*Alpha-Phonics* Publications International This paperback edition, with a new introduction, offers a powerful, compelling, and unassailable argument for reforming America's schooling methods and ideas--by one of America's most important educators, and author of the bestselling *Cultural Literacy*. For over fifty years, American schools have operated under the assumption that challenging children academically is unnatural for them, that teachers do not need to know the subjects they teach, that the learning "process" should be emphasized over the facts taught. All of this is tragically wrong. Renowned educator and author E. D. Hirsch, Jr., argues that, by disdaining content-based curricula while favoring abstract--and discredited--theories of how a child learns, the ideas uniformly taught by our schools have done terrible harm to America's students. Instead of preparing our children for the highly competitive, information-based economy in which we now live, our schools' practices have severely curtailed their ability, and desire, to learn. With an introduction that surveys developments in education since the hardcover edition was published, *The Schools We Need* is a passionate and thoughtful book that will appeal to the millions of people who can't understand why America's schools aren't educating our children.

### Memory Routledge

A perfect fun activity book designed for early learners to develop pencil control and motor skills. By following the arrows and tracing the dotted lines, the little scholars can complete the tracing exercises and creative activities leading to development of their early writing skills. The child will also learn to identify, write and revise straight, curvy, zig zag lines and multiple patterns. The book is also an excellent first step to prepare for school.

Hooked on Phonics

Absolutely the only book you will ever need to teach spelling. Teaching strategies include additional tips for use with the learning disabled, and word lists are organized by both sight and sound patterns. Build vocabulary skills with Latin and Greek roots and word lists, and by using the spelling rules to add prefixes and suffixes to root words. Choose from among the suggested activities to include practice with grammar, dictionary, and composition skills. Phonic, spelling, and punctuation rules are listed for easy reference. Word lists are divided by grade, 1 through 8. However, this method is easily adapted for older students or adults who need remedial work. Because of its multi-sensory and simplified approach to spelling, and because each child can work at his own pace, this program is ideal for students with learning disabilities. Grades K-12.

It's easy to say we trust Christ for everything, but are we living that truth? We've been given clear instruction in a powerful promise for parents. God tells us in Deuteronomy to "teach our children diligently." This passage and many others give us great insight as to how to do that and enjoy the promised blessing that always accompanies the mandates we are given. Learn the practical view of discipleship parenting, what God expects from parents, and how to put these truths into action. See how parenting with the vision of teaching them diligently will intentionally bear fruit and affect change in your own life as well. Move beyond giving lip-service to what you believe, and make the conscious choice to rely on the wisdom of God's holy instruction for your life and parenting. So, why are we as Christian parents still uncertain? Why do we live in fear? Why are we losing our children in record numbers? What can we do about it?

The Next Step in TjEd. Often cited by the DeMilles as their favorite work to date, this inspirational manual picks up where the primer/overview work, A Thomas Jefferson Education leaves off. It develops in depth not only the philosophy but also the nuts-and-bolts application of each individual Phase, the critical Transitions between Phases and the "big-picture" vision to begin with the end in mind. Those who master the content in this book leave behind the question, "But how do you actually DO it?" A Crisis of Leadership The world's problems can be summed up in just a few words: lack of leadership. While the world is in desperate need of leaders, very few people have the tools to become one. Oliver and Rachel DeMille's Leadership Education: The Phases of Learning is the manual that every person who aspires to be an effective leader, or to raise one, needs. Principled decision-making, the cultivation of character, studying the classics, and using critical thinking skills are just a few of the lost

educational virtues of today restored by this book. An in-depth look at the philosophy and phases of education is indispensable when creating leaders. This book will help any family find the direction they are looking for when pursuing leadership education. This book teaches not only the theories behind Thomas Jefferson Education but also the practical application of these theories for you and your children, with great detail on the features of Thomas Jefferson Education--modeled home, parenting, family, education, leadership and life's mission. As we apply the philosophy contained in Leadership Education: The Phases of Learning we will transform not only our families and our classrooms, but the world.

The Schools We Need Anchor Alpha-Phonics: IT IS THE PERFECT READING INSTRUCTION PROGRAM TO USE DURING THE VIRUS CRISIS. IT WORKS FAST, IS VERY SIMPLE. SURE RESULTS! THIS ONE BOOK IS COMPLETE. NOTHING ELSE NEEDED. HE/SHE CAN BE READING SIMPLE SENTENCES EVEN ON DAY ONE!! Used by tens of thousands for 37 years. Alpha-Phonics is probably the simplest, most effective, REASONABLY priced phonics instruction programs available. HERE IS WHY IT WORKS SO WELL: IT IS SIMPLE!! (Please also scroll down to see the VIDEO near the bottom left of this page) HERE IS WHY: There are only 44

phonograms (Sounds) the child needs to learn in order to read. Reading, contrary to what you have been told, is easy to teach because all you need to do is teach the student to SOUND OUT the words they want to read. At first, they sound the words out aloud, later they do it in their head silently. That is ALL there is to teaching reading. MOM get this: All 128 Lessons in Alpha-Phonics are covered in ONLY 14 pages of instructions for you. Students begin with short vowels putting together simple words (Like a with m = am or a with s = as) and progress to the more advanced words. With Alpha-Phonics the beginner can be reading simple sentences by lesson three, and that can even be on the first day! Other reading instruction programs try to do too much. They inject grammar, pictures and other material, needlessly complicating the task. Alpha-Phonics just teaches reading only. Alpha-Phonics has as a BONUS: you teach SPELLING easily as you go (through simple dictation). Alpha-Phonics easily introduces over 3,500 words in its simple 128 lessons. Some students can learn to read in only months or less. Alpha-Phonics also works very well for older students, even grown adults who need remediation. Is there a negative about Alpha-Phonics? Yes. In the past 37 years we have heard only one criticism (Only a few times). It is: Some Moms say they think their child can become bored when taught by Alpha-Phonics. Why? Parents have been convinced that learning has to be fun time. They have been led to believe games, card decks, cartoons/pictures, spin the needle tricks, etc., make it fun. They feel they have to entertain their kids while teaching. But this unnecessarily slows down the process. With Alpha-Phonics the student can actually be READING simple sentences even day ONE! Students do see lists of words in Alpha-Phonics lessons, but they QUICKLY are actually READING those

words; they are accomplishing, instead of being entertained. The Bells and Whistles in other programs slow the process and cost time and money \$\$\$. The huge sense of success in actually reading quickly overcomes any other consideration. We almost forgot the SUPER BONUS: Many ADULTS become BETTER readers while teaching their child! The lessons for the Student are in LARGE TYPE on 8 1/2 X 11 pages meaning you can instruct him/her DIRECTLY from the book. Nothing need be copied on separate paper. Makes everything much easier than if it were on 5 X 8 pages. Alpha-Phonics is highly recommended by leading Homeschooling curriculum reviewers such as Mary Pride, Cathy Duffy, Karen Andreola. Amazon also has a set of practice Readers and a practice Phonics Workbook to accompany Alpha-Phonics. (But they are NOT required, but Moms find them helpful) The Alpha-Phonics and How To Tutor Little Companion READERS (10 books combined into one handy book): \$ 19.95 (ISBN 9780941995344). They are specifically designed to follow along with the Alpha-Phonics book as you teach from it. The other resource is The Alpha-Phonics and How To Tutor Phonics Companion PRACTICE WORKBOOK: \$ 19.95 (ISBN: 9780941995337). Designed to accompany the Alpha-Phonics book as you go through the lessons. ALPHA-PHONICS REALLY DOES WORK.....IT HAS FOR OVER 37 YEARS!!
