Concise History of Western Music Rowman & Littlefield Publishers

A Concise History of Western Civilization: From Prehistoric to Early Modern Times: Third Edition By: Gary Forsythe This volume is designed to serve as the textbook for an undergraduate college course that surveys the history of Western Civilization up to the Early Modern Period. It differs from most Western Civilization books in that it places more emphasis on the ancient world and less on the Middle Ages. It treats the ancient Near Eastern civilizations with a view to understanding the historical context of ancient Judaism and the Hebrew Bible, and it also stresses the political thought and institutions of the ancient Greeks and Romans, which have been so important in shaping the political institutions of many modern nations worldwide. The text is a straightforward textbook of basic historical information and represents the content of the author's class lectures in his course on Western Civilization.

The Treaty of Versailles Georgetown University Press
This accessible one-volume survey of the literature of Greece and Rome covers the period between Homer around 700 BC and Augustine around AD 410. Highlights what is important historically and of continuing interest and value in classical literature. An introduction by the editor presents essential information in a concise, accessible way. Each chapter focuses on a particular genre or area of literature. This structure allows

readers to see continuities between different periods and to move easily between the Greek and Roman worlds. Includes extensive quotations in English. A timeline and an index of authors help to make the material as accessible as possible.

A Concise History | W. W. Norton Incorporated
From Algeria and Libya to Egypt and Syria, the Arab world commands Western headlines, even as its complex politics and cultures elude the grasp of most Western readers and commentators. Perhaps no other region is so closely linked to contemporary U.S. foreign policy, and nowhere else does the

unfolding of events have such significant consequences for America. A Concise History of the Arabs argues that the key to understanding the Arab world today—and in the years ahead—is unlocking its past. John McHugo takes the reader on a journey through the political, social, and intellectual history of the Arabs from the Roman Empire right up to the present day. His sweeping and fluent account describes in vivid detail the mission of the Prophet Muhammad, the expansion of Islam, the origins of Shiism, medieval and modern conflicts, the fall of the Ottoman Empire, the interaction with Western ideas, the struggle to escape foreign domination, the rise of Islamism, and the end of the era of dictators. McHugo reveals how the Arab world came to have its present form, why change was inevitable, and what choices lie ahead following the Arab Spring. This deeply informed and accessible account is the perfect entry point for anyone seeking to comprehend this vital part of the world.

A Concise History of the Caribbean Rowman & Littlefield

When the British occupied the tiny island of Hong Kong during the First Opium War, the Chinese empire was well into its decline, while Great Britain was already in the second decade of its legendary "Imperial Century." From this collision of empires arose a city that continues to intrigue observers. Melding Chinese and Western influences, Hong Kong has long defied easy categorization. John M. Carroll's engrossing and accessible narrative explores the remarkable history of Hong Kong from the early 1800s through the post-1997 handover, when this former colony became a Special Administrative Region of the People's Republic of China. The book explores Hong Kong as a place with a unique identity, yet also a crossroads where Chinese history, British colonial history, and world history intersect. Carroll concludes by exploring the legacies of colonial rule, the consequences of Hong Kong's reintegration with China, and significant developments and challenges since 1997.

A Concise American History Routledge

In an ever-shrinking world, the need for a global perspective in dealing with the modern world has become acute. This book attempts to provide such a perspective by investigating the major changes in geopolitics and world economy during the past 500 years. However compact, it enables us to understand the present unravelling of Communism and the growing challenge from Asia to Western Superiority. It is shown that in so many ways the

problems of the contemporary world spring from the unprecedented era of western domination, which the non-western world is now trying to unlive.

