Graphic Design Thinking Princeton Architectural Press

Herbert Bayer (1900-1985) was one of the most influential graphic designers of the twentieth century, with a prolific career spanning more than six decades and two continents. As a student and teacher at the Bauhaus, he used geometry, photomontage, functional analysis, and simplified typography to forge a new approach to graphic design. This book explores the evolution of Bayer's design process, from his student works featuring hand lettering to mechanically printed typography and hyperreal photo illustrations. The poetic and striking works are drawn from the Merrill C. Berman Collection and the collection of Cooper Hewitt, Smithsonian Design Museum, among others. Many have never been published before or appear in color for the first time here.

Creating Products and Services for Better Health Yale University Press

Creativity is more than an inborn talent; it is a hard-earned skill, and like any other skill, it improves with practice. *Graphic Design Thinking: How to Define Problems, Get Ideas, and Create Form* explores a variety of informal techniques ranging from quick, seat-of-the-pants approaches to more formal research methods for stimulating fresh thinking, and ultimately arriving at compelling and viable solutions. In the style with which author Ellen has come to be known hands-on, up-close approach to instructional design writing brainstorming techniques are grouped around the three basic phases of the design process: defining the problem, inventing ideas, and creating form.

Creative research methods include focus groups, interviewing, brand mapping, and co-design. Each

method is explained with a brief narrative text followed by a variety of visual demonstrations and case studies. Also included are discussions with leading professionals, including Art Chantry, Ivan Chermayeff, Jessica Helfand, Steven Heller, Abott Miller, Christoph Niemann, Paula Scher, and Martin Venezky, about how they get ideas and what they do when the well runs dry. The book is directed at working designers, design students, and anyone who wants to apply inventive thought patterns to everyday creative challenges.

MIT Press

This publication is part of the Handson Graphics series - an exciting and unique collection exploring the work of respected and highly talented international designers. The books in this series are primarily aimed at students and teachers of design. However

Graphic Design Theory MIT Press

In the mid-twentieth century, Henry Dreyfuss—widely considered the father of industrial design—pioneered a user-centered approach to design that focuses on studying people's behaviors and attitudes as a key first step in developing successful products. In the intervening years, user-centered design has expanded to undertake the needs of differently abled users and global populations as well as the design of complex systems and services. *Beautiful Users* explores the changing relationship between designers and users and considers a range of design methodologies and practices, from user research to hacking, open source, and the maker culture.

Design, Writing, Research Chronicle Books

This guide aims to move students away from a cut-and-paste mentality and refocus design instruction on the fundamentals of form (starting from such basics as point and line) in a critical, rigorous way informed by contemporary media, theory and software systems.

Second Edition, Revised and Expanded Five Mile Press

An intimate glimpse into the professional and romantic relationship between Harriet Pattison and the renowned architect Louis Kahn On a winter day in 1953, a mysterious man in a sheepskin coat stood out to Harriet Pattison, then a theater student at Yale. She would later learn he was the architect Louis Kahn (1901-1974). This chance encounter served as preamble to a fifteen-year romance, with Pattison becoming the architect's closest confidante, his intellectual partner, and the mother of his only son. Here for the first time, Pattison recounts their passionate and sometimes searing relationship. Married and twenty-seven years her senior, Kahn sent her scores of letters—many from far-flung places—until his untimely death. This book weaves together Pattison's own story with letters, postcards, telegrams, drawings, and photographs that reveal Kahn's inner life and his

architectural thought process, including new insight into some of his greatest works, both built and unbuilt. What emerges is at once a poignant love story and a vivid portrait of a young woman striving to raise a family while forging an artistic path in the shadow of her famous partner.

Readings from the Field "O'Reilly Media, Inc."

Have you ever struggled to complete a design project on time? Or felt that having a tight deadline stifled your capacity for maximum creativity? If so, then this book is for you. Within these pages, you'll find 80 creative challenges that will help you achieve a breadth of stronger design solutions, in various media, within any set time period. Exercises range from creating a typeface in an hour to designing a paper robot in an afternoon to designing web pages and other interactive experiences. Each exercise includes compelling visual solutions from other designers and background stories to help you increase your capacity to innovate. Creative Workshop also includes useful brainstorming techniques and wisdom from some of today's top designers. By road-testing these techniques as you attempt each challenge, you'll find new and more effective ways to solve tough design problems and bring your solutions to vibrant life.

