This volume is a collection based on the Royal Musical Association's Mozart Conference, held at London's South Bank in August 1991. That conference, the largest and most international ever held by the Association, attracted an international group of speakers, and was open to the general public. The 26 papers included here have been substantially revised and extended for publication. They provide a wide panorama of modern Mozart research, exploring aspects of his life and work hitherto obscure, interpreting his instrumental music, and describing the context, in Vienna and Salzburg, in which he lived and worked. Close attention is paid to different aspects of his operas, from Lucio Silla to La clemenza di Tito, with particular stress on the creative processes in the three great Da Ponte operas: Le nozze di Figaro, Don Giovanni, Così fan tutte.

The aim of this innovative series is to provide modelmakers and car enthusiasts with a new standard of primarily visual reference of both full-size cars and their scale models. Each book contains detailed technical information imparted through drawings and photographs while the meticulously researched full-color profiles provides a complete reference for paint schemes and markings. In addition, every volume of the CarCraft series features summaries of design histories and operational careers, and reviews of available kits. The third book in the new CarCraft series, Jaguar E-Type, frames the legend of what many call the world's most beautiful car design. Sir William Lyons and Malcolm Sayer carved automotive history with this car across its 1960s-1970s incarnations from roadster to coupé amid the fitting of Straight-Six, to V12 engines. With its new definition of sculptural styling, performance, handling and innovative style, the E-Type or XKE series in the USA, created a car of global impact that remains a great classic of all time. Here, experienced automotive writer, and industrial designer, Lance Cole pays tribute to the car in a detailed yet engaging commentary. New photography, the design story, and full coverage of the modeling options in

synthetic materials and die cast metals, create a narrative of vital interest.

The Definitive History of Racist Ideas in America Pearson Education

The National Book Award winning history of how racist ideas were created, spread, and deeply rooted in American society. Some Americans insist that we're living in a post-racial society. But racist thought is not just alive and well in America -- it is more sophisticated and more insidious than ever. And as award-winning historian Ibram X. Kendi argues, racist ideas have a long and lingering history, one in which nearly every great American thinker is complicit. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-black racist ideas and their staggering power over the course of American history. He uses the life stories of five major American intellectuals to drive this history: Puritan minister Cotton Mather, Thomas Jefferson, abolitionist William Lloyd Garrison, W.E.B. Du Bois, and legendary activist Angela Davis. As Kendi shows, racist ideas did not arise from ignorance or hatred. They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities. In shedding light on this history, *Stamped from the Beginning* offers us the tools we need to expose racist thinking. In the process, he gives us reason to hope.

THE REPUBLIC Plato's Republic is widely acknowledged as one of the most influential works in the history of philosophy. Presented in the form of a dialogue between Socrates and three different interlocutors, it is an inquiry into the notion of a perfect community and the ideal individual within it. During the conversation, other questions are raised: what is goodness; what is reality; what is knowledge; what is the purpose of education? With remarkable lucidity and deft use of allegory, Plato arrives at a depiction of a state bound by harmony and ruled by 'philosopher kings'. THE REPUBLIC The Republic is a philosophical dialogue about the nature of justice and the order and character of the just city-state and the just individual. The dialogues, among Socrates and various Athenians and foreigners, discuss the meaning of justice and examine whether or not the just man is happier than the unjust man, by proposing a society ruled by philosopher-kings and the guardians. THE REPUBLIC In this intellectually and historically influential work of philosophy and political theory, Plato discusses the theory of forms, the immortality of the soul, and the roles of the philosopher and of poetry in society.