Fifth International Student Edition, Anthology Update Cengage Learning

An overview of Western esoteric currents since late antiquity, with an emphasis on the last six centuries. Widely received in France, this brief, comprehensive introduction to Western esotericism by the founder of the field is at last available in English. A historical and pedagogical guide, the book is written primarily for students and novices. In clear, precise language, author Antoine Faivre provides an overview of Western esoteric currents since late antiquity. The bulk of the book is laid out chronologically, from ancient and medieval sources (Alexandrian Hermetism, Gnosticism, Neoplatonism), through the Renaissance up to the present time. Its coverage includes spiritual alchemy, Jewish and Christian Kabbalah, Christian theosophy, Rosicrucianism, Illuminism, "mystical" Freemasonry, the "occultist" current, Theosophical and Anthroposophical Societies, the Traditionalist School, and "esotericism" in contemporary initiatic societies and in New Religious Movements. Faivre explores how these currents are connected, and refers to where they appear in art and literature. The book concludes with an annotated bibliography, which makes it an essential resource for beginners and scholars alike. "A characteristically erudite, sweeping brief survey of the field of Western esotericism, at once accessible and bristling with details. This is a valuable overview, from the inimitable perspective of the field's founder, for those who wish to delve into this fascinating and thriving area of contemporary scholarship." — Arthur Versluis, author of *Restoring Paradise, Wisdom's Children, and Magic and Mysticism* "The classic survey of Western esotericism by the most knowledgeable and influential scholar of

his generation is now finally accessible to English readers, in an updated edition that takes account of current developments. This small but precious volume will be indispensable for anybody who wishes to be well informed about the historical backgrounds and development of esoteric currents from antiquity to the present."

— Wouter J. Hanegraaff, University of Amsterdam

A Concise History Cambridge University Press

A Concise History of the Caribbean presents a general history of the Caribbean islands from the beginning of human settlement about seven thousand years ago to the present. It narrates processes of early human migration, the disastrous consequences of European colonization, the development of slavery and the slave trade, the extraordinary profits earned by the plantation economy, the great revolution in Haiti, movements toward political independence, the Cuban Revolution, and the diaspora of Caribbean people. Written in a lively and accessible style yet current with the most recent research, the book provides a compelling narrative of Caribbean history essential for students and visitors.

history skills, and adaptive activities to reinforce concepts.

A Concise History W.W. Norton & Company

"Western Civilization: A Concise History is an Open Educational Resource textbook covering the history of Western Civilization from approximately 8,000 BCE to 2017 CE. It is available in three volumes covering the following time periods and topics: Volume 1: from the origins of civilization in Mesopotamia c. 8,000 BCE through the early Middle Ages in Europe c. 1,000 CE. Volume 1 covers topics including Mesopotamia, Egypt, Persia, Greece, Rome, the Islamic caliphates, and the early European Middle Ages. Volume 2: from the early Middle Ages to the French Revolution in 1789 CE. Volume 2 covers topics including the High Middle Ages, the Renaissance, the European conquest of the Americas, the Reformation, the Scientific Revolution, and the Enlightenment. Volume 3: from the Napoleonic era to the recent past. Volume 3 covers topics including the Industrial Revolution, the politics of Europe in the nineteenth century, modern European imperialism, the world wars, fascism, Nazism, and the Holocaust,

the postwar era, the Cold War, and recent developments in economics and politics"--Online resource page (viewed September 17, 2019).

A Concise Survey of Western Civilization Cengage Learning
Australia is the last continent to be settled by Europeans, but it also sustains a people and a culture tens of thousands of years old. For much of the past 200 years the newcomers have sought to replace the old with the new. This book tells how they imposed themselves on the land, and brought technology, institutions and ideas to make it their own. It relates the advance from penal colony to a prosperous free nation and illustrates how, in a nation created by waves of newcomers, the search for binding traditions has long been frustrated by the feeling of rootlessness. This revised edition incorporates the most recent historical research and contemporary historical debates on frontier violence between European settlers and Aborigines and the Stolen Generations. It covers the Sydney Olympics, the refugee crisis and the 'Pacific

solution'. More than ever before, Australians draw on the past to understand their future.

Liberty, Equality, Solidarity New Press, The

This concise, illustrated history of Portugal offers an introduction to the people and culture of the country, its empire, and to its search for economic modernisation, political stability and international partnership. The book studies the effects of the vast wealth mined from Portuguese Brazil, the growth of the wine trade, and the evolution of international ties. The Portuguese Revolution of 1820 to 1851 created a liberal monarchy, but in 1910 the king was overthrown and, by 1926, had been replaced by a dictatorship. In 1975 Portugal withdrew from its African colonies and turned north to become a democratic member of the European Community in 1986. Researched during the years which followed the fall of Portugal's dictators in 1974, this book has become the standard single-volume work. The second edition brings the story up to date and discusses the state of historical writing on Portugal at the turn of the millennium.