How Posters Work Images Publishing

This book serves as an introduction to the key elements of good design. Broken into sections covering the fundamental elements of design, key works by acclaimed designers serve to illustrate technical points and encourage readers to try out new ideas. Themes covered include narrative, colour, illusion, ornament, simplicity, and wit and humour. The result is an instantly accessible and easy to understand guide to graphic design using professional techniques.

Making Design Princeton Architectural Press

Design Your Life is a series of irreverent and realistic snapshots about objects and how we interact with them. By leading design thinker Ellen Lupton and her twin sister Julia Lupton, it shows how design is about much more than what's bought at high-end stores or the modern look at IKEA. Design is critical thinking: a way to look at the world and wonder why things work, and why they don't. Illustrated with original paintings of objects both ordinary and odd, Design Your Life casts a sharp eye on everything from roller bags, bras, toilet paper, and stuffed animals to parenting, piles, porches, and potted plants. Using humor and insight Ellen and Julia explore the practical side of everyday design, looking at how it impacts your life in unexpected ways and what you can do about it. Speaking to the popular interest in design as well as people's desire to make their own way through a mass-produced world, this thoughtful book takes a fresh and humorous approach to make some serious points about the impact of design on our lives. Find out what's wrong with the bras, pillows, potted plants, and the other hopeless stuff you use, buy, clean, water, or put away everyday. Discover how to secretly control the actions of those around you by choosing and placing objects carefully. Find out how roller bags are threatening civilization, and how the layout of your own house might be making you miserable. Use the tools of self-publishing to take the power of branding into your own hands. Taking a fresh, funny look at parenthood, housekeeping, entertaining, time management, crafting, and more, Design Your Life shows you how to evaluate the things you use, and how to recognize forms of order that secretly inhabit the messes of daily life, be it a cluttered room or a busy schedule. Use this book to gain control over your environment and tap into the power of design to communicate with friends, family, and the world.

Writing on Graphic Design Chronicle Books

How do designers get ideas? Many spend their time searching for clever combinations of forms, fonts, and colors inside the design annuals and monographs of other designers' work. For those looking to challenge the cut-and-paste mentality there are few resources that are both informative and inspirational. In Graphic Design: The New Basics, Ellen Lupton, best-selling author of such books as Thinking with Type and Design It Yourself, and design educator Jennifer Cole Phillips refocus design instruction on the study of the fundamentals of form in a critical, rigorous way informed by contemporary media, theory, and software systems

Graphic Design Chronicle Books

This book is a guide to creativity, problem solving and the process of reaching goals. Updated, New Horizons edition of the 1992 edition.

A Soft-systems Guide to Creativity, Problem-solving & the Process of Reaching Goals

Chronicle Books

It's everywhere, including the moon (on the commemorative plaque left by Apollo 11 astronauts), Nike sneakers, the artworks of Barbara Kruger, Ed Ruscha, and Jenny Holzer, 2001: A Space Odyssey credits, Domino's Pizza boxes, Absolut Vodka bottles, and Red Bull cans. Richard Nixon used it for his presidential campaign, as did Hillary Clinton. Indeed, Futura is one of the most used fonts in the world today—the typeface of modern design—more so even than Helvetica. This fascinating book explores the cultural history and uses of a face that's so common you might not notice, until you start looking, and then you can't escape it. Douglas Thomas traces Futura from its Bauhaus-inspired origin in Paul Renner's 1924 design, to its current role as the go-to choice for corporate work, logos, motion pictures, and advertisements. Never Use Futura is illuminating, sometimes playful, reading, not just for type nerds, but for anyone interested in how typefaces are used, take on meaning, and become a language of their own.

