FINALIST FOR THE 2019 NATIONAL BOOK AWARD LONGLISTED FOR THE 2020 ANDREW CARNEGIE MEDAL FOR EXCELLENCE A NEW YORK TIMES BESTSELLER Named a best book of 2019 by The New York Times, TIME, The Washington Post, NPR, Hudson Booksellers, The New York Public Library, The Dallas Morning News, and Library Journal. "Chapter after chapter, it's like one shattered myth after another." - NPR "An informed, moving and kaleidoscopic portrait... Treuer's powerful book suggests the need for soul-searching about the meanings of American history and the stories we tell ourselves about this nation's past.." - New York Times Book Review, front page A sweeping history—and counter-narrative—of Native American life from the Wounded Knee massacre to the present. The received idea of Native American history—as promulgated by books like Dee Brown's mega-bestselling 1970 *Bury My Heart at Wounded Knee*—has been that American Indian history essentially ended with the 1890 massacre at Wounded Knee. Not only did one hundred fifty Sioux die at the hands of the U. S. Cavalry, the sense was, but Native civilization did as well. Growing up Ojibwe on a reservation in Minnesota, training as an anthropologist, and researching Native life past and present for his nonfiction and novels, David Treuer has uncovered a different narrative. Because they did not disappear—and not despite but rather because of their intense struggles to preserve their language, their traditions, their families, and their very existence—the story of American Indians since the end of the nineteenth century to the present is one of unprecedented resourcefulness and reinvention. In *The Heartbeat of Wounded Knee*, Treuer melds history with reportage and memoir. Tracing the tribes' distinctive cultures from first contact, he explores how the depredations of each era spawned new modes of survival. The devastating seizures of land gave rise to increasingly sophisticated legal and political maneuvering that put the lie to the myth that Indians don't know or care about property. The forced assimilation of their children at government-run boarding schools incubated a unifying Native identity. Conscripted in the US military and the pull of urban life brought Indians into the mainstream and modern times, even as it steered the emerging shape of self-rule and spawned a new generation of resistance. *The Heartbeat of Wounded Knee* is the

essential, intimate story of a resilient people in a transformative era.

A NEW YORK TIMES NOTABLE BOOK • Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, *Homegoing* follows the parallel paths of these sisters and their descendants through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation.

The Murder of Meriwether Lewis and the Mysterious Discoveries of the Lewis and Clark Expedition Harper Collins

In 1528, a mission set out from Spain to colonize Florida. But the expedition went horribly wrong: Delayed by a hurricane, knocked off course by a colossal error of navigation, and ultimately doomed by a disastrous decision to separate the men from their ships, the mission quickly became a desperate journey of survival. Of the three hundred men who had embarked on the journey, only four survived—three Spaniards and an African slave. This tiny band endured a horrific march through Florida, a harrowing raft passage across the Louisiana coast, and years of enslavement in the American Southwest. They journeyed for almost ten years in search of the Pacific Ocean that would guide them home, and they were forever changed by their experience. The men lived with a variety of nomadic Indians and learned several indigenous languages. They saw lands, peoples, plants, and animals that no outsider had ever seen before. In this enthralling tale of four castaways wandering in an unknown land, Andrés Reséndez brings to life the vast, dynamic world of North America just a few years before European settlers would transform it forever.

The Heartbeat of Wounded Knee Vintage

Strange as it sounds, during the 1870s and 1880s, America's most popular spectator sport wasn't baseball, football, or horseracing—it was competitive walking. Inside sold-out arenas, competitors walked around dirt tracks almost nonstop for six straight days (never on Sunday), risking their health and sanity to see who could walk the farthest—more than 500 miles. These walking matches were as talked about as the weather, the details reported in newspapers and telegraphed to fans from coast to coast. This long-forgotten sport, known as pedestrianism, spawned America's first celebrity athletes and opened doors for immigrants, African Americans, and women. But along with the excitement came the inevitable scandals, charges of doping and insider gambling, and even a riot in 1879. *Pedestrianism* chronicles competitive walking's peculiar appeal and popularity, its rapid demise, and its enduring influence.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

