The age-old debate about what constitutes just punishment has become deadlocked. Retributivists continue to privilege desert over all else, and consequentialists continue to privilege punishment's expected positive consequences, such as deterrence or rehabilitation, over all else. In this important intervention into the debate, Leo Zaibert argues that despite some obvious differences, these traditional positions are structurally very similar, and that the deadlock between them stems from the fact they both oversimplify the problem of punishment. Proponents of these positions pay insufficient attention to the conflicts of values that punishment, even when justified, generates. Mobilizing recent developments in moral philosophy, Zaibert offers a properly pluralistic justification of punishment that is necessarily more complex than its traditional counterparts. An understanding of this complexity should promote a more cautious approach to inflicting punishment on individual

wrongdoers and to developing punitive policies and institutions.

An Interdisciplinary Approach Criminal Law provides students with an integrated framework for understanding the U.S. criminal justice system with a diverse and inclusive interdisciplinary

approach and thematic focus. Authors Katheryn Russell-Brown and Angela J. Davis go beyond the law and decisions in court cases to consider and integrate issues of race, gender, and socio-economic status with their discussion of criminal law. Material from the social sciences is incorporated to highlight the intersection between criminal law and key social issues. Case excerpts and detailed case summaries, used to highlight important principles of criminal law, are featured throughout the text. The coverage is conceptual and practical, showing students how the criminal law applies in the "real world"—not just within the pages of a textbook.

The late John Kaplan's extraordinary work continues with the scholarship of Robert Weisberg and Guyora Binder in the Ninth Edition. This casebook's renowned interdisciplinary approach fuels class discussion as it enriches study. Logically organized, the text addresses the purposes and limits of punishment and considers the meaning and types of crime. Well-edited cases, interesting materials, and clear notes combine with cutting-edge issues and important social questions, such as whom and why we punish. Especially strong are the sections addressing the phenomenon of mass incarceration (including the movement towards prison abolition), the theme of and challenges to racial justice in our criminal law system, and the evolution of our laws on sexual assault. New to the Ninth Edition: Addition of up-to-date empirical and public policy research as well as expanded discussion of the role of constitutional law in the criminalization of homelessness, and issues of racial justice on such topics as criminal liability of police for use of lethal force and the controversies over citizen's arrest powers. Incorporation of new feminist research in such areas as battered women's self-defense and sexual assault (including treatment of the ongoing efforts to revise the Model Penal Code laws on rape). New historically informed treatment of felony

murder, including legislative and judicial developments in reform and possible abolition of felony murder doctrine. Updated notes and questions aimed at improving the casebook's usefulness for exam preparation. New case law on the challenges of applying criminal law in the Internet world on such topics as possession of child pornography images and criminal conduct through cyber-messaging. A fresh new analytic guide on "impossible attempts", designed to assist students with this perennially challenging doctrine. Examples & Explanations Wolters Kluwer Law & Business The way a society punishes demonstrates its commitment to standards of judgment and justice, its distinctive views of blame and responsibility, and its particular way of responding to evil. Punishment in Popular Culture examines the cultural presuppositions that undergird America's distinctive approach to punishment and analyzes punishment as a set of images, a spectacle of condemnation. It recognizes that the semiotics of punishment is all around us, not just in the architecture of the

prison, or the speech made by a judge as she sends someone to the penal colony, but in both "high" and "popular" culture iconography, in novels, television, and film. This book brings together distinguished scholars of punishment and experts in media studies in an unusual juxtaposition of disciplines and perspectives. Americans continue to lock up more people for longer periods of time than most other nations, to use the death penalty, and to racialize punishment in remarkable ways. How are these facts of American penal life reflected in the portraits of punishment that Americans regularly encounter on television and in film? What are the conventions of genre which help to familiarize those portraits and connect them to broader political and cultural themes? Do television and film help to undermine punishment's moral claims? And how are developments in the boarder political economy reflected in the ways punishment appears in mass culture? Finally, how are images of punishment received by their audiences? It is to these questions that Punishment in Popular Culture is addressed.

Examples & Explanations for Criminal Law LexisNexis

In 1796, as revolutionary fervor waned and the Age of Reason took hold, an eighty-five-year-old Massachusetts doctor was convicted of bestiality and sentenced to hang. Three years later and seventy miles away, an eighty-three-year-old Connecticut farmer was convicted of the same crime and sentenced to the same punishment. Prior to these criminal trials, neither Massachusetts nor Connecticut had executed anyone for bestiality in over a century. Though there are no overt connections between the two episodes, the similarities of their particulars are strange and striking. Historians Doron S. Ben-Atar and Richard D. Brown delve into the specifics to determine what larger social, political, or religious forces could have compelled New England courts to condemn two octogenarians for sexual misbehavior typically associated with much younger men. The stories of John Farrell and Gideon Washburn are less about the two old men than New England officials who, riding the rough waves of modernity, returned to the severity of their ancestors. The political upheaval of the Revolution and the new republic created new kinds of cultural experience—both exciting and frightening—at a moment when New England farmers and village elites were contesting long-standing assumptions about divine creation and the social order. Ben-Atar and Brown offer a rare and

vivid perspective on anxieties about sexual and social deviance in the early republic.

This comprehensive and clearly written Understanding treatise is frequently cited by scholars and courts in their analysis of substantive criminal law, and has been a popular source of assistance to criminal law students for the past quarter century. Understanding Criminal Law is designed to be taught in conjunction with any casebook. The topics covered are those most often raised in criminal law casebooks, and coverage of these subjects is meant to complement professors' classroom discussions. The text focuses on the basic elements of, and defenses to, all crimes; provides in-depth coverage of such crimes as homicide, rape, and theft; and covers other important topics covered in the Criminal Law course, such as accomplice and inchoate liability. Understanding Criminal Law also covers theories of punishment, sources of the criminal law, and overarching principles such as legality and proportionality. The common law is emphasized with extensive comparisons to the Model Penal Code and modern statutes. This edition offers the most significant updating ever, including coverage of quickly-changing legal areas, such as sexual assault and self-defense law. Recent and ongoing revisions to the Model Penal Code are also covered.

Taming Lust SAGE Publications

This criminal law book is designed for the modern law student. It has dual goals -- to transfer important knowledge about crimes

and their creation to students and to help them gain a deeper understanding of that knowledge through a wide variety of teaching tools. To engage the modern student, the book includes topical cases, such as the George Zimmerman/Trayvon Martin case, background boxes, and different kinds of problems aimed at multiple skills. The book provides broader perspectives of the criminal process and theories of punishment, but also examines the nuances and details of the elements of crimes as well. This book is part of the Context and Practice Series, edited by Michael Hunter Schwartz, Professor of Law and Dean of the University of Arkansas at Little Rock Bowen School of Law.
