Karate Science: Dynamic Movement is rooted in the teachings of the masters. This book nucleates that knowledge, clarifying and distilling the key principles behind movement dynamics. Martial instruction, both in print and in person, tends to focus on stances and finishing positions. But dynamics, motion, sensation . . . they are karate's connective tissue--and they are the heart of this book.

In 1612 Shakespeare gave evidence at the Court of Requests in Westminster ♦ it is the only occasion his spoken words are recorded. The case seems routine ♦ a dispute over an unpaid marriage-dowry ♦ but it opens up an unexpected window into the dramatist ♦s famously obscure life-story. Charles Nicholl applies a powerful biographical magnifying glass to this fascinating episode in Shakespeare ♦s life. Marshalling evidence from a wide variety of sources, including previously unknown documentary material on the Mountjoys, he conjures up a detailed and compelling description of the circumstances in which

Shakespeare lived and worked, and in which he wrote such plays as Othello, Measure for Measure and King Lear. Shakespeare on Silver Street Michael O'Mara Books
Panzer Tracts No. 7-1 - Panzerjaeger (3.7 cm Tak to Pz.Sfl.lc) development and employment from 1927 to 1941 Now for the first time we present an accurate detailed history of the creation, production, and combat action of these famous tank destroyers. This first volume covers the initial attempts to create chassis specifically designed for self-propelled anti-tank guns (which didnt get into mass production) and the resulting makeshift

conversions on available armored chassis that had to be used in combat. Altogether 12 different projects are covered starting with the real Zwischenloesung, Krupp L.S.K., L.Tr.Sfl., 3.7 cm and 7.5 cm Sfl., Pz.Sfl.II, 8.8 cm Flak 18 Sfl., Pz.Sfl.IVa, Pz.Jaeg.I, 4.7 cm Pak(t) auf Pz.Kpfw.35R, and ending with the rare trial Pz.Sfl.Ia and Pz.Sfl.Ic. New as-built drawings - accurate to the same tight tolerances demanded of the original assembly firms - were created for both production series of the 4.7 cm Pak(t) (Sfl) auf Pz.Kpfw.I. This 72 page book is heavily illustrated with 17 scale drawings and 67 clear/rare large-format photos.

Torn Trousers: A True Story of Courage and Adventure: How A Couple Sacrificed Everything To Escape to Paradise
Bloomsbury Publishing
Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs

and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia

and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Professé a L'école Centrale Des Arts Et Manufactures ...Solar SuccessEssentially, Solar Success is about using solar energy to reduce the fossil generated electricity that we use: to reduce one's carbon footprint. Throughout, it stresses the need to reduce what one uses unnecessarily before one thinks about generating more. This can be done by three associated and economically viable approaches: - reduce energy usage by doing things differently - reduce energy usage by using more energy-efficient appliances - change the supply of energy to non-

fossil fuel through appropriate technology. The solar energy required is there; 7000 times more energy than the world currently uses is available. It makes every sense to use it and countries worldwide increasingly do. Solar is also affordable. In California, Italy and Japan, solar power now challenges power generated through natural gas and nuclear energy. In Germany, home owners' solar generated surplus fed back into the grid network and all energy generated is paid at close to five times grid electricity's buying cost. Australia's solar take up is high in rural areas that lack grid-connection. Sales of systems that draw from and feed back to the electricity grid (i.e. grid-connect) proved even more successful than expected as installation rebates and feed-in tariffs were initially very generous. In mid 2014 the Australian Federal government virtually ceased paying rebates on the curious basis that the scheme was attracting many more takers than had been expected. There is now however a growing move to go off-grid as electricity prices continue to rise (and feedback

payment drop). Knowing what is practicable and what is less practicable with solar enables readers to evaluate what is offered. And to have an often necessary and educated say in the decisions. For those who wish to design and implement systems themselves, *Solar Success* shows how to do it, and how to avoid the traps. However you finance the system, and no matter where or how you live, follow the guidelines in *Solar Success* and you will have an economic system that will supply clean and reliable power for years to come. *Torn Trousers: A True Story of Courage and Adventure: How A Couple Sacrificed Everything To Escape to Paradise* The only way two people can keep a secret is if one of them dies. "Fast action from dramatic start to thrilling climax. Sailors and medics will delight in the accuracy of technical detail. Patterson delivers thrilling suspense fiction." *Donn Taylor, author of Lightning on a Quiet Night, Rhapsody in Red, and The Lazarus File.* An early morning wreck. A grisly, fiery mess. *Paramedic Jim Stockbridge* does his best to save the family but the flames drive him back.

Now, with a masked killer out for revenge and two beautiful women on his mind, Jim is about to learn that failure is not an option - especially when lives are on the line.

In the backwoods of Mississippi, a land of honeysuckle and grapevine, Jewel and her husband, Leston, are truly blessed; they have five fine children. When Brenda Kay is born in 1943, Jewel gives thanks for a healthy baby, last-born and most welcome. Jewel is the story of how quickly a life can change; how, like lightning, an unforeseen event can set us on a course without reason or compass. In this story of a woman's devotion to the child who is both her burden and God's singular way of smiling on her, Bret Lott has created a mother-daughter relationship of matchless intensity and beauty, and one of the finest, most indomitable heroines in contemporary American fiction.

When the Red Army needed to mechanize its cavalry branch in the 1930s, the BT fast tank was its solution. Based on the American Christie high-speed tank, the Red Army began a program to adapt the design to its own needs. Early versions were mechanically unreliable and poorly armed but by the mid-1930s, the BT-5 emerged, armed with an excellent dual-purpose 45mm gun. It saw its combat debut in the Spanish Civil War in 1937 and was later used in the border battles with the Japanese Kwangtung Army in the late 1930s. The final production series, the BT-7, was the most refined version of the family. One of the most common types in Red Army service in the first years of the Second

World War, BT tanks saw extensive combat in Poland, Finland, and the opening phases of Operation Barbarossa in 1941 and latterly during the 1945 campaign against the Japanese in Manchuria - this is the story of their design and development history.

Diesel Engines including Turbo Simon and Schuster 'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need.

Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

"Like Muir himself, Essential Muir packs an astounding range of experience into a lithe frame: ecstatic yet scientific descriptions of Yosemite; the heartrending tale of that "wee, hairy, sleekit beastie," Stickeen; reflections on the society of Eskimos; Muir's touching tribute, after a

lifetime of wonder, to the mighty baobab trees of Africa; and more. Fred D. White's selection from Muir's writings, and his illuminating commentary, reveal the coherence and drama of a remarkable life: new readers will understand why Muir has become an American icon, and readers who are familiar with his work will be delighted with this fresh look. Muir's fierce love of all of nature, from squirrels to glaciers (but perhaps not sheep), continues to inspire us nearly a century after his death."--Book jacket.
