Greek Mythology

"Narcissus and Echo" is about romantic confessional fiction, in which the woman dies and the man lives to tell "his" tale. Whether femme fatale, nun, sister, aristocrat or fallen women, she is always somehow blamed for her own destruction. What

motivates the man's narrative and how does the women's voice, curiously, survive the text? Naomi Segal brings insights from feminist and psychoanalytic theory to bear on writers such as Chateaubriand, Musset, Prevost and Gautier. Running throughout this lively and provocative study are dichotomies between speech and sight, male "doubles" and female "mirror", the narcissism of nostalgia and the paradoxes of undesire.

In ancient Greece, one of the twelve labours of Heracles was to bring back a golden apple from the Garden of Hesperides. To archaeologist Oriel Anderson, joining a team of Greek divers on the island of Helios seems like the golden apple of her dreams. Yet the dream becomes a nightmare when she meets the devilish owner of the island, Damian Lekkas. In shocked recognition, she is flooded with the memory of a romantic night in a stranger's arms,

six summers ago. A very different man stands before her now, and Oriel senses that the sardonic Greek autocrat is hell-bent on playing a cat and mouse game with her. As they cross swords and passions mount, Oriel is aware that malevolent eyes watch her from the shadows. Dark rumours are whispered about the Lekkas family. What dangers lie in Helios, a bewitching land where ancient rituals are still enacted to appease the gods, young men risk their lives in the

treacherous depths of the Ionian Sea, and the volatile earth can erupt at any moment? Will Oriel find the hidden treasures she seeks? Or will Damian's tragic past catch up with them, threatening to engulf them both?

A Book of Myths

Graymalkin + ORM
Not just the stories, but what they mean. What is myth, and why does it have such a hold on the human mind? How does myth relate to near forms such as legend and fairy tale, and to other modes

of understanding such as religion and science? What is a hero, what is a monster, and what function does magic serve? How has our relationship with myth and mythology changed over the centuries? And are there any modern myths? These are a few of the fascinating questions that psychiatrist and philosopher Neel Burton explores in the first part of this book. In the second part, he puts theory into practice to unravel 12 of the most captivating Greek myths, including

Echo and Narcissus, Eros and Psyche, and Prometheus and Pandora. These myths have been haunting us for millennia, but are they really, as has been claimed, the repositories of deep wisdom and mystical secrets? Get your copy now to find out.

From the founder of psychoanalysis, Sigmund Freud, comes this fascinating introduction to his theories of narcissism. First published in 1914, *On Narcissism* introduces Sigmund Freud's work surrounding the psychological symptoms and treatment of narcissism. In this work, Freud explores his theories and argues narcissism's relevance to

sexual development.

What is now known as Narcissistic Personality Disorder (NPD) is a mental condition that often affects one's ability to empathise and maintain healthy, balanced relationships. This compact volume is one of Freud's earliest works and contains a wealth of influential information. Examining Carl Jung's theory of non-sexual 'libido' and Alfred Adler's 'masculine protest' concept, Freud offers narcissism as an alternative explanation.

A powerful version of the Latin classic by England's late Poet Laureate, now in paperback. When it was published in 1997, *Tales from Ovid* was immediately recognized as a classic in its own right, as the best rering of Ovid in generations, and as a major book in Ted

Hughes's oeuvre. The *Metamorphoses* of Ovid stands with the works of Homer, Virgil, Dante, and Milton as a classic of world poetry; Hughes translated twenty-four of its stories with great power and directness. The result is the liveliest twentieth-century version of the classic, at once a delight for the Latinist and an appealing introduction to Ovid for the general reader.

Echo and Narcissus:
Echolocating the

Spectator in the Age of Audience Research came about as a response to the recent shift of focus in the studies of cinema. While the seventies and the eighties were marked by increasingly complex theorisations of spectatorship, the last two decades have witnessed a turn towards ethnographic research into film reception. However, this long overdue turn towards the empirical viewer has not produced a genuinely broader scope of analysis. It has rather, all too hastily, consigned the

spectator, a textually constructed viewing position, to oblivion, thanks to the concept's perceived hegemonic and totalising premise. Echo and Narcissus intervenes into this state of affairs by arguing for a productive nexus between theorisations of spectatorship and the currently more fashionable audience research. Petek maintains that an informed mapping of contemporary (and past) filmviewing practices still requires a spectatorial model and

she offers such a model through a re-reading of Ovid's tale of Echo and Narcissus. She demonstrates that the myth's central role in traditional theorisations of spectatorship has not yet been properly reflected upon. Her critical recuperation of the Ovidian myth provides a revised model of the spectator—one with discursive access to all types of cinema, yet, flexible enough to accommodate a range of viewers' responses and their cultural diversity.

