This book contains seven excellent Internal Assessments (IA) for the IB Chemistry course. Our goal is to help you understand how success is achieved in the IA so that you can go on to obtain a similar result. Alongside these IAs is a clear and comprehensive guide on how to write yours, including everything from how to

choose an interesting topic to how to integrate the IA with your studies and the syllabus. The guide also includes links to various online resources which may help you achieve the maximum mark. Sections include: - Structure: how to plan your Chemistry IA the ideal way - Ideas: an exhaustive list of excellent sources and websites - Assessment: maximizing your

marks with one eye on the grading criterion - Technology: what tools can be used to improve your IA Our guide makes frequent reference to the grading matrix and the format that your IA should follow, as well as highlighting details which you must bear in mind when carrying out your investigation. EIB Education (Elite IB Tutors) are a globally recognized authority in the International Baccalaureate. Having

supported thousands of students across 40 countries in the past 7 years, EIB supports students, families and schools through the entire IB journey.