Health Design Thinking, second edition Yale University Press

Take a peek inside the heads of some of the world's greatest living graphic designers. How do they think, how do they connect to others, what special skills do they have? In honest and revealing interviews, nineteen designers, including Stefan Sagmeister, Michael Beirut, David Carson, and Milton Glaser, share their approaches, processes, opinions, and thoughts about their work with noted brand designer Debbie Millman. The internet radio talk host of Design Matters, Millman persuades the greatest graphic designers of our time to speak frankly and openly about their work. How to Think Like a Great Graphic Designer offers a rare opportunity to observe and understand the giants of the industry. Designers interviewed include: —Milton Glaser —Stefan Sagmeister —David Carson —Paula Scher —Abbott Miler —Lucille Tenazas —Paul Sahre —Emily Oberman and Bonnie Siegler —Chip Kidd —James Victore —Carin Goldberg —Michael Bierut —Seymour Chwast —Jessica Helfand and William Drenttel —Steff Geissbuhler —John Maeda Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals

succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Extra Bold is the inclusive, practical, and informative (design) career guide for everyone! Part textbook and part comic book, zine, manifesto, survival guide, and self-help manual, Extra Bold is filled with stories and ideas that don't show up in other career books or design overviews. • Both pragmatic and inquisitive, the book explores power structures in the workplace and how to navigate them. • Interviews showcase people at different stages of their careers. • Biographical sketches explore individuals marginalized by sexism, racism, and ableism. • Practical guides cover everything from starting out, to wage gaps, coming out at work, cover letters, mentoring, and more. A new take on the design canon. • Opens with critical essays that rethink design principles and practices through theories of feminism, anti-racism, inclusion, and nonbinary thinking. • Features interviews, essays, typefaces, and projects from dozens of contributors with a variety of racial and ethnic backgrounds, abilities, gender identities, and positions of economic and social privilege. • Adds new voices to the dominant design canon. Written collaboratively by a diverse team of authors, with original, handcrafted illustrations by Jennifer Tobias that bring warmth, happiness, humor, and narrative depth to the book. Extra Bold is written by Ellen Lupton (Thinking with Type), Farah Kafei, Jennifer Tobias, Josh A. Halstead, Kaleena Sales, Leslie Xia, and Valentina Vergara.

A Feminist, Inclusive, Anti-racist, Nonbinary Field Guide for Graphic Designers Laurence King Publishing

The long awaited follow-up to our all-time bestseller Thinking with Type is here. Type on Screen is the definitive guide to using classic typographic concepts of form and structure to make dynamic compositions for screen-based applications. Covering a broad range of technologies—from electronic

publications and websites to videos and mobile devices—this hands-on primer presents the latest information available to help designers make critical creative decisions, including how to choose typefaces for the screen, how to style beautiful, functional text and navigation, how to apply principles of animation to text, and how to generate new forms and experiences with code-based operations. Type on Screen is an essential design tool for anyone seeking clear and focused guidance about typography for the digital age.

Building and Managing In-House Design Teams Crisp Pub Incorporated

Applying the principles of human-centered design to real-world health care challenges, from drug packaging to early detection of breast cancer. This book makes a case for applying the principles of design thinking to real-world health care challenges. As health care systems around the globe struggle to expand access, improve outcomes, and control costs, Health Design Thinking offers a human-centered approach for designing health care products and services, with examples and case studies that range from drug packaging and exam rooms to internet-connected devices for early detection of breast cancer. Written by leaders in the field—Bon Ku, a physician and founder of the innovative Health Design Lab at Sidney Kimmel Medical College, and Ellen Lupton, an award-winning graphic designer and curator at Cooper Hewitt Smithsonian Design Museum—the book outlines the fundamentals of design thinking and highlights important products, prototypes, and research in health design. Health design thinking uses play and experimentation rather than a rigid methodology. It draws on interviews, observations, diagrams, storytelling, physical models, and role playing; design teams focus not on technology but on problems faced by patients and clinicians. The book's diverse case studies show health design thinking in action. These include the development of PillPack, which frames prescription drug delivery in terms of user experience design; a credit card-size device that allows patients to generate their own electrocardiograms; and improved emergency room signage. Drawings, photographs, storyboards, and other visualizations accompany the case studies. Copublished with Cooper Hewitt, Smithsonian Design Museum