Idol Limerence: The Art of Loving BTS as Phenomena by Wallea Eaglehawk is a scholarly and literary work on the phenomenon that is BTS, the most popular and influential music group of our generation. *Idol Limerence*, a phenomena of itself, is a cognitive and emotional state of loving adoration and attachment to an Idol or celebrity. Echo, a young millennial woman, finds herself falling deeply in love with a group of blouse-wearing Korean

men who sing, dance and dish out uncommon potent eye contact like it's a period drama. This book joins Echo on her journey from first love as a child to falling in love with K-pop group BTS as an adult. Echo learns just how and why she can't control her feelings towards BTS, not that she really wants to; and this is not an isolated experience, she is not alone but part of BTS' fan base, ARMY. The theory of Idol Limerence is developed from the psychological idea of

limerence and linked to sociological concepts of identity, persona, parasocial relationships, love and celebrity. The theory development is interwoven with the love narrative of Echo which shows how Idol Limerence can be a 'safe-love' alternative for millennials overwhelmed by loving and dating in a world on the brink of collapse. If the question is 'Why can't I stop thinking about what my life with BTS would look like?' Idol Limerence is the answer and becoming a revolutionary

to save the world is the result.

Craig Malkin addresses

the "narcissism

epidemic," by illuminating

the spectrum of

narcissism, identifying

ways to control the trait,

and explaining how too

little of it may be a bad

thing. "What is

narcissism?" is one of the

fastest rising searches on

Google, and articles on

the topic routinely go

viral. Yet, the word "narcissist" seems to mean something different every time it's uttered. People hurl the word as insult at anyone who offends them. It's become so ubiquitous, in fact, that it's lost any clear meaning. The only certainty these days is that it's bad to be a narcissist—really bad—inspiring the same kind of roiling queasiness we feel when we hear the words sexist or racist. That's especially troubling news for millennials, the people born after 1980,

who've been branded the "most narcissistic generation ever." In *Rethinking Narcissism* readers will learn that there's far more to narcissism than its reductive invective would imply. The truth is that we all fall on a spectrum somewhere between utter selflessness on the one side, and arrogance and grandiosity on the other. A healthy middle exhibits a strong sense of self. On the far end lies sociopathy. Malkin deconstructs healthy from unhealthy narcissism and

offers clear, step-by-step guidance on how to promote healthy narcissism in our partners, our children, and ourselves.

Tales from Ovid

Palgrave MacMillan

Do women in classical Hollywood cinema ever truly speak for themselves? In *Echo and Narcissus*, Amy Lawrence examines eight classic films to show how women's speech is repeatedly constructed as a "problem," an affront to male authority. This book expands feminist studies

of the representation of women in film, enabling us to see individual films in new ways, and to ask new questions of other films. Using Sadie Thompson (1928), Blackmail (1929), Rain (1932), The Spiral Staircase, Sorry, Wrong Number, Notorious, Sunset Boulevard (1950) and To Kill a Mockingbird (1962), Lawrence illustrates how women's voices are positioned within narratives that require their submission to patriarchal roles and how their attempts to

speak provoke increasingly severe repression. She also shows how women's natural ability to speak is interrupted, made difficult, or conditioned to a suffocating degree by sound technology itself. Telephones, phonographs, voice-overs, and dubbing are foregrounded, called upon to silence women and to restore the primacy of the image. Unlike the usage of "voice" by feminist and literary critics to discuss broad issues of authorship and point of view, in film

studies the physical voice itself is a primary focus. Echo and Narcissus shows how assumptions about the "deficiencies" of women's voices and speech are embedded in sound's history, technology, uses, and marketing. Moreover, the construction of the woman's voice is inserted into the ideologically loaded cinematic and narrative conventions governing the representation of women in Hollywood film.