The Legend of Quetzalcoatl Penguin

Taking place during the most critical period of our nation's birth, *The First Conspiracy* tells a remarkable and previously untold piece of American history that not only reveals George Washington's character, but also illuminates the origins of America's counterintelligence movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington's bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeiters, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close

America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot against him in the tumultuous days leading up to July 4, 1776. Praise for *The First Conspiracy*: "This is American history at its finest, a gripping story of spies, killers, counterfeiters, traitors?and a mysterious prostitute who may or may not have even existed. Anyone with an interest in American history will love this book." —Douglas Preston, #1 bestselling author of *The Lost City of the Monkey God* "A wonderful book about leadership?and it shows why George Washington and his moral lessons are just as vital today. What a book. You'll love it." —President George H.W. Bush "This is an important book: a fascinating largely unknown chapter of our hazardous beginning, a reminder of why counterintelligence matters, and a great read." —President Bill Clinton

George Meegan is an adventurer, lecturer, school reformer, and world traveler. He holds eight Guinness World Records, the most official world records for any European. This includes "The Longest Unbroken March of All Time" that which is described in this book. The epic journey he began linked Tierra del Fuego, South America to Prudhoe Bay, Alaska. The 19,019 miles, was completed in 2,425 days / 41 million steps. He was shot at and nearly killed by a Street Gang in Panama. He traversed the historically impassable Darien Gap, married his Japanese sweetheart, became a father, and was welcomed by US President Jimmy Carter! Across the United States the World Walker preceded town-to-town, George found he had discovered the 'American Dream'! From New York, where he was honoured by Meegan Day in Brooklyn. He proceeded through northern USA, into Canada's Yukon, and onto the final step into the Arctic Circle. On the afternoon of September 18, 1983, he crossed frozen tundra to the edge of the Arctic Ocean, dipped his hand into the cold, slivery water, and was done. He fell to his knees and wept. Until this day no human had ever traversed the entire Americas, be it by vehicle or even ship or aircraft; but of course, Meegan was on foot. Today, nearly three decades later, the feat remains unequalled. At age 31, George Meegan had walked 19,019 unbroken miles, and rose from the water's edge to face a new challenge of dealing with his journey for the entire remainder of his life. The Longest Walk took place between 1977 and 1983. In 2000, he completed about 500km across the ice to reach Barrow, Alaska, the largest Eskimo settlement in the world. It was the final action of the 20th century at the historic millennium, Meegan uniquely got the USA government (by order of the White House) to 'fall down on knees' and apologize before to the First Nations for historical travesties. The story of the Longest Walk found its way to Dodd, Mead of New York. Just before publication, the book editor died, and then, after 199-years, Dodd, Mead slipped beneath the waves into bankruptcy. So, notwithstanding powered coverage, it was too late. The sunk publisher took the book down with them, after being told that his book was bound to become a bestseller. The English Publishers told him 'They would publish nothing he wrote!!' In 1989, Paragon House pressed out a few thousand copies, but few saw it. Xlibris, ETC. of Philadelphia resurrected it; all in all, not a success. Still, from time to time, Meegan received letters asking about the abrupt vanish of *The Longest Walk*. Now, the answer is the 2021 Third Edition. This is the original story, with unpublished photos, an extended

appendix, and Yoshiko, his wife makes an encore!

The Life and Teachings of Quetzalcoatl Abrams
 INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

The First Conspiracy Flatiron Books

Twenty-five years ago, a disillusioned young man set out on a walk across America. This is the book he wrote about that journey -- a classic account of the reawakening of his faith in himself and his country. "I started out searching for myself and my country," Peter Jenkins writes, "and found both." In this timeless classic, Jenkins describes how disillusionment with society in the 1970s drove him out onto the road on a walk across America. His experiences remain as sharp and telling today as they were twenty-five years ago -- from the timeless secrets of life, learned from a mountain-dwelling hermit, to the stir he caused by staying with a black family in North Carolina, to his hours of intense labor in Southern mills. Many, many miles later, he learned lessons about his country and himself that resonate to this day -- and will inspire a new generation to get out, hit the road and explore.

