'Italians are passionate and opinionated about their food and I am no exception!' Italian-born food lover, blogger and actress Silvia Colloca offers us her personal insight into authentic Italian home cooking. Now living in Australia, she is quick to correct the misconception that every dish must be drowned in olive oil or topped with a thick coating of parmesan. On the contrary, Silvia's everyday recipes are simple, light and healthy, and based on fresh, seasonal ingredients. This is the food she grew up with. This is how Italians really eat. Step into Silvia's kitchen and sample such goodies as twice-cooked cinnamon galettes, watermelon rind jam, white wine and fennel crackers, Abruzzese fisherman's stew with garlic toast, ricotta gnocchi with cavolo

nero pesto, and strawberry and mascarpone cake. Silvia's warmth, humour and thoughtful instructions show you how easily it can be done in your own kitchen.

New York Times–bestselling author of *The Psychopath Test* Jon Ronson writes about the dark, uncanny sides of humanity with clarity and humor. *Lost at Sea*—now with new material—reveals how deep our collective craziness lies, even in the most mundane circumstances. Ronson investigates the strange things we're willing to believe in, from robots programmed with our loved ones' personalities to indigo children to the Insane Clown Posse's juggalo fans. He looks at ordinary lives that take on extraordinary perspectives. Among them: a pop singer whose greatest passion is the coming alien invasion, assisted-suicide practitioners, and an Alaskan town's Christmas-induced high school mass-murder plot. He explores all these tales with a sense of higher purpose and universality, yet they are stories not about the fringe of society. They are about all of us. Incisive and hilarious, poignant and maddening, revealing and disturbing—Ronson writes about our modern world, and reveals how deep our collective craziness lies, and the chaos stirring at the edge of our daily lives.

"In nearly every realm of daily life--from health care to education, highways and home security--there is an invisible velvet rope, for a price, red tape is cut, lines are jumped, appointments are secured, and doors are opened. On the other side, middle- and working-class Americans fight to find an empty seat on the plane, a place in line with their kids at the amusement park, a college acceptance letter, or a hospital bed. We are all aware of the gap between the rich and everyone else, but when we weren't looking, business innovators stepped in to exploit it, shifting services away from the masses and finding new ways to profit by serving the privileged. Nelson Schwartz's must-read book brings us on a behind-the-scenes tour of this new reality and shows the toll the velvet rope divide takes on society."--provided by publisher.

How to Save Thousands on Your Two Biggest Expenses Rizzoli International Publications

Seminar paper from the year 2010 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 70%, University of Westminster, course: Branding Management, language: English, abstract: Corporate brands are defined by many as one of the most fascinating phenomena of the 20th century's business environment. In today's reality they are also considered sometimes as a religion, a belief, or even a lifestyle; they are adored, venerated, and coveted, by people and organizations alike (Keller, 2008). Balmer in his article Corporate Brands: what are they? What of them? (2003), defined corporate brands as a product of an organization's corporate strategy, mission, image, and activities, which communicates brand's values and in the meantime affords a means of differentiation from their competitors. It is also said to enhance the esteem and loyalty of the stakeholders for the organization. This paper will give an examination of the nature, the typology and the management of a well known corporate brand operating in the Tourism industry: Royal Caribbean Cruises Line Ltd (RCCL). Adam Weaver in his article Complexity at sea: Managing brands within the cruise industry (2008), stresses how in the late eighties, corporate consolidation within the cruise industry, had as a result many

cruise brands to be a part of a brand portfolio. In the complexity of the cruise industry, culture, languages and country of origins represent a major challenge for managers when adapting their brands across an international environment and portfolios are always bigger (Weaver, 2008). Originally Royal Caribbean Cruise LTD's strategy to overcome the complexity of this issue has been to opt for a Global brand strategy instead of a multiple decentralized local brands strategy, which on the other hand, has been Carnival Corporation's main strategy, also main RCCL competitor, as well as market leader for the global cruise industry (Weaver, 2008). However some of the latest operations made by RCCL have suggested a fundamental shift on RCCL brand strategy, which will be a focal point for the second part of this report. Before that, an indication about the size of the industry and an introduction of its main players will be essential in order to understand the dynamics that influence portfolio management strategies.

Renowned travel authority and NBC Today show travel editor Peter Greenberg shares his insider secrets. Americans now travel

more than ever before. Yet as our traveling has increased, the service we receive from airlines, hotels, and other agencies has deteriorated dramatically. Industry surveys reveal what you already feel: growing dissatisfaction among travelers of every age, income, and education level. We've been abused by the travel experience. Peter Greenberg is here to help. The Travel Detective tells you the things most travel agents can't — or sometimes just won't — tell you. In his characteristic friendly and conversational tone, Greenberg tells how to find the secret walk-up fares that can save air travelers hundreds, if not thousands of dollars on last minutes flights; which coach seats on which planes are better than first class; the secret rule to know to avoid being bumped from a flight, which cruise ship brochures lie; which credit card companies are fastest — and slowest — to come to your aid in a foreign land, or worse, in the U.S.; which hotels have the best — and the worst — fire and crime safety records, and how you can protect yourself; how to negotiate the best hotel room deal; which hotels have the worst water pressure in their showers (and better yet, how you can get great water pressure, even at those hotels); and much, much more. Accessible and entertaining, The Travel Detective gives you the information and tools you need to make every trip an affordable pleasure.

This volume initiates a gender-based framework for analyzing the folk art of Latin America and the Caribbean. Defined here broadly as the "art of the people" and as having a primarily decorative, rather than utilitarian, purpose, folk art is not solely the province of women, but folk art by women in Latin America has received little sustained attention. *Crafting Gender* begins to redress this gap in scholarship. From a feminist perspective, the contributors examine not only twentieth-century and contemporary art by women, but also its production, distribution, and consumption. Exploring the roles of women as artists and consumers in specific cultural contexts, they look at a range of artistic forms across Latin America, including Panamanian molas (blouses), Andean weavings, Mexican ceramics, and Mayan hipiles (dresses). Art historians, anthropologists, and sociologists from Latin America, the Caribbean, and the United States discuss artwork from Mexico, Argentina, Chile, Colombia, Ecuador, Panama, Suriname, and Puerto Rico, and many of their essays focus on indigenous artists. They highlight the complex webs of social relations from which folk art emerges. For instance, while several pieces describe the similar creative and technical processes of indigenous pottery-making communities of the Amazon and of mestiza potters in Mexico and Colombia, they also reveal the widely varying functions of the ceramics and meanings of the iconography. Integrating the social, historical, political, geographical, and economic factors that shape folk art in Latin America and the Caribbean, *Crafting Gender* sheds much-needed

light on a rich body of art and the women who create it.
