For the first time Calvin has published his Clinical Acupuncture Case Study book in English for clinicians and acupuncture students, 30 YEARS OF CLINICAL STUDIES This book is absolutely beautiful. It's easy for the beginner to read, understand, and follow.....the PERFECT pictorial atlas of acupuncture points. Not only has a description of each acupoint, but also

Master Tung's Points are fondly referred to as 'magic' because in most cases, these points deliver instant and lasting results. what I consider the "Best" of Master Tung's Acupuncture. There are many books on Master Tung's Acupuncture which introduce all of the 740 Tung family points. but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use Master Tung's Acupuncture immediately and effectively. Most acupuncturists simply add the

Tung points to their already memorized TCM Acupuncture point prescriptions, and as a result, make a mess out of their acupuncture. They do not have a simple and elegant rationale for using the system. In my teaching of Master Tung's Acupuncture, I always choose points that are painless, easily accessible, and have powerful immediate results. **Acupuncture for Pain**

Tung Style Acupuncture was brought to Taiwan from mainland China by Master Tung</p>	<p>Ching-Chang in 1949 when he left China with the Kuomintang (KMT) army under General Chiang Kai-Shek. His acupuncture style was thus spared from the synthesis of the 'New Medicine' engendered as a consequence of the 1958 dictum by P.R.C. Chairman Mao Ze-Dong to create a 'New Medicine', i.e. to unify the 'best' parts of Western and Chinese medicine. Ergo, the Tung Style escaped</p>

the efforts to compel acupuncture to conform to the model espoused by the TCM herbalists who had been assigned to the task of inventing this 'New Medicine' - forcing the proverbial 'square peg into a round hole'. As a system, Tung Style Acupuncture does not necessitate the use of the diagnostic methods or terminology adopted by contemporary, herbalist-driven, TCM

acupuncture; this renders the Tung Style Acupuncture well suited for use by non-TCM trained clinicians. Furthermore, the clinical results obtained using the Tung Style Acupuncture often far surpass those achieved through the use of TCM acupuncture, especially in the West. This is, in part, because Western patients seldom conform to an exact mold of a single TCM pattern. W

In this book, I use a lot of standard acupuncture points along with Master Tung's acupuncture and emphasize the use of channels and imaging for optimal clinical use. If a practitioner can use this work, they can have a turnkey approach in the clinic, simply by implementing these acupuncture

and herbal protocols. The idea is for each disease, I have installed "cheat sheets" for the practitioner to immediately refer to and try to insert needles and prescribe herbs for. The fifth in the series of Master Tung's Acupuncture books, the idea is for someone to start with the Master Tung's Primer, The Best of Master Tung's Acupuncture, Master Tung's Acupuncture for Pain, and Master Tung's

Acupuncture for Internal Medicine Disorders. With this manual, we will discuss the use of Master Tung's Acupuncture with herbals for even greater clinical success. The book is composed of monographs on each disease, best points to treat the problem, and high percentage success herbal prescriptions to give the patient as homework. Unique is that we only use a handful of

both TCM and Master Tung points, and a small amount of herbal formulas for a turnkey approach to a clinic. This can be used as a roadmap for the new clinician, improve clinical success for the intermediate practitioner, or provide an alternative approach for the seasoned veteran.
