*Self-Esteem and Foreign Language Learning* Archaeological Studies Leiden University

Self-Esteem and Foreign Language Learning deals with a topic which has been given surprisingly little attention in Second and Foreign Language Acquisition studies. Although there are several studies dealing with general education, this volume

addresses the need to take self-esteem into consideration in the language classroom and adopts both theoretical/research and practical perspectives, with the hope of being useful for both researchers and practitioners. The book is organized into three main parts. Part I serves as an introduction to self-esteem. Part II reports on the existing literature about the theory and research dealing with self-esteem and foreign language learning, and Part III includes procedures for implementation and activities for classroom applications. Self-Esteem and Foreign Language Learning is edited by Fernando Rubio (PhD.), a researcher and teacher at the University of Huelva in Spain. Most of the chapters have been written by members of the research group "Affective factors in language learning", which has also published a book on Multiple Intelligences and the teaching of English (Dr. Jane Arnold, Dr. Carmen Fonseca, etc.). There are two outside contributions: one is by Andrew Wright, author of numerous publications for language teachers, and the other by Veronica de Andrés, teacher trainer from the University of El Salvador (Argentina)

and member of the executive board of the International Council for Self-Esteem. Dr. Elaine Horwitz of the University of Texas has contributed a preface.

*This I Believe* Pearson

The Spanish nation has been contested almost since its conception in the early nineteenth century, and the Spanish state has therefore been involved in perpetual conflicts between various nationalisms, particularly between different versions of Spanish nationalism as well as between Spanish majority nationalism and various minority nationalisms. At different times in history, the conflicts have revived and turned into organizing principles of the political communities in Spain, as communities in conflict or contention but, nevertheless, as communities providing the Spaniards with different senses of belonging. In recent times, both lines of contention have been activated again, and in this volume, we focus particularly on the conflict between majority and minority nationalism, which has been revived from approximately 2010 around the Catalan separatist conflict, but other sub-state identities are potentially conflictual as well. Both the state-wide - Spanish - as

well as the sub-state actors try to develop feelings of territorial attachments to the Spanish political community or to the respective sub-state political communities, and both use emotions and feelings to secure support and to assert or claim sovereignty for the political community in question. The contributions in this volume shed light on various issues related to these questions.

Social media penetrate our lives: Facebook, YouTube, Twitter and many other platforms define daily habits of communication and creative production. This book studies the rise of social media, providing both a historical and a critical analysis of the emergence of major platforms in the context of a rapidly changing ecosystem of connective media. Author José van Dijck offers an analytical prism that can be used to view techno-cultural as well as socio-economic aspects of this transformation as well as to examine shared ideological principles between major social media platforms. This fascinating study will appeal to all readers interested in social media.

*An Introduction to Visual Culture*  
Routledge

This book examines the role textbooks play in the teaching of dominant and non-

dominant (first and foreign) languages in a range of cultural contexts worldwide. Each chapter addresses important issues related to what constitutes "legitimate knowledge", the politics of learning materials, global cultural awareness, competing ideologies, and the development of multilingual literacies. *Language, Ideology and Education: The Politics of Textbooks in Language Education* comprehensively surveys theoretical perspectives and methodological issues in the critical examination of language textbooks. In particular, it looks at: *The Cultural Politics of Language Textbooks in the Era of Globalization* *The Politics of Instructional Materials for English for Young Learners* *Ideological Tensions and Contradictions in Lower Primary English Teaching Materials in Singapore* *Creating a Multilingual/multicultural Space in Japanese EFL: A Critical Analysis of Discursive Practices within a New Language Education Policy* The book is primarily addressed to those who teach and research in the areas of Foreign Language Education, TESOL, Applied Linguistics, Language Policy, Critical

Pedagogy, and Textual Cultures. Although the book is focused on textbook and materials analysis, rather than evaluation, most chapters discuss implications for curriculum design and materials development and therefore will be relevant to scholars working in those fields.

**The Image of the City** Prentice Hall  
This volume of collected essays explores the premise that Plutarch's work, notwithstanding its amazing thematic multifariousness, constantly pivots on certain ideological pillars which secure its unity and coherence. So, unlike other similar books which, more or less, concentrate on either the Lives or the Moralia or on some particular aspect(s) of Plutarch's oeuvre, the articles of the present volume observe Plutarch at work in both Lives and Moralia, thus bringing forward and illustrating the inner unity of his varied literary production. The subject-matter of the volume is uncommonly wide-ranging and the studies collected here inquire into many important issues of Plutarchean scholarship: the conditions under which Plutarch's writings were separated into two distinct corpora, his

methods of work and the various authorial techniques employed, the interplay between Lives and Moralia, Plutarch and politics, Plutarch and philosophy, literary aspects of Plutarch's oeuvre, Plutarch on women, Plutarch in his epistemological and socio-historical context. In sum, this book brings Plutarchean scholarship to date by revisiting and discussing older and recent problematization concerning Plutarch, in an attempt to further illuminate his personality and work.
