A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of

American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in

Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst. **2005-2007** Veloce Publishing Ltd Boy meets girl, boy loses girl, boy blames God. Tim Blake is an average guy. He sells cars. He has an ex-wife who's moved in

with another man. It's not a life without hassles, but nothing will prepare him for when his daughter, Sydney, vanishes into thin air. At the hotel where she supposedly worked, no one has ever heard of her. Even her closest friends seem to be at a loss. As he retraces Sydney's steps, Tim discovers that the suburban Connecticut town he always thought of as idyllic is anything but. What he doesn't know is that his every move is being watched. There are others who want to find Sydney as much as Tim does.
