in the world. It is used and cherished by millions whose mother tongue is not English. Spoken English, as a natural corollary to that, has become an important tool in our hands today. Without mastery over it, the gateway to success will remain a distant dream in today's globalised market. Command on any language depends primarily on command on its grammar. Grammar is a repository of rules, governing how words are put together into sentences. These rules govern most constructions in a given language. Grammar is the science of correct use of language. It is concerned only with correct speaking and writing. Fundamentals of Grammar need to be fully comprehended to to acquire skills of quality English. Aim of this book is a practical one: an aid to good English, to take you places on the wings of English. The book is designed to meet the requirements of students completing their schooling and entering colleges or job market, or preparing for various competitions.

English Grammar and Usage Made Easy McGraw Hill Professional

Unlike other textbooks, it helps students to understand grammar rather than see it as a set of facts and rules.

Cambridge Advanced Learner's Dictionary KLETT VERSION Oxford University Press

A Guide to Explaining Grammar for Teachers of English as a Second Or Foreign Language. Sakha Global Books (Sakha Books)

Practice Makes Perfect: English Verbs offers ESL students an effective way to master English verbs. Concentrating on the three most challenging aspects of verbs--form, meaning, and use--it features comprehensive overviews along with exercises that present common regular and irregular verbs in everyday contexts. Students get to practice verb conjugations while gaining valuable insights into how context influences verb form in English. Coverage progresses from basic verb phrases to more complicated forms, such as modal verbs and verbal complements, and includes examples of sentence constructions in which verbs play a central role, such as imperatives, conditionals, and passives.

This is the essential coursebook and reference work for all native and non-native students of English grammar on English language and linguistics courses.

Practice Makes Perfect: English Conversation Hener Nayak

Dear English students, teachers and interested party, this book you hold in your hand is very valuable to learn and teach English grammar with a system of clear definitions and in a logical way. I found out that in different grammar books and also different teachers from English schools are used different descriptions for the same meaning. When I was an English language student in Cambridge (UK), 2017, the English grammar was confused for me, because I`m a logical thinker and I will learn with a system, but I couldn`t found a logical system to learn the English grammar. The most problem was that I found different descriptions for the same meaning in different grammar books. As example in some grammar books is written Simple Past and in others Past Simple, but it is still the same. But also continuous and progressive is the same. Another difficult point was the English Tenses, because I couldn`t find a table with all Tenses so I don`t know how many they has. Also here was the problem that for the same Tense I found different descriptions. As example the Past continuous is the same as Past progressive. Another problem was that also different teachers used different descriptions for the same Tense. In some cases they described and explained the Past progressive and other teachers call them Past continuous although it is the same. Completely confused was that this Past progressive in some grammar book is called Past continuous too. This book offers you to learn grammar in a short time, because it is logical and it is a summary of different sources. Don`t waste your time anymore to research in different books to find out what`s the meaning, definitions and descriptions is. This book solving a lot of problems which students have and it is in a compact form. With this book you save money and time.

Sincerely M.A. Jaun

[The Perfect English Grammar Workbook](#) Maggioli Editore

The Oxford Dictionary of English Grammar is a straightforward and accessible A-Z guide to the diverse and often complex terminology of English grammar. It contains over 1,600 entries with clear and concise definitions, enhanced by numerous example sentences, as well as relevant quotations from the scholarly literature of the field. This second edition is written and edited by Professor Bas Aarts of University College London, writer of the acclaimed Oxford Modern English Grammar. It has been fully revised and updated, with particular attention paid to refreshing the example sentences included within the text. There are over 150 new entries that cover current terminology which has arisen since the publication of the first edition, and there are also new entries on the most important English grammars published since the start of the 20th century. Hundreds of new cross-references enhance the user-friendly nature of the text, and the list of works cited has been thoroughly updated to reflect the current state of the field. A short appendix of web links has been added. All in all, this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject, as well as all those with an informed interest in the English language.

Cambridge University Press

Learn how to use modal verbs, one of the most important areas of English grammar. You will find out the meanings and correct contexts for every modal and semi-modal verb and how to use alternative or substitute constructions when necessary. The book covers not only each meaning of every modal and semi-modal verb but also the relationships between them, the characteristics and rules and the often neglected area of pronunciations and stresses used by native speakers. Soft and weak pronunciations in spoken English, for example, impart different meanings, an area rarely covered in standard courses or grammar books. In addition Learn Real English Modal Verbs covers real English uses of modals, showing you the way that native speakers really use modals which isn't always how grammar books and English courses teach. A FREE BONUS Modal Verb Pronunciation Guide with associated 53 online audio recordings is available to download with every purchase of this book. Learn how to identify and understand modal verbs in real spoken English with this free supplement. Suitable for learners of English as a Second Language, English tutors and those wanting to brush up on the grammar of Modal Auxiliary Verbs

An Introduction Routledge

How to Use 'A' and 'The' is a reference and practice book for students of English who want to understand more about 'a/an', 'the' and 'no article'. It provides a comprehensive collection of usage guidelines as well as clear and detailed explanations of a large number of exceptions and difficult cases. It is aimed at the upper-intermediate to advanced student, but will also benefit intermediate students, and is ideal for both self-study and classroom use. Nine units of explanations, including sections about the basic principles behind article use, generalising, proper

nouns including geographical names, and idioms and fixed expressions. These are all illustrated with clear example sentences. Over a thousand practice questions to reinforce learning and to help students use articles more naturally, including a final unit of fifteen review exercises. Printable and photocopiable PDFs of all exercises available free at www.perfect-english-grammar.com/a-and-the.html. Three appendices which include explanations and exercises about countable and uncountable nouns and using 'some' and 'any'. Answers to all exercises.

A Useful Grammar Book for TOEFL, IELTS, and Other English Exams Edinburgh University Press

English Grammar might seem difficult. It gets easier with carefully chosen examples and comparisons. You can master English grammar through conversational exercises. They will help you with everyday life in an English environment. Method tested for many years with very good results. This Grammar English Book offers grammar, fully explained and practiced through a variety of exercises; helps with developing and practicing vocabulary and phrasal verbs; is ideal for self-study or classroom use. There are regular consolidation units which help with the First Certificate and TOEFL examinations. From the Author This is an ideal resource, helping with adapting communications by presenting English grammar structures. If you want to become fluent in English, this will help you reach your goal of becoming fluent. The tenses that cause more problems to students, like Present Perfect Tense, Past Tense and Past Continuous are explained with detailed examples for each structure and are practiced extensively in exercises, which help not only with mastering the tenses but also developing conversational skills. This book has been developed and tested along several years. I have used the content of this English Grammar Book with very good results.
