practitioners and researchers working across a wide range of contexts around the world, Discipline-Specific Writing: Explores teaching strategies in a variety of specific areas including science and technology, social science and business; Discusses curriculum development, course design and assessment, providing a framework for the reader; Analyses the

teaching of language features including grammar and vocabulary for academic writing; Demonstrates the use of genre analysis, annotated bibliographies and corpora as tools for teaching; Provides practical suggestions for use in the classroom, questions for discussion and additional activities with each chapter. Discipline-Specific Writing is key reading for students

taking courses in English for Specific Purposes, Applied Linguistics, TESOL, TEFL and CELTA. **Universal Dictionary of the English Language: Rhe-Z** Anchor #1 NEW YORK TIMES BEST SELLER • John Grisham takes you to a different kind of court in his first basketball novel. Samuel "Sooley" Sooleymon is a raw, young talent with big hoop dreams—and even bigger challenges off the court. "Hard to put

down ... the pages turn quickly ... building to a climax that won't leave readers doubting whether this is a John Grisham novel." —Associated Press In the summer of his seventeenth year, Samuel Sooleymon gets the chance of a lifetime: a trip to the United States with his South Sudanese teammates to play in a showcase basketball tournament. He has never been away

from home, nor has he ever been on an airplane. The opportunity to be scouted by dozens of college coaches is a dream come true. Samuel is an amazing athlete, with speed, quickness, and an astonishing vertical leap. The rest of his game, though, needs work, and the American coaches are less than impressed. During the tournament, Samuel receives devastating news from home: A

civil war is raging across South Sudan, and rebel troops have ransacked his village. His father is dead, his sister is missing, and his mother and two younger brothers are in a refugee camp. Samuel desperately wants to go home, but it's just not possible. Partly out of sympathy, the coach of North Carolina Central offers him a scholarship. Samuel moves to Durham, enrolls in classes, joins

the team, and prepares to sit out his freshman season. There is plenty of more mature talent and he isn't immediately needed. But Samuel has something no other player has: a fierce determination to succeed so he can bring his family to America. He works tirelessly on his game, shooting baskets every morning at dawn by himself in the gym, and soon he's dominating everyone in

practice. With the Central team losing and suffering injury after injury, Sooley, as he is nicknamed, is called off the bench. And the legend begins. But how far can Sooley take his team? And will success allow him to save his family? Gripping and moving, Sooley showcases John Grisham's unparalleled storytelling powers in a whole new light. This is Grisham at the top of his

game.

### **Theory into practice**

Hong Kong Economic Times Judgment recognition and enforcement (JRE) between the US states, between EU Member States, and between mainland China, Hong Kong and Macao, are all forms of 'interregional JRE'. This extensive comparative study of the three most important JRE regimes focuses on what lessons China can

draw from the US and the EU in developing a multilateral JRE arrangement for mainland China, Hong Kong and Macao. Mainland China, Hong Kong and Macao share economic, geographical, cultural, and historical proximity to one another. The policy of 'One Country, Two Systems' also provides a quasi-constitutional regime for the three regions. However, there is no multilateral JRE scheme

among them, as there is in the US and the EU; and it is harder to recognise and enforce sister-region judgments in China than in the US and the EU. The book analyses the status quo of JRE in China and explores its insufficiencies; it proposes a multilateral JRE arrangement for Chinese regions to alleviate current JRE difficulties; and it also provides solutions for the macro and micro

challenges of establishing a multilateral arrangement, drawing upon the rich literature on JRE regimes found in the US and the EU. ENDORSEMENTS 'Professor Huang has completed a highly readable and comprehensive study of the issues governing recognition and enforcement of judgments among the three distinct legal regimes of the People's Republic of China...Her ideas will

surely enrich the Chinese debate as well as provide interesting scholarly material for non-Chinese seeking greater understanding of legal reform in the PRC'.

Peter D Trooboff, Senior Counsel, Covington & Burling LLP, Washington DC, USA 'The book shows meticulous, analytical and comparative scholarship. Dr Huang's proposal of a multilateral arrangement makes an original and

valuable contribution to the study of interregional judgment recognition and enforcement among Mainland China, Hong Kong, and Macao'.