The New York Times-bestselling final book by the beloved, Pulitzer-Prize winning historian Tony Horwitz. With *Spying on the South*, the best-selling author of *Confederates in the Attic* returns to the South and the Civil War era for an epic adventure on the trail of America's greatest landscape architect. In the 1850s, the young Frederick Law Olmsted was adrift, a restless farmer and dreamer in search of a mission. He found it during an extraordinary journey, as an undercover correspondent in the South for the up-and-coming New York Times. For the Connecticut Yankee, pen name "Yeoman," the South was alien, often hostile territory. Yet Olmsted traveled for 14 months, by horseback, steamboat, and stagecoach, seeking dialogue and common ground. His vivid dispatches about the lives and beliefs of Southerners were revelatory for readers of his day, and Yeoman's remarkable trek also reshaped the American landscape, as Olmsted sought to reform his own society by creating democratic spaces for the uplift of all. The result: Central Park and Olmsted's career as America's first and foremost landscape architect. Tony Horwitz rediscovers Yeoman Olmsted amidst the discord and polarization of our own time. Is America still one country? In search of answers, and his own adventures, Horwitz follows Olmsted's tracks and often his mode of transport (including muleback): through Appalachia, down the Mississippi River, into bayou Louisiana, and across Texas to the contested Mexican borderland. Venturing far off beaten paths, Horwitz uncovers bracing vestiges and strange new mutations of the Cotton Kingdom. Horwitz's intrepid and often hilarious journey through an outsized American landscape is a masterpiece in the tradition of *Great Plains*, *Bad Land*, and the author's own classic, *Confederates in the Attic*.

Longlisted for the 2018 National Book Award in Poetry Winner of the National Poetry Series Competition, selected by Cornelius Eady--an exploration in verse of imperial appropriation and Mexican American cultural identity "Marvelous, argumentative, and curiosity-provoking" --The New York Times Book Review The poems in J. Michael Martinez's third collection of poetry circle around how the perceived body comes to be coded with the trans-historical consequences of an imperial narrative. Engaging beautiful and otherworldly Mexican casta paintings, morbid photographic postcards depicting the bodies of dead Mexicans, the strange journey of the wood and cork leg of General Santa Anna, and Martinez's own family lineage, *Museum of the Americas* gives accounts of migrant bodies caught beneath, and fashioned under, a racializing aesthetic gaze. Martinez questions how "knowledge" of the body is organized through visual perception of that body, hypothesizing the corporeal as a repository of the human situation, a nexus of culture. *Museum of the Americas'* poetic revives and repurposes the persecuted ethnic body from the appropriations that render it an art object and, therefore, disposable.

"About two thousand years ago a mysterious white man walked from tribe to tribe among the American Nations. He came to Peru from the Pacific. He traveled through the South and Central America, among the Mayans, into Mexico and all of North America, then back to ancient Tula, from whence he departed across the Atlantic to the land of his origin. Who was this white Prophet who spoke a thousand languages, healed the sick, raised the dead, and taught in the same words as Jesus Himself? These are true Indian legends, gathered during twenty-five years of research by L. Taylor Hansen, archeologist and writer, from many different tribes all over the Americas. By consulting museums,

libraries and experts on folklore, it has been possible for her to correlate the findings into this fascinating book, backed up by the spades of the diggers into ancient ruins. This is a book that will back up the New Testament of the East, with the Christian Indian legends of the West. In this book is proof that a mysterious healer and prophet came not only to one continent, but to Pacific Islands and the Americas as well. This book will strengthen your faith as no other could! Now, back in print in this paperback edition after more than 20 years! Did a strange miracle man travel, with the help of a Phoenician fleet, around the world about 2000 years ago-voyaging across the Pacific from Indonesia and then returning to the Mediterranean? Hansen tells us: Yes!"-- Publisher's description.
