Translated by Charles C. Mierow. De origine actibusque Getarum, or the Getica, is a summary of the now lost account by Cassiodorus of the origin and history of the Gothic people. It tells of the great battles between the Goths and Romans, of the First Great Race War against Europe waged by the Huns under Attila, the Gothic involvement in the great sacking of Rome-and much, much more. Jordanes' work is the single most important source on the origin and migration of the Goths, Ostrogoths and Visigoths. Starting with a fictionalized account of Gothic origins and travels, the Getica then deals with the very real story of the first meeting between Roman and Gothic forces on the eastern borders of the Empire in the present-day north Balkans. It tells of the initial clashes between Roman and Goth, and of how they were eventually forced to become allies against the invasion of

Europe by the Asiatic hordes under Attila the Hun. Once that invasion was warded off, the story continues with the adventures of the Ostrogoths, the Visigoths, Gaul, Spain, the last Gothic rulers of the Western Roman Empire, their part in the final fall of Rome and their descendant's role in the Eastern Roman Empire. The Getica is, even after 1,500 years, still a riveting read and brimming with adventure, despair, heroism and incredible deeds which helped shape Europe, and a vital source for early Gothic, Slavic, Roman and Hunnish history. This version has been completely reset and follows the identical margin notes, introduction and literary overview of Charles C. Mierow's Princeton University edition. About the author: Jordanes (sixth century AD) was a Goth whose immediate family came from Moesia, or modern northern Bulgaria, when it was on the eastern frontier of the Roman Empire. Little else is known about his life or death except that he was a high-level notarius, or civil servant who turned to history writing as a hobby after being converted to Christianity.

Named for the ironic coincidence of the Irish baby boom of the 1970s, which peaked nine months to the day after Pope John Paul II's historic visit to Dublin, *The Pope's Children* is both a celebration and biting funny portrait of the first generation of the Celtic Tiger—the beneficiaries of the economic miracle that propelled Ireland from centuries of deprivation into a nation that now enjoys one of the highest living standards in the world.

This 2007 text is a comparative, analysis of one of the most fundamental stages in the formation of Europe. Leading scholars explore the role of the spread of Christianity and the formation of new principalities in the birth of Denmark, Norway, Sweden, Bohemia, Hungary, Poland and Rus' around the year 1000. Drawing on history, archaeology and art history, and emphasizing problems related to the sources and historiographical debates, they demonstrate the complex interdependence between the processes of religious and political change, covering conditions prior to the introduction of Christianity, the adoption of Christianity, and the development of the rulers' power. Regional patterns emerge, highlighting both the similarities in ruler-sponsored cases of Christianization, and differences in the consolidation of power and in institutions introduced by Christianity. The essays reveal how local societies adopted Christianity; medieval ideas of what constituted the dividing line between Christians and non-Christians; and the connections between Christianity and power.

In 2003 the Victorian Parliament Law Reform Committee received terms of reference to report to Parliament on the current state of the law in Victoria in relation to administration of justice offences. In determining which offences this Inquiry would cover, the Committee focused on the offences that were considered by the Model Criminal Code Officers Committee (MCCOC). This Inquiry examines the following offences: attempting to pervert the course of justice; specific offences relating to interference with evidence and witnesses; accessory after the fact; and perjury. The terms of reference guided the structure of this Report so that each chapter examines each offence by analysing the current state of the law in

Victoria and then comparing it with the relevant MCCOC recommendation. The committee then examines interstate laws and other relevant law reform agency recommendations before considering witnesses' submissions. The Committee recommendations are based on a number of guiding principles which include transparency and consistency in the law. Many of the recommendations are also influenced by the Committee's general support for the codification of administration of justice offences.

### **A Collection Of Thoughts** Cambridge University Press

A survey of the quirks and quandaries of the English language, focusing on our strange and wonderful grammar Why do we say "I am reading a catalog" instead of "I read a catalog"? Why do we say "do" at all? Is the way we speak a reflection of our cultural values? Delving into these provocative topics and more, *Our Magnificent Bastard Language* distills hundreds of years of fascinating lore into one lively history. Covering such turning points as the little-known Celtic and Welsh influences on English, the impact of the Viking raids and the Norman Conquest, and the Germanic invasions that started it all during the fifth century ad, John McWhorter narrates this colorful evolution with

vigor. Drawing on revolutionary genetic and linguistic research as well as a cache of remarkable trivia about the origins of English words and syntax patterns, *Our Magnificent Bastard Tongue* ultimately demonstrates the arbitrary, maddening nature of English—and its ironic simplicity due to its role as a streamlined lingua franca during the early formation of Britain. This is the book that language aficionados worldwide have been waiting for (and no, it's not a sin to end a sentence with a preposition).

It is true that he has been one of the inner circle of the 'Beats' from the first, but many admirers of his poetry feel that it belongs quite as much to other and older traditions in world literature. One

of these is the revival of pure poetry whenever an "original"—be it Rimbaud or Whitman—has broken with current verse conventions to give free rein to the magic of language. Another is that ancient pre-occupation of poets—the sense of the immediacy of death. Like Villon or Dylan Thomas, Corso lives close to the mystery of death. It is, perhaps, his central theme, on which variations ranging from the terrible to the comic are sounded. But Corso is seldom macabre. A bursting vitality always carries him back to the sensations of the living, though always it is the reality behind the obvious which has caught his eye. "How I love to probe life," Corso has written, "That's what poetry is to me, a wondrous prober... It's not the metre or measure of a line, a breath; not 'law' music; but the assembly of great eye sounds placed into an inspired measured idea."