Renshan Liu, Professor and Dean, Law School of Zhongnan University of Economics and Law, China 'Dr Huang's timely work provides an insightful analysis of one of the more vexed aspects of the inter-regional legal relations

in Greater China. Her careful investigation makes a valuable contribution to the academic and practical work on the recognition and enforcement of judgments between China and her two special administrative regions. The comparative approach she adopts represents the true utility of comparativism for legal scholarship'. Bing Ling, Professor of Chinese Law, Sydney Law School,

 Disha Publications  
 This book will be of interest to a broad readership, regardless of whether they have a background in sociolinguistics, functional linguistics or genre theories. It presents an accessible “meta-language” (i.e. a language for talking about language) that is workable

and usable for teachers and researchers from both language and content backgrounds, thus facilitating collaboration across content and language subject panels. Chapters 1 to 3 lay the theoretical foundation of this common meta-language by critically reviewing, systematically presenting and integrating key theoretical resources for teachers and researchers in

this field. In turn, Chapters 4 to 7 focus on issues in pedagogy and assessment, and on school-based approaches to LAC and CLIL, drawing on both research studies and the experiences of front-line teachers and school administrators . Chapter 8 provides a critical and reflexive angle on the field by asking difficult questions regarding how LAC and CLIL are often situated in contexts characterized

by inequality of access to the linguistic and cultural capitals, where the local languages of the students are usually neglected or viewed unfavourably in relation to the L2 in mainstream society, and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge. In closing, Chapter 9 reviews the state of the art in the field and proposes

directions for future inquiry.

This second volume of Featured Reviews makes available special detailed reviews of some of the most important mathematical articles and books published from 1997 through 1999. Also included are excellent reviews of several classic books and articles published prior to 1970.

Among those reviews, for example, are the following: Homological Algebra by Henri Cartan and Samuel Eilenberg, reviewed by G. Hochschild; Faisceaux algébriques cohérents by Jean-Pierre Serre, reviewed by C. Chevalley; and On the Theory of General Partial Differential Operators by Lars Hormander, reviewed by J. L. Lions. In particular, those seeking information on current developments

outside their own area of expertise will find the volume very useful. By identifying some of the best publications, papers, and books that have had or are expected to have a significant impact in applied and pure mathematics, this volume will serve as a comprehensive guide to important new research across all fields covered by MR. *DSE Survival Kit* Zander Publishing

*Lessons for China from US and EU Law*  
 Routledge  
 For every fan of K-Pop music, Korean Wave dramas and Kimchi—or anyone intrigued by Korea and

Korean culture—A Geek in Korea is a hip, new guide to the land of the Samsung smartphone and Gangnam Style. Author Dan Tudor first arrived in Korea on the eve of the 2002 World Cup when South Korea played Italy in the finals. What he saw inspired him to return and work in Korea. He served as The Economist magazine's Korea correspondent for three years, and he writes regular columns for

the national daily Joongang Ilbo newspaper. Along the way, he has developed a great love and admiration for Korean culture and the Korean people. A Geek in Korea reinvents the culture guide for the Internet age. Packed with articles and photographs, it covers all the touchstones of Korean culture—from Buddhism and Confucianism to chapters on the traditional arts and disciplines like

Taekwondo. There are chapters on cultural code words and norms; personal relationships; business and technology; and symbols and practices that are peculiarly Korean. A number of chapters are devoted to Korean pop culture, with attention to the stars, idols, and urban subcultures associated with them. For visitors to Korea, the author includes a mini-guide to

his favorite neighborhoods in Seoul and other places of outstanding interest.

Spotlighting the originality and creativity of the Koreans, debunking myths about them, and answering nagging questions like why they're so obsessed with education and success—Tudor has created the perfect book for the growing ranks of Koreaphiles in this inspired, insightful, and highly informative guide.

Written during the golden age of Chinese philosophy, and composed partly in prose and partly in verse, the "Tao Te Ching" is surely the

most terse and economical of the world's great religious texts. In a series of short, profound chapters it elucidates the idea of the Tao, or the Way-an idea that in its ethical, practical, and spiritual dimensions has become essential to the life of China's enormously powerful civilization. In the process of this elucidation, Lao-tzu both clarifies and deepens those

central religious mysteries around which our life on earth revolves. Translation of the Ma Wang Tui Manuscripts by D. C. Oxford University Press, USA  
The 10th anniversary edition of the iconic book that takes parents into the

mysterious world of boys, with new foreword, introduction and tribute to the author.

THE TENTH ANNIVERSARY EDITION OF A PARENTING CLASSIC How do you raise boys to men in a world where trouble beckons at every turn? How do you make sure they learn the 'right' lessons, stay out of danger, find a path to follow? How do you ensure they'll be OK? Celia Lashlie has some of the answers. After years working

in the prison service, she knows what can happen when boys make the wrong choices. She also knows what it's like to be a parent - she raised a son on her own and feared for his survival. As a crucial part of the Good Man Project, she talked to 180 classes of boys. Her insights into what boys need - and what parents can do to help them - are ground-breaking. In this new edition of her

honest, no-nonsense and best-selling book, Celia reveals what goes on inside the world of boys. With clarity and insight, she offers parents - especially mothers - practical and reassuring advice on raising their boys to become good, loving, articulate men. "Celia did an enormous amount of work, particularly standing up for at risk young people, and she made an enormous

contribution."
